Answers for Cell Division and Differentiation Study Guide ...

Cell Division Study Guide Answer ANSWER KEY Study Guide for Quiz 3.1 - Cell Division Directions: Explain the following vocabulary terms in your own words. 1. Mitosis: type of cell division that results in two daughter cells that each have the same number and type of chromosomes as the parent cell Study Guide for Quiz 3.1 - Cell Division ANSWER KEY

Cell Division Study Guide Answer Key

Cell division consists of two phases— nuclear division followed by cytokinesis. Nuclear division divides the genetic material in the nucleus, while cytokinesis divides the cytoplasm. There are two kinds of nuclear division—mitosis and meiosis. Mitosis divides the nucleus so that both daughter cells are genetically identical.

Cell Division - CliffsNotes Study Guides

ANSWER KEY Study Guide for Quiz 3.1 - Cell Division Directions: Explain the following vocabulary terms in your own words. 1. Mitosis: type of cell division that results in two daughter cells that each have the same number and type of chromosomes as the parent cell 2. Meiosis: a type of cell division that results in four haploid gametes 3.
