Rationality is the commitment to the principle that all personal convictions, desires, goals, values and actions have to be based on, chosen, derived from, and proved by the process of thought. It is a skill or habit that requires short but adequate time to apply. It is the habit that one acts with reason and uses same to act.

An Essay on Rationality - Rosoen Writers

This stimulating work takes the concept of 'rationality', a concept that more than any other is supposed to express the essence of what it means to be human, and submits it to a careful and penetrating analysis. The conclusions drawn often challenge those previously suggested by both philosophers and psychologists. Reviews:

Rationality in Humans Essay. Contradiction is the nature of the society. If there is a religion, there will be those who do not believe. If there is a war, there will be those that want peace. If there is a political movement, there will be those that disagree. Humans are bound to go against their own believes, their own strategies, and their own establishments.

One of the most famous of these is Aristotle's definition of man; Aristotle defined man as being a rational animal. According to this definition, rationality is what separates man from all other animals; it is what makes them unique. In order to prove this to be an accurate definition of man the definition of rational must first be understood.

The premiere of Leni Riefenstahl's Triumph of the Will, Berlin, March 28, 1935. The second time Triumph of the Will comes up in Book Six of My Struggle, Knausgaard reflects that "Nazi Germany was the absolute state. It was the state its people could die for." Watching Riefenstahl's film of the rallies in Nuremberg, its depiction of people almost paradisiac in its unambiguousness ...

Bounded rationality is the idea that rationality is limited, when individuals make decisions, by the tractability of the decision problem, the cognitive limitations of the mind, and the time available to make the decision. Decision-makers, in this view, act as satisficers, seeking a satisfactory solution rather than an optimal one.. Herbert A. Simon proposed bounded rationality as an ...
