---

### **THE SOCIOLOGY OF KARL MANNHEIM**

---

#### **WITH A BIBLIOGRAPHICAL GUIDE TO THE SOCIOLOGY OF KNOWLEDGE, IDEOLOGICAL ANALYSIS, AND SOCIAL PLANNING**

---

**Routledge** Karl Mannheim (1893-1947) occupies a prominent position among the leading social scientists of the twentieth century; his ideas and his books are relevant for many issues engaging the concern of sociologists today. Mannheim's life spanned three cultural traditions - Hungarian, German and British - and in this authoritative study Professor Remmling covers all these phases in his life and work. Mannheim began as an idealistic philosopher, but soon began to make important contributions to the developing area of sociology of knowledge. After his emigration to England in 1933, Mannheim developed a theory of social planning to combat the socio-political consequences of the crisis of liberalism. During the Second World War his attention shifted to the ethical and religious values of Western humanism and the related role of mass education in democratic social planning. Finally, Mannheim forged the rudiments of a political sociology attacking the abuse of politico-military power and the resulting danger of a third world war, while simultaneously calling for counter-attack under the banner of planning for freedom on behalf of militant, fundamental democracy. In tracing these development in Karl Mannheim's work, Gunter Remmling provides insights into major theoretical and practical issues of the first half of the twentieth century, problems which remain central to the modern experience. A comprehensive bibliography is provided to introduce the sociology of knowledge and related topics, such as ideology, utopia, intellectuals, Weimar culture, and social planning.

## WISSENSCHAFTLICHE PHILANTHROPIE UND TRANSATLANTISCHER AUSTAUSCH IN DER ZWISCHENKRIEGSZEIT

---

---

---

### DIE SOZIALWISSENSCHAFTLICHEN FÖRDERPROGRAMME DER ROCKEFELLER-STIFTUNGEN IN DEUTSCHLAND

---

**Vandenhoeck & Ruprecht** Kann sozialwissenschaftliche Forschung zur Lösung gesellschaftlicher Probleme beitragen? Unter dieser Fragestellung entwickelte eine der Stiftungen der Rockefeller Familie Anfang der 1920er-Jahre ein groß angelegtes finanzielles Unterstützungsprogramm für die amerikanischen und europäischen Sozialwissenschaften. Die Arbeit untersucht die Einbindung Deutschlands in dieses transatlantische Netzwerk wissenschaftlicher und persönlicher Beziehungen. Die Finanzierung von Forschungsprogrammen und die Entsendung von Stipendiaten führten zu einer engen, aber nicht immer einfache Zusammenarbeit deutscher und amerikanischer Verhandlungspartner. Eine Gegenüberstellung u.a. der Quellenbestände des Rockefeller Archive Center mit den umfangreichen Unterlagen des deutschen Verwalters der Programme, August Wilhelm Fehling, ermöglicht den Zugang zu einer verflochtenen Geschichte ("histoire croisée") der Austauschbeziehungen und der aus ihnen resultierenden individuellen und kollektiven Erfahrungen.

## THE GERMAN MILITARY IN WORLD WAR II

---

---

**Berghahn Books** Among the many myths about the relationship of Nazism to the mass of the German population, few proved more powerful in postwar West Germany than the notion that the Wehrmacht had not been involved in the crimes of the Third Reich. Former generals were particularly effective in spreading, through memoirs and speeches, the legend that millions of German soldiers had fought an honest and "clean" war and that mass murder, especially in the East, was entirely the work of Himmler's SS. This volume contains the most important contributions by distinguished historians who have thoroughly demolished this Wehrmacht myth. The picture that emerges from this collection is a depressing one and raises many questions about why "ordinary men" got involved as perpetrators and bystanders in an unprecedented program of extermination of "racially inferior" men, women, and children in Eastern Europe and the Soviet Union during the Second World War. Those who have seen these terrible photos of mass executions and other atrocities, currently on show in an exhibition in Germany and soon to be in the United States, will find this volume most enlightening.

## THE IMPACT OF NAZISM

---

---

## **NEW PERSPECTIVES ON THE THIRD REICH AND ITS LEGACY**

---

**U of Nebraska Press** The essays address the nature of Nazism as reflected in contemporary perceptions of Nazi Germany in the United States; the origins and character of fascism; the many forms of antisemitism; German scholars' efforts to promote persecution in the Third Reich; the role of ethnic Germans in the anti-Jewish and anti-Slavic policies of the Reich; the actions of German police in the occupation of eastern Europe and in the Holocaust; Hitler's style of leadership; the nazification of the German military high command; and the politics surrounding the memory of Nazism and the Holocaust after 1945."--BOOK JACKET.

