MYANMAR

POLITICS, ECONOMY AND SOCIETY

Routledge This book provides a sophisticated, yet accessible, overview of the key political, economic and social challenges facing contemporary Myanmar and explains the complex historical and ethnic dynamics that have shaped the country. With clear and incisive contributions from the world's leading Myanmar scholars, this book assesses the policies and political reforms that have provoked contestation in Myanmar's recent history and driven both economic and social change. In this context, questions of economic ownership and control and the distribution of natural resources are shown to be deeply informed by long-standing fractures among ethnic and civil-military relations. The chapters analyse the key issues that constrain or expedite societal development in Myanmar and place recent events of national and international significance in the context of its complex history and social relations. In doing so, the book demonstrates that ethnic and cultural diversity is at the core of Myanmar's society and heavily influences all aspects of life in the country. Filling a gap in the market, this research textbook and primer will be of interest to upper undergraduates, postgraduates and scholars of Southeast Asian politics, economics and society and to journalists and professionals working within governments, companies and other organisations.

BANGLADESH'S MARITIME POLICY

ENTWINING CHALLENGES

Routledge Following successive international legal verdicts, Bangladesh is now an accredited maritime state. Possessing a spacious territorial sea and an extended continental shelf, with a maritime zone almost equalling its land borders, a 'window of opportunity' has opened for the country to realise its developmental aspirations. Yet, it faces numerous challenges, many of which are entwined. This book is a detailed analysis of Bangladesh's maritime strategy. It charts the country's maritime legacies, including disputes with both Myanmar and India and analyses the contributions of the leadership in the maritime territorial gains. The author examines Bangladesh's need to consolidate these newly reclaimed gains, whilst exploring the unremitting interest of major global power players in maintaining maritime resource exploitation, navigation and security. Finally, the author demonstrates how the country needs to embrace the notional principles of sustainable development of its ocean economy to utilize its resources and how it has since been coming to grips with the emerging concept of "blue economy" to enhance its enduring national development. The first systematic study on Bangladesh's maritime policy and the country's importance in the emerging geopolitical rivalry in the Indian Ocean, this book will be of interest to academics in the field of South Asian and Indian Ocean politics.

MISS BURMA

Grove Press "A beautiful and poignant story of one family during the most violent and turbulent years of world history, Miss Burma is a powerful novel of love and war, colonialism and ethnicity, and the ties of blood. Miss Burma tells the story of modern-day Burma through the eyes of Benny and Khin, husband and wife, and their daughter Louisa. After attending school in Calcutta, Benny settles in Rangoon, then part of the British Empire, and falls in love with Khin, a woman who is part of a long-persecuted ethnic minority group, the Karen. World War II comes to Southeast Asia, and Benny and Khin must go into hiding in the eastern part of the country during the Japanese Occupation, beginning a journey that will lead them to change the country's history. After the war, the British authorities make a deal with the Burman nationalists, led by Aung San, whose party gains control of the country. When Aung San is assassinated, his successor ignores the pleas for self-government of the Karen people and other ethnic groups, and in doing so sets off what will become the longest-running civil war in recorded history. Benny and Khin's eldest child, Louisa, has a danger-filled, tempestuous childhood and reaches prominence as Burma's first beauty queen, soon before the country falls to dictatorship. As Louisa navigates her new-found fame, she is forced to reckon with her family's past, the West's ongoing covert dealings in her country, and her own loyalty to the cause of the Karen people. Based on the story of the author's mother and grandparents, Miss Burma is a captivating portrait of how modern Burma came to be, and of the ordinary people swept up in the struggle for self-determination and freedom"--

THE ROAD TO FEDERALISM IN NEPAL, MYANMAR AND SRI LANKA

FINDING THE MIDDLE GROUND

Routledge Nations built on exclusion and assimilation, decades of civil war, widespread poverty, authoritarianism and the decline of democracy. Nepal, Myanmar and Sri Lanka are travelling a road to federalism. Institutions and ethnic identity have interacted to privilege some and marginalise others. But when the right conditions prevail, political equality can be restored. This book charts the origins and evolution of federalism and other approaches to the accommodation of minority ethnic groups in Nepal, Myanmar and Sri Lanka. It applies a historical institutionalism methodology to understand why federalism has been resisted, what causes it to be established and what design options are most likely to balance otherwise competing centripetal and centrifugal forces. Breen shows how Nepal, Myanmar and Sri Lanka are finding a middle ground whereby deliberative and moderating institutions are combined with accommodating ones to support a political equality among groups and individuals.

THE ROHINGYAS

INSIDE MYANMAR'S GENOCIDE

Oxford University Press Ibrahim's searing book documents the slow-motion genocide of the Muslim Rohingyas and exposes the culpability of the Buddhist clergy in fomenting the religious cleansing of Myanmar.

