The Twentieth Century World And

The Twentieth-Century World and Beyond: An International History since 1900 explores the history of modern relations between the U.S., Europe, Africa, Asia, Latin America, and the Middle East. The book's unique analytical framework--which focuses on the relationships between and among countries rather than on individual histories--helps students easily examine how the nations of the world have interacted since the beginning of the last century.

You cannot properly understand current world events without understanding the history of the 20th Century. This topic takes us on a journey from the end of Imperialism through two world wars and the Cold War and brings us to our modern world.

The 20th century | World history | Arts and humanities ...

The 20th century saw the largest transformation of the world order since the Fall of Rome: global total fertility rates, sea level rise and ecological collapses increased; the resulting competition for land and dwindling resources accelerated deforestation, water depletion, and the mass extinction of many of the world's species and decline in the population of others; consequences which are now being dealt with. The average global temperature on Earth has increased by a little more than 1 ...
