guidelines which are grouped into (1) development, (2) production, (3) distribution, (4) inspection, (5) quality control, (6) regulatory standards and (7) specific texts for prequalification of medicines.

Guidelines - WHO

The medication preparation area should be cleaned and disinfected on a regular basis and any time there is evidence of soiling. In addition, there should be ready access to necessary supplies (such as alcohol-based hand rub, needles and syringes in their sterile packaging, and alcohol wipes) in the medication preparation area to ensure that staff can adhere to aseptic technique.
