The Secret Code Of Japanese

The Secret Code of Japanese Candlesticks is the first book ever published in the English language that explains this key and how to use it. covering both the Samni No den of the Market and the Sakata strategies, with practical examples, illustrations, charts, graphs and a table to simplify this ancient methodology, this book presents a self-contained, standalone methodology which will enable readers to master this unique and highly effective approach to trading.

The Secret Code of Japanese Candlesticks: Tudela, Felipe ...

The Secret Code of Japanese Candlesticks is another stunning book from this author. It has given me knowledge of candlesticks and their underlying logic as no one else ever has, plus a simple diagram of the market cycle and its five setups with the rules to trade them. Just the kind of thing I was looking for.

JN-25. JN-25 is the name given by codebreakers to the main, and most secure, command and control communications scheme used by the IJN during World War II. Named as the 25th Japanese Navy system identified, it was initially given the designation AN-1 as a "research project" rather than a "current decryption" job.

Japanese naval codes - Wikipedia

The main Japanese naval code, the Navy General Operational Code, dubbed JN25 by the U.S., had a code book of 90,000 words and phrases. Even when the superencipherment was stripped to reveal the...

U.S. in World War II: How the Navy broke Japanese codes ...

The Japanese navy, widely deployed throughout the Pacific, heavily relied on coded radio transmissions to send many of its most secret messages—and the U.S. Navy was listening. American cryptanalysts had broken the latest version of the JN-25 code just in time for the Battle of Midway in June 1942.

Have You Heard?: The Secret Mission to Kill Yamamoto

Cryptanalysts also exploited Japanese codes. By late 1940, the U.S. Army and Navy could read Japanese diplomatic messages between Tokyo and embassies in London, Washington, Berlin and Rome. American experts named the Japanese code PURPLE, and they called intelligence from these messages MAGIC.
