The Shape Of The World

While this topic may sound dry, The Shape of the World is ultimately fascinating, especially as narrated by Patrick Stewart of Star Trek fame. Produced in consultation with the British Library and the Royal Geographical Society, the series functions like a college course: episodes are broken up chronologically and thematically and there's even a 20-page supplementary booklet that asks pertinent questions about each show.

Shown over six weeks on PBS, from April 1, 1991 to May 6, 1991, The Shape of the World uses the subject of mostly old maps to cover history, from Eratosthenes, the Egyptian Greek who figured out the circumference of the Earth over 2,200 years ago to modern (in 1990) satellite mapping using computers.

The Shape of the World (TV Mini-Series 1991-) - IMDb

The book's strong design begins with its nearly square shape and a cover that's reminiscent of one of Wright's leaded stained glass windows. The theme of windows looking out onto the world is evident throughout, incorporating elements unique to Wright's style.

The Shape of the World: A Portrait of Frank Lloyd Wright ...

The Shape of the World, According to Ancient Maps A Babylonian clay tablet helped unlock an understanding for how our ancestors saw the world. Dating all the way back to the 6th century BCE, the Imago Mundi is the oldest known world map, and it offers a unique glimpse into ancient perspectives on earth and the heavens.
