The Order of Things: An Archaeology of the Human Sciences is a 1966 book by the French philosopher Michel Foucault. It was translated into English and published by Pantheon Books in 1970.. Foucault endeavours to excavate the origins of the human sciences, which have their root in "life, labour, and language", that is: biology, economics, and linguistics. The book opens with an extended discussion of Diego Velázquez's painting Las Meninas and its complex arrangement of sightlines, hiddenness ...

INTRODUCTION. Michel Foucault's *The Order of Things* is a toast and testament to the fact that every idea presupposes an entire style of thinking, a.k.a an episteme. He outlines three epistemes in the history of the West— the Ancient, the Classical, and the Modern, each of which has a unique method of deciphering the world and articulating knowledge.

Michel Foucault, from "The Order of Discourse". R. Young, ed. *Untying the Text* (1971), pp. 52-64. In a refreshing change in structure from that of many other theorists, Foucault actually begins this excerpt with a thesis that he proceeds to explain and explore in the remainder of the piece: "in every society the production of discourse is at once controlled, selected, organised and redistributed by a certain number of procedures whose role is to ward off its powers and dangers, to ...

Discipline and Punish is a study of the development of the French penal system in which Foucault reasserts a basic premise introduced in Madness and Civilisation: that it is essential to the fortification of a social order that aberrant “others” be isolated. For many critics, it is the most accessible of Foucault’s arguments.

## **The order of discourse - Worlds Colors**

Michel Foucault (1926–1984) Michel Foucault was a major figure in two successive waves of 20th century French thought—the structuralist wave of the 1960s and then the poststructuralist wave. By the premature end of his life, Foucault had some claim to be the most prominent living intellectual in France.
