I tried using the search function but couldn't find an answer to my question (please don't tear me apart if I missed something). I am replacing the rear axle carrier bearings on a 1983 Honda ATC 185s for a family friend. Rear axle was clunking around when I got the machine. I took it all apart and pressed the new rear bearings/seals in, and when I slid the axle in it still clunks around and ...
