The Rational Optimist: How Prosperity Evolves by Matt Ridley

Matt Ridley, acclaimed author of the classics Genome and Nature via Nurture, turns from investigating human nature to investigating human progress. In The Rational Optimist Ridley offers a counterblast to the prevailing pessimism of our age, and proves, however much we like to think to the contrary, that things are getting better. Over 10,000 years ago there were fewer than 10 million people ...

The Rational Optimist: How Prosperity Evolves - Matt ...

The Rational Optimist is a 2010 popular science book by Matt Ridley, author of The Red Queen: Sex and the Evolution of Human Nature. The book primarily focuses on the benefits of the innate human tendency to trade goods and services. Ridley argues that this trait, together with the specialization linked to it, is the source of modern human civilization, and that, as people increasingly specialize in their skill sets, we will have increased trade and more prosperity.
