Changing Belief Systems With NLP by Robert Brian Dilts ...

Hardcover: 221 pages Our beliefs are a very powerful influence on our behavior. It is widely understood that if someone really believes he/she can do something, he/she will do it; but if he/she believes something is impossible, no amount of effort will convince him/her that it can be accomplished. Our beliefs about ourselves and what is possible greatly affected our day to day effectiveness.

NLP techniques can help you to change your beliefs and view those around you more dispassionately and with clarity and precision.

NLP techniques for changing beliefs

NLP Presuppositions The co-founders of NLP discovered that the people they modelled (Milton Erickson, Virginia Satir, and Fritz Perls), who were very successful at helping others change, had a number of similar, useful beliefs. These are useful beliefs for us to adopt when helping other people develop and change. We have reworded them slightly.

"Changing Belief Systems" is a thorough review of beliefs and how to change them, from a perspective afforded by Neuro Linguistic Programming (NLP). Robert Dilts has, as always, taken a difficult subject and translated it into a readily understandable model.

Amazon.com: Customer reviews: Changing Belief Systems With NLP

How to Change Beliefs Using NLP Submodalities is framed in the template submodalities. If the unconscious mind has approved the change and you have done accurate work, the meaning of the experience will shift to reflect the qualities associated with the template submodalities. You might need to repeat the shift two or three times to automate it.

How to Change Beliefs Using NLP Submodalities
