Participant observation and  
ethnography, at large, are an everyday  
staple for researchers in migration,  
ethnic and mobility studies. Even only an  
overview of the key ethnographies done  
so far, within national and disciplinary  
boundaries or across them, would call  
for a chapter in itself.

A time series is a series of data points indexed (or listed or graphed) in time order. Most commonly, a time series is a sequence taken at successive equally spaced points in time. Thus it is a sequence of discrete-time data. Time Series analysis can be useful to see how a given asset, security or economic variable changes over time.
