305-0813-01 Onan 24v Battery Float Charger Cummins for ...

The CTD Ram trucks are 12v, not 24. If you need to charge, simply connect a battery charger to one of the batteries and plug it in. The batteries are linked, and will charge (or drain) together as if it were 1 large 12v battery. It's very straightforward. And I'll echo the comments that say it's probably not needed.

How to charge Ram Diesel batteries since there are two ...

Shelf-model standard battery chargers usually cost around \$30 to \$100 and are suitable for charging 12V car batteries. The price depends on the size and weight of the charger. On the other hand, the cost of portable car battery chargers can range from \$16 to over \$500.