MYANMAR'S BUDDHIST-MUSLIM CRISIS

ROHINGYA, ARAKANESE, AND BURMESE NARRATIVES OF SIEGE AND FEAR

University of Hawaii Press Myanmar's Buddhist-Muslim Crisis is a probing search into the reasons and rationalizations behind the violence occurring in Myanmar, especially the oppressive military campaigns waged against Rohingya Muslims by the army in 2016 and 2017. Over more than three years John Holt traveled around Myanmar engaging in sustained conversations with prominent and articulate participants and observers. What emerges from his peregrinations is a series of compelling portraits revealing both deep insights and entrenched misunderstandings. To understand the conflict, Holt must first accurately capture the viewpoints of his different conversation partners, who include Buddhists and Muslims, men and women, monks and laypeople, activists and scholars. Conversations range widely over issues such as the rise of Buddhist nationalism; the sometimes enigmatic and unexpected positions taken by Aung San Suu Kyii; use of the controversial term "Rohingya"; the impact of state-sponsored propaganda on the Burmese public; resistance to narratives emanating from international media, the United Nations, and the international diplomatic community; the frustrations of local political leaders who have felt left out of the policy-making process in the Rakhine State; and the constructive hopes and efforts still being made by forward-looking activists in Yangon. Three main perspectives emerge from the voices he listens to, those of Arakanese Buddhists who are native to Rakhine (once called Arakan), where much of the conflict has taken place; Burmese Buddhists (or Bamars), who make up the vast majority of Myanmar's population; and the Rohingya Muslims, whose tragic story has been widely disseminated by the international media. What surfaces in conversation after conversation among all three groups is a narrative of siege: all see themselves as the aggrieved party, and all recount a history of being under siege. John Holt gives voice to these different perspectives as an engaged and concerned participant, offering both a critical and empathetic account of Myanmar's tragic predicament. Readers follow the hopes and dismay of this seasoned scholar of Theravada Buddhism as he seeks his own understanding of the variously impassioned forces in play in this still unfolding drama.

Butterworth-Heinemann Carbon Capture and Storage, Second Edition, provides a thorough, non-specialist introduction to technologies aimed at reducing greenhouse gas emissions from burning fossil fuels during power generation and other energy-intensive industrial processes, such as steelmaking. Extensively revised and updated, this second edition provides detailed coverage of key carbon dioxide capture methods along with an examination of the most promising techniques for carbon storage. The book opens with an introductory section that provides background regarding the need to reduce greenhouse gas emissions, an overview of carbon capture and storage (CCS) technologies, and a primer in the fundamentals of power generation. The next chapters focus on key carbon capture technologies, including absorption, adsorption, and membrane-based systems, addressing their applications in both the power and non-power sectors. New for the second edition, a dedicated section on geological storage of carbon dioxide follows, with chapters addressing the relevant features, events, and processes (FEP) associated with this scenario. Non-geological storage methods such as ocean storage and storage in terrestrial ecosystems are the subject of the final group of chapters. A chapter on carbon dioxide transportation is also included. This extensively revised and expanded second edition will be a valuable resource for power plant engineers, chemical engineers, geological engineers, environmental engineers, and industrial engineers seeking a concise, yet authoritative one-volume overview of this field. Researchers, consultants, and policy makers entering this discipline also will benefit from this reference. Provides all-inclusive and authoritative coverage of the major technologies under consideration for carbon capture and storage Presents information in an approachable format, for those with a scientific or engineering background, as well as non-specialists Includes a new Part III dedicated to geological storage of carbon dioxide, covering this topic in much more depth (9 chapters compared to 1 in the first edition) Features revisions and updates to all chapters Includes new sections or expanded content on: chemical looping/calcium looping; life-cycle GHG assessment of CCS technologies; non-power industries (e.g. including pulp/paper alongside ones already covered); carbon negative technologies (e.g. BECCS); gas-fired power plants; biomass and waste co-firing; and hydrate-based capture

BECOMING ONE

RELIGION, DEVELOPMENT, AND ENVIRONMENTALISM IN A JAPANESE NGO IN MYANMAR

University of Hawaii Press International development programs strive not only to alleviate poverty but to transform people, aid workers and recipients alike. *Becoming One* grapples with this process by exploring the work of OISCA*, a prominent Japanese NGO in central Myanmar. OISCA's postwar origins at the intersection of Shinto, secularism, and rightwing politics, and its vision of inter-Asian solidarity and a sustainable future helped shape the organization's ideology and activities. By delving into the world of its aid workers—their everyday practices, discourses, and aspirations—author Chika Watanabe seeks to understand the NGO's political, social, and ethical effects. At OISCA training centers, Japanese and local staff teach sustainable agricultural skills and organic farming methods to rural youth. Much of the teaching involves laboring in the fields, harvesting produce, and caring for livestock: what they can't use themselves is sold at nearby markets. Watanabe's detailed and multi-sited ethnography shows how Japanese and Burmese actors mobilize around the idea of "becoming one" with Mother Earth and their human counterparts within a shared communal lifestyle. By exploring the tension between intentions and political effects—spanning environmentalism, cultural-nationalist ideologies of "Japaneseness," and aspirations to make the world a better place—Watanabe highlights fascinating questions and both positive and negative outcomes. *Becoming One* weaves together vivid descriptions of the intensive, intimate, and "muddy labor" of "making persons" (hitozukuri) with the wider historical resonances of these efforts, decentering common understandings of development, NGOs, and their moral and political promises. This engaging and thought-provoking book combines insights from anthropology, development studies, and religious studies to add to our understanding of modern Japan. *Organization for Industrial, Spiritual and Cultural Advancement

LIFE MASK

Bloodaxe Books Limited Jackie Kay's new collection focuses on love, loss, and mistaken and secret identity. Her poems reveal how we hide from each other and from ourselves, how appearances are deceptive and how many faces it takes to make even the one self. Masks are our camouflage, our stealth and our security. In a celebration and a challenging of the masquerades we live every day of our lives, *Life Mask* peels back all the selves and goes closer to the bone.
