The first thing you have to do is access the website found at [scratch.mit.edu](http://scratch.mit.edu). once on the site, use the Join Scratch option to create an account. Once this is finished, use the create option at the top left side of the window to create a project. This is where the fun begins.

### Pong in Scratch : 16 Steps - Instructables

In order to play Pong, we need paddles to hit the ball with. For the paddles, we can create same kind of object as we did for the ball, with the difference that instead of diameter, we now have width and height (w and h), and we draw a rectangle.

### Pong With Processing : 11 Steps - Instructables

In Processing, there's a standard skeleton for basic programs: void setup () { } void draw () { } Now, let me create the playing field (window) in the setup method and create a ball (circle or ellipse) in the draw method.

### Thinking Through A Basic Pong Game in Processing | William ...

The ultimate nostalgic "action" game. This is how it all started! Click on "Run Program!" to start the game. Left player: Q=up, A=stop, Z=down. Right player: P=up, L=stop, <=down. As always, feel free to change the BASIC code to make this your game. For example you can add score keeping and new ball angles to make it more interesting.

### Quite BASIC — Ping Pong

In this class, I will show you how to make a simple, easy to follow, classic Pong game using Javascript and P5js framework. In the class, we will. draw lines. add paddle. make the paddle move using keyboard. make a bouncing ball. add the computer. add the score system.

### Make A Classic Pong Game, Javascript & P5.js Framework ...

We assume very basic familiarity with the Unity interface. Learn how to setup the scene, receive input, move the ball and paddle, and create win conditions - all in just one small video!

### Unity 2D Pong Game in 20 Minutes

Make three picture boxes (one player paddle, one computer paddle, one ball). Name and position them accordingly: playerPaddle at the bottom, computerPaddle at the top, ball in the centre. Add a timer with an Interval value of 50, and an Enabled value of true.

### Creating a Pong Game

```
padX = GraphicsWindow.MouseX-padlength/2. padY = GraphicsWindow.MouseY-padlength/2. 'Top paddle. If (y <= padsize + ballsize/2 and x >= padX and x <= padX + padlength) Then. deltaY = -deltaY*bounce. y = padsize + ballsize/2 'Since y is not integer, make sure we start on paddle when bouncing away - prevents double hits.
```

### Microsoft Small Basic Program Listing

Pong is a minimal example of what a game is. Pong is simple to make, but still contains the structure of a real game. Other and more complex games would still be using the same basic concepts that are needed to create a Pong game. The main focus of this tutorial is on showing you how to create a game from the ground up by using simple ...
