FIELD GUIDE TO COVERING LOCAL NEWS

CQ Press In a time of upheaval for journalism, local news is flourishing. People want to know about the chemical spill on the highway, the kidnapping trial in district court, the cuts in the school budget. News organizations have a constant need for both professional and citizen journalists who can report those stories accurately and interestingly. In the latest installment of the Field Guide series, Fred Bayles takes you step-by-step through the process of identifying and covering the events and issues that matter most to your community.

RESEARCH IN EDUCATION

MATHEMATICS AND SCIENCE CONTENT STANDARDS AND CURRICULUM FRAMEWORKS

STATES PROGRESS ON DEVELOPMENT AND IMPLEMENTATION : 1997

The Council of Chief State School Officers (CCSSO), collaborating with Policy Studies Associates and a panel of experts in mathematics and science education, has completed a study of states' curriculum frameworks development and standards-setting from 1994. The Council study analyzed the content and quality of state frameworks and standards documents and examined how states are working with local educators on implementation. This report describes the changing landscape of framework development and standards-setting in the United States and identifies emerging issues for practitioners and policy makers. The study was conducted with three kinds of data concerning the current situation of state standards and frameworks in mathematics and science. A concept mapping analysis of all state curriculum frameworks and standards documents in mathematics and science was completed. In order to identify all current state documents, works in progress, and dissemination and implementation activities, interviews were held with state mathematics and science education specialists. With the aggregated information from these sources, a report that focuses on current and emerging policy issues pertaining to the implementation of standards-based reform in mathematics and science education was developed. Contains 27 references. (Author/ASK)

NAEP 1996 MATHEMATICS CROSS-STATE DATA COMPENDIUM FOR THE GRADE 4 AND GRADE 8 ASSESSMENT

FINDINGS FROM THE STATE ASSESSMENT IN MATHEMATICS OF THE NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS

[U.S. Government Printing Office](#) This technical report from the National Assessment of Educational Progress (NAEP) 1996 State Assessment Program in Mathematics presents fourth- and eighth-grade cross-state results of the NAEP 1996 State Assessment in mathematics. However, no interpretations of the data are included. This report does include the revised results from comparable assessments conducted in 1990 and 1992. These revisions were required due to errors in the procedures that were originally used to develop the NAEP mathematics scale and achievement levels. Eight chapters contain information on results for the nation in the context of content strands and type of school, scale information by population subgroups, background information collected from students and teachers via interviews and questionnaires, and classroom practices related to mathematics instruction. (DDR)
