4G93. The 4G93 is a 1.8 L (1,834 cc) engine available in both SOHC and DOHC versions. Turbocharged variants are also produced. In mid 1996 Mitsubishi released a gasoline direct injection (GDI) version of the 4G93. This GDI model saw a production of over a million units though it was a heavy polluter therefore only sold in the

An air flow meter is a device that measures air flow that is how much air is flowing through a tube. However, it does not measure the volume of the air passing through the tube; instead it measures the mass of air flowing through the device per unit time. In simple words, it is an application of mass flow meters for a special medium.
