All the books are listed down a single page with thumbnails of the cover image and direct links to Amazon. If you'd rather not check Centsless Books' website for updates, you can follow them on Twitter and subscribe to email updates.

### A T Nyek M Gi

A gastrointestinal (GI) obstruction is when a person's GI tract is blocked. The GI tract is made up of the esophagus, stomach, small intestine, and large intestine. During the usual process of digestion, food and fluids move through the GI tract. Enzymes, fluids, and electrolytes help the body absorb nutrients during this process.

Structural disorders are those in which the bowel looks abnormal and doesn't work properly. Sometimes, the structural abnormality needs to be removed surgically. Common examples of structural GI disorders include hemorrhoids, diverticular disease, colon polyps, colon cancer and inflammatory bowel disease.

### **Gastrointestinal Disorders: Types, Symptoms & Treatment**

Often, GI bleeding stops on its own. If it doesn't, treatment depends on where the bleed is from. In many cases, medication or a procedure to control the bleeding can be given during some tests. For example, it's sometimes possible to treat a bleeding

peptic ulcer during an upper endoscopy or to remove polyps during a colonoscopy.