---

## **THE ORDER OF TERROR**

---

### **THE CONCENTRATION CAMP**

---

**Princeton University Press** During the twelve years from 1933 until 1945, the concentration camp operated as a terror society. In this pioneering book, the renowned German sociologist Wolfgang Sofsky looks at the concentration camp from the inside as a laboratory of cruelty and a system of absolute power built on extreme violence, starvation, "terror labor," and the business-like extermination of human beings. Based on historical documents and the reports of survivors, the book details how the resistance of prisoners was broken down. Arbitrary terror and routine violence destroyed personal identity and social solidarity, disrupted the very ideas of time and space, perverted human work into torture, and unleashed innumerable atrocities. As a result, daily life was reduced to a permanent struggle for survival, even as the meaning of self-preservation was extinguished. Sofsky takes us from the searing, unforgettable image of the Muselmann--Auschwitz jargon for the "walking dead"--to chronicles of epidemics, terror punishments, selections, and torture. The society of the camp was dominated by the S.S. and a system of graduated and forced collaboration which turned selected victims into accomplices of terror. Sofsky shows that the S.S. was not a rigid bureaucracy, but a system with ample room for autonomy. The S.S. demanded individual initiative of its members. Consequently, although they were not required to torment or murder prisoners, officers and guards often exploited their freedom to do so--in passing or on a whim, with cause, or without. The order of terror described by Sofsky culminated in the organized murder of millions of European Jews and Gypsies in the death-factories of Auschwitz and Treblinka. By the end of this book, Sofsky shows that the German concentration camp system cannot be seen as a temporary lapse into barbarism. Instead, it must be conceived as a product of modern civilization, where institutionalized, state-run human cruelty became possible with or without the mobilizing feelings of hatred.

---

## TRUST AND VIOLENCE

---

---

### AN ESSAY ON A MODERN RELATIONSHIP

---

**Princeton University Press** A philosophical investigation into the connections between trust and violence The limiting of violence through state powers is one of the central projects of the modern age. Why then have recent centuries been so bloody? In *Trust and Violence*, acclaimed German intellectual and public figure Jan Philipp Reemtsma demonstrates that the aim of decreasing and deterring violence has gone hand in hand with the misleading idea that violence is abnormal and beyond comprehension. We would be far better off, Reemtsma argues, if we acknowledged the disturbing fact that violence is normal. At the same time, Reemtsma contends that violence cannot be fully understood without delving into the concept of trust. Not in violence, but in trust, rests the foundation of true power. Reemtsma makes his case with a wide-ranging history of ideas about violence, from ancient philosophy through Shakespeare and Schiller to Michel Foucault, and by considering specific cases of extreme violence from medieval torture to the Holocaust and beyond. In the midst of this gloomy account of human tendencies, Reemtsma shrewdly observes that even dictators have to sleep at night and cannot rely on violence alone to ensure their safety. These authoritarian leaders must trust others while, by means other than violence, they must convince others to trust them. The history of violence is therefore a history of the peculiar relationship between violence and trust, and a recognition of trust's crucial place in humanity. A broad and insightful book that touches on philosophy, sociology, and political theory, *Trust and Violence* sheds new, and at times disquieting, light on two integral aspects of our society.

---

### FAMILY AND CIVILIZATION

---

**Open Road Media** Family and Civilization is the magnum opus of Carle Zimmerman, a distinguished sociologist who taught for many years at Harvard University. In this unjustly forgotten work Zimmerman demonstrates the close and causal connections between the rise and fall of different types of families and the rise and fall of civilizations, particularly ancient Greece and Rome, medieval and modern Europe, and the United States. Zimmerman traces the evolution of family structure from tribes and clans to extended and large nuclear families to the small nuclear families and broken families of today. And he shows the consequences of each structure for the bearing and rearing of children; for religion, law, and everyday life; and for the fate of civilization itself. Originally published in 1947, this compelling analysis predicted many of today's cultural and social controversies and trends, including youth violence and depression, abortion and homosexuality, the demographic collapse of Europe and of the West more generally, and the displacement of peoples. This new edition, part of ISI Books' Background series, has been edited and abridged by cultural commentator James Kurth

of Swarthmore College and includes essays on the text by Kurth, Allan Carlson, and Bryce Christensen.

