REUSE/RECYCLING OF GLASS CULLET - EPA Archives

The necessity for adopting sustainable practices is becoming increasingly clear, and the recovery of maximum value from surplus glass cullet is a key component in this. The concrete construction industry can provide a number of alternative uses for cullet that can add value to this waste material.

Recycling and Reuse of Glass Cullet

The continued drive to increase glass recycling across Europe in recent years - reaching 70% across the EU this year [1] - can only be applauded since the subsequent growth in the amount of cullet (recycled glass) used by the industry is saving more than 12 million tonnes of raw material and 4 million tonnes of CO₂ emissions annually. The use of cullet reduces raw material and energy costs, as well as the cost associated with the European Emissions Trading Scheme (EU-ETS) across all ...

Why glass recycling in the US is broken

Glass recycling is the processing of waste glass into usable products. Glass that is crushed and ready to be remelted is called cullet. There are two types of cullet: internal and external. Internal cullet is composed of defective products detected and rejected by a quality control process during the industrial process of glass manufacturing, transition phases of product changes (such as ...
