“The Towers of the Sunset” is the second book of the Recluce saga. However, instead of depicting events that occur subsequent to the ending of the first book, it jumps back in time to before the island of Recluce was established. Overall, it's a good read if you liked Modesitt's first novel.

500 years after the arrival of the Angels, in The Towers of Sunset, Cyador is long gone. But, half-way across the continent of Candar, towards the East, is Fairhaven: a city-state ruled by an oligarchy of white wizards. Their prejudices and their written history imply that Fairhaven was founded by descendants of Cyador.