---

## **WORLD CHANGES IN DIVORCE PATTERNS**

---

**Yale University Press** This book examines trends in divorce throughout the world, comparing previously inaccessible information on Asian and Arab countries and Eastern Europe, as well as data from Latin America, Western Europe, and the Anglo countries over the last four decades. It discusses how divorce rates in different countries are affected by industrialisation, dictatorship, civic standards for nations, and easier divorce laws; the relations between divorce and such factors as age and class; the meaning of the worldwide rise in cohabitation; and why people are becoming less likely to remarry.

## **NEUES ABENDLAND**

---

### **FROM KARL MANNHEIM**

---

**Transaction Publishers** Karl Mannheim's thought cuts across much of twentieth-century sociology, politics, history, philosophy, and psychology. This enlarged anthology convincingly demonstrates his centrality to present-day interpretive social and political theory. The posthumous publication of *Structures of Thinking* and the full text of *Conservatism* have made *From Karl Mannheim* more relevant than ever. It demonstrates his self-awareness and self-critical rhetoric, his sensitivity to cultural contexts, his experimental approach to systems of ideology, his recognition of multiple modes of knowing, and other features of his unfinished theorizing. There is a strong affinity between Mannheim and contemporary interest in problems of cultural interpretation. New sensitivity to the issue of relativism in both social and cultural studies also depends heavily on Mannheim. The recent demise of communism in Eastern Europe and Russia has focused attention once more on relations between intellectuals in politics, and Mannheim is arguably the most influential thinker who placed this relationship at the center of informed discussion. The range and variety of the articles in this volume reveal him, once again, as a formidable experimental and innovative thinker. This expanded edition includes Mannheim's brilliant essay 'The Problem of Generations.' In a new substantial introduction, Volker Meja and David Kettler analyze previously unpublished writings by Mannheim. *From Karl Mannheim* is essential reading for social and political theorists, as well as for psychologists. As Emory S. Bogardus noted: "Mannheim's life-work is seen as an important, far-reaching and thoughtful complement to the work of sociologists who concentrate their research in terms of behavioral science."

---

---

## **FREEDOM POWER & DEMOC PLAN V 4**

---

**Routledge** First Published in 1951. In common with great sociologists of the past, such as Comte and Spencer, Marx and Max Weber, Mannheim engaged in sociological study as a response to the challenging present. This is volume IV of Freedom, Power and Democratic Planning is the collected works of Karl Mannheim.

---

## **DISCOURSES ON SOCIETY**

---

## **THE SHAPING OF THE SOCIAL SCIENCE DISCIPLINES**

---

**Springer Science & Business Media** This book, which represents probably the most comprehensive discussion of the emergence of modern social science yet produced, is of far more than merely historical interest. The contributors set out to rewrite the history of the social sciences and to show the limitations of conventional conceptions of their development. These tasks they accomplish with great success and much distinction. Yet in so doing they contribute in a direct way to our understanding of the relation between social analysis and the nature of human societies today. The brilliant and distinctive perspective of the papers in this collection is to demonstrate, with many specific examples, that social science and modern institutions have helped shape each other in mutual interplay. Modern systems are in some part constituted through the reflexive incorporation of developing social science knowledge; on the other hand, the social sciences organise themselves in terms of a continuing reflection upon the evolution of those systems. Such a perspective, as Wagner and Wittrock in particular make clear, does not in any way either impugn the status of knowledge claims made within social science or destroy the independent reality of social institutions. The book questions the notion that the institutionalising of the social sciences can be understood as a process of their increasing autonomy from external social connections. 'Autonomy' forms a mode of legitimation and a basis of power rather than a distinctive phenomenon as such.

---

## **VIOLENCE**

---

## **TERRORISM, GENOCIDE, WAR**

---

**Granta Books** A fascinating and timely study of violence and war and the psychology behind them.

---

## **THE GREATER GERMAN REICH AND THE JEWS**

---

---

## **NAZI PERSECUTION POLICIES IN THE ANNEXED TERRITORIES 1935-1945**

---

**Berghahn Books** Between 1935 and 1940, the Nazis incorporated large portions of Europe into the German Reich. The contributors to this volume analyze the evolving anti-Jewish policies in the annexed territories and their impact on the Jewish population, as well as the attitudes and actions of non-Jews, Germans, and indigenous populations. They demonstrate that diverse anti-Jewish policies developed in the different territories, which in turn affected practices in other regions and even influenced Berlin's decisions. Having these systematic studies together in one volume enables a comparison - based on the most recent research - between anti-Jewish policies in the areas annexed by the Nazi state. The results of this prizewinning book call into question the common assumption that one central plan for persecution extended across Nazi-occupied Europe, shifting the focus onto differing regional German initiatives and illuminating the cooperation of indigenous institutions.

