Programming In Lua 4th Edition
Programming in Lua is targeted at people with some programming background, but does not assume any prior knowledge about Lua or other scripting languages. This Fourth Edition updates the book to Lua 5.3 and marks a complete reorganization of the text. Building on his many years of experience teaching Lua, Roberto has restructured the book to present the material in a growing order of complexity, allowing the reader to better absorb the character of the language.

Lua gives the final shape of the application, which will probably change a lot during the life cycle of the product. We can use Lua not only to glue components, but also to adapt and reshape them, and to create completely new components. Of course, Lua is not the only scripting language around. There are other languages that you can use for
