Nuggets don't like to live in their boxes, the sooner you can open up your Nugget the better. The Nugget travels to you tightly compressed and wrapped up like a foam burrito - but the longer it's in there, the longer it will take to pop back to form and un-wrinkle, so we strongly recommend you open your box as soon as it lands on your front ...

The pocket price is the list price minus discounts, rebates, promotions, free freight, and similar offers. The contribution margin of a sale transaction can be determined by subtracting the cost of goods sold from the pocket price. For example, a business sells a product that has a list price of \$100. There are associated discounts and rebates totaling \$20, so the pocket price is \$80.