---

## **MY LIFE IN GERMANY BEFORE AND AFTER 1933**

---

### **A REPORT**

---

Included are philosophical-biographical vignettes of leading German intellectual figures of the day: the George circle, Oswald Spengler, Karl Barth, and Carl Schmitt.

---

## **MAXWELL'S EQUATIONS IN PERIODIC STRUCTURES**

---

**Springer Nature** This book addresses recent developments in mathematical analysis and computational methods for solving direct and inverse problems for Maxwell's equations in periodic structures. The fundamental importance of the fields is clear, since they are related to technology with significant applications in optics and electromagnetics. The book provides both introductory materials and in-depth discussion to the areas in diffractive optics that offer rich and challenging mathematical problems. It is also intended to convey up-to-date results to students and researchers in applied and computational mathematics, and engineering disciplines as well.

---

## **A BERLIN REPUBLIC**

---

### **WRITINGS ON GERMANY**

---

**John Wiley & Sons** A Berlin Republic brings together writings on the new, united Germany by one of their most original and trenchant commentators, Jürgen Habermas. Among other topics, he addresses the consequences of German history, the challenges

and perils of the post-Wall era, and Germany's place in contemporary Europe. Here, as in his earlier *The Past as Future*, Habermas emerges as an inspired analyst of contemporary German political and intellectual life. He repeatedly criticizes recent efforts by historical and political commentators to 'normalize' and, in part, to understate the horrors of modern German history. He insists that 1945 - not 1989 - was the crucial turning point in German history, since it was then that West Germany decisively repudiated certain aspects of its cultural and political past (nationalism and antisemitism in particular) and turned towards Western Traditions of democracy: free and open discussion, and respect for the civil rights of all individuals. Similarly, Habermas deplores the renewal of nationalist sentiment in Germany and throughout Europe. Drawing upon his vast historical knowledge and contemporary insight, Habermas argues for heightened emphasis on trans-European and global democratic institutions - institutions far better suited to meet the challenges (and dangers) of the next century.

---

## HOMO SOCIOLOGICUS

---

**Routledge** First published in English as part of the *Essays in the Theory of Society*, this volume reissues the stand-alone *Homo Sociologicus* for which the author wrote a new introduction when it was originally published in 1973. The controversial book deals with the history, significance and limits of the category of social role and discusses the dilemma posed by homo sociologicus. The author shows that for society and sociology, socialization invariably means depersonalization, the yielding up of man's absolute individuality and liberty to the constraint and generality of social roles. This volume includes the essay, *Sociology and Human Nature*, written as a postscript to *Homo Sociologicus*.

---

## LINGUISTICS AND THE THIRD REICH

---

---

### MOTHER-TONGUE FASCISM, RACE AND THE SCIENCE OF LANGUAGE

---

**Routledge** This book presents an insightful account of the academic politics of the Nazi era and analyses the work of selected linguists, including Jos Trier and Leo Weisgerber. Hutton situates Nazi linguistics within the politics of Hitler's state and within the history of modern linguistics.

---

## ALL LIFE IS PROBLEM SOLVING

---

**Routledge** 'Never before has there been so many and such dreadful weapons in so many irresponsible hands.' - Karl Popper, from the Preface *All Life is Problem Solving* is a stimulating and provocative selection of Popper's writings on his main preoccupations during

the last twenty-five years of his life. This collection illuminates Popper's process of working out key formulations in his theory of science, and indicates his view of the state of the world at the end of the Cold War and after the collapse of communism.

---

## THE WORLD OF PARMENIDES

---

---

## ESSAYS ON THE PRESOCRATIC ENLIGHTENMENT

---

**Routledge** This unique collection of essays, published together for the first time, not only elucidates the complexity of ancient Greek thought, but also reveals Karl Popper's engagement with Presocratic philosophy and the enlightenment he experienced in his reading of Parmenides. As Karl Popper himself states himself in his introduction, he was inspired to write about Presocratic philosophy for two reasons - firstly to illustrate the thesis that all history is the history of problem situations and secondly, to show the greatness of the early Greek philosophers, who gave Europe its philosophy, its science and its humanism.

