2000 Ford Expedition Air Conditioner

As your 2000 Ford Expedition ages, the air conditioning unit will gradually lose its ability to cool the cabin of the vehicle. This is most often because the air conditioner unit needs to be recharged with refrigerant. The refrigerant cools the air that the blower forces into the vehicle. While a repair shop can recharge the air conditioner unit, you can do it much more cheaply yourself.

2000 Ford Expedition Ac Not Working Properly: 3 Complaints

When the air conditioner in your 2000 Ford Expedition starts blowing hot air, you likely have a freon leak. Recharging the freon in your AC system is an inexpensive and easy first step to restoring the cooling capacity of your A/C system. Most refrigerants include a leak sealer that will seal small leaks in addition to filling the R134a refrigerant.
