HP ProVision, Comware 5, and Cisco operating systems. The HP ProVision operating system runs on HP 3500, 5400zl, 6200yl, 6600, and 8200zl Switch Series. (Other HP switches use an operating system that is very similar to the ProVision operating system.) Comware 5 runs on H3C and 3Com switches, which are now part of the HP Networking portfolio.

Version 3 of the HP Networking and Cisco CLI Guide ...

Most Cisco devices (including routers and switches) use a CLI (Command Line

Download File

PDF Hp

Interface) to configure

the network device.

The CLI is an interface,
based on text. You

type in configuration
commands and use

show commands to get
the output from the
router or switch. There

are also GUIs

(Graphical User
Interface) for the

routers, switches and
firewalls but the

majority of the work is
done on the CLI.