---

## ESSAYS ON SOCIOLOGY AND SOCIAL PSYCHOLOGY

---

---

## EDITED BY PAUL KECSKEMETI

---

---

## THE HEIDEGGER-JASPERS CORRESPONDENCE (1920-1963)

---

**Prometheus Books** "The letters touch on many points of philosophical interest to both men, yet only hint at the political turmoil that swirled around them. They discuss how they came to see themselves as personally connected but publicly misidentified as "existentialists." There are also many illuminating exchanges concerning Hannah Arendt, Karl Lowith, Max Weber, Edmund Husserl, and others. Editors Walter Biemel and Hans Saner provide a wealth of references and annotations that make these personal letters accessible to contemporary readers."--BOOK JACKET.

---

## AFRICAN ART AND LEADERSHIP

---

**Univ of Wisconsin Press** A scholarly analysis of the close relationships among the structure, function, and history of the sub-Saharan African arts.

---

## A MAN AND A MOTORCYCLE

---

---

**HOW HAMID KARZAI CAME TO POWER**

---

With a secondhand motorcycle, the support of a few powerful tribesmen and a good friend in the CIA, the unknown Hamid Karzai willed himself to power as the new hope of Afghanistan. Acclaimed journalist Bette Dam chronicles the astonishing rise of Afghanistan's U.S.-backed leader from obscurity to one of the most influential figures in the global war on terror. Following the 2001 toppling of the Taliban, a fragile Afghanistan was on the brink. Karzai, armed with a recipe for victory came within inches of helping the U.S. declare victory in the war on terror. But sentiments run high in post-9/11 America, and the desire for revenge derailed an early chance at peace. As U.S. troops leave Afghanistan, and power is handed to a new president, Karzai's legacy remains one of betrayal, mistrust, and missed opportunities.

---

**KENYA**

**SOCIAL JUSTICE IMPLICATIONS OF HOUSEHOLD RELOCATION**

---

---

**KARL POPPER**

---

---

**PHILOSOPHY AND PROBLEMS**

---

**Cambridge University Press** This collection of essays provides a timely assessment of the life and work of one of the twentieth century's most original thinkers.

---

## COMPENDIUM OF THEORY, METHODOLOGY, AND TECHNIQUE OF NEGOTIATION

---

An innovative outlook on the most ancient "category" of human action. A comprehensive, well-structured, and coherent approach to the phenomenon of negotiation. An easy and effective method to recognize, analyse, and constructively manage a wide range of conflicts and deal with all kind of negotiations, from political and economic ones to those which occur so frequently in both personal and professional daily life. Written by a former ambassador and a long-time lecturer on negotiation at various universities, this book is not a simple "how to do it" guide, but intends to help build a widespread, real "culture of negotiation".

---

## ECONOMIC SEMANTICS

---

**Routledge** When the original edition was first published in 1963, Machlip observed ' I hope that the availability of this collection will dispel semantic and conceptual fog and allow greater visibility...'. The work is divided into five sections with a new essay in this edition on 'Are the Social Sciences Really Inferior?' There is also a new introduction by Mark Perlman, University Professor of Economics at the University of Pittsburgh.

---

## THE POLITICS OF TRUTH

---

---

## SELECTED WRITINGS OF C. WRIGHT MILLS

---

**Oxford University Press** C. Wright Mills was a radical public intellectual, a tough-talking, motorcycle-riding anarchist from Texas who taught sociology at Columbia University. Mills's three most influential books--The Power Elite, White Collar, and The Sociological Imagination--were originally published by OUP and are considered classics. The first collection of his writings to be published since 1963, The Politics of Truth contains 23 out-of-print and hard-to-find writings which show his growth from academic sociologist to an intellectual maestro in command of a mature style, a dissenter who sought to inspire the public to oppose the drift toward permanent war. Given the political deceptions of recent years, Mills's truth-telling is more relevant than ever. Seminal papers including "Letter to the New Left" appear alongside lesser known meditations such as "Are We Losing Our Sense of Belonging?" John Summers provides fresh insights in his introduction, which gives an overview of Mills's life and career. Summers has also written annotations that establish each piece's context and has drawn up a comprehensive bibliography of Mills's published and unpublished writings.

---

## INTERNATIONAL BIBLIOGRAPHY OF SOCIOLOGY

---

**Psychology Press** IBSS is the essential tool for librarians, university departments, research institutions and any public or private

institution whose work requires access to up-to-date and comprehensive knowledge of the social sciences.
