Mac and his brothers are the best. I requested them to set up as close to the beach access and water as possible. High tide came within inches of our tent, but never got us wet. They set up early every morning, and we enjoyed the shade of the tent throughout the day. Great communication. I will definitely use it again!

When viewed from the side, the string path of a properly set up Jazzmaster (Photo 1) is reminiscent of an archtop, such as a venerable L-5 or ES-175 (Photo 2). The strings flow from the tailpiece and break over the floating bridge at an angle, then plummet down a pitched-back neck toward the nut and tuning machines.

You can also use a below-tank sump to create a saltwater or freshwater refugium in your wet dry filter (provided your model allows for it). This can allow you to house delicate fish species that wouldn't survive in the main system and/or grow plants that can assist in nitrate reduction and GREATLY reduce maintenance on your tank.
