The very first self hypnosis step is the "induction." "Induce" means getting into a relaxed focus state, often called Alpha. One of the easiest inductions to remember is simply to count backward from 20 to 1. By closing and opening your eyes on each count, your eyes will get tired and that slows down your brain waves and relaxes the mind.

### Self Hypnosis Steps Simplified - Mind To Succeed

Self-hypnosis is about putting new thoughts and ideas into the mind. Hypnosis is a safe and effective way to alter your beliefs and habits. There are health professionals trained in the use of hypnotherapy, but you can get many of the same benefits on your own. However, seek out professional assistance if necessary.
