The Science Of Happily Ever

"The Science of Happily Ever After" has many virtues and the survey of such a massive amount of research is really worth reading, and it is made better by the weave of interesting personal stories that illustrate the science in action. In the end, I give the book 5/5 stars despite its few shortcomings. I highly recommend this book.

The Science of Happily Ever After: What Really Matters In ...

The Science of Happily Ever After is a frustrating book, flitting between being a helpful snapshot of current information about long-term relationships—a purely descriptive one-- and a much more ambitious work that attempts to delve into that (arguably) unavoidably irrational facet of people's lives and impose order through collecting insights from the empirical literature of psychology. In the former, it succeeds.
