PSY 210 case summary assignment

Even today case histories are one of the main methods of investigation in abnormal psychology and psychiatry. This makes it clear that the case study is a method that should only be used by a psychologist, therapist or psychiatrist, i.e. someone with a professional qualification. There is an ethical issue of competence.

Case Studies in Abnormal Psychology - Thomas F. Oltmanns ...

This definition also implies that the presence of abnormal behavior in people should be rare or statistically unusual, which is not the case. Instead, any specific abnormal behavior may be unusual, but it is not unusual for people to exhibit some form of prolonged abnormal behavior at some point in their lives, and mental disorders such as depression are actually very statistically common.

Case Study 4. Martin is a 21 year-old business major at a large university. Over the past few weeks his family and friends have noticed increasingly bizarre behaviors. On many occasions they've overheard him whispering in an agitated voice, even though there is no one nearby. Lately, he has refused to answer or make calls on his cell phone ...

Case Studies - PsyWeb

Collective case studies: These involve studying a group of individuals. Researchers might study a group of people in a certain setting or look at an entire community of people. Descriptive case studies: These involve starting with a descriptive theory. The subjects are then observed and the information gathered is compared to the pre-existing theory.
