Immunology, An Issue of Veterinary Clinics of North America: Food Animal Practice Elsevier Health Sciences *This issue of Veterinary Clinics: Food Animal Practice, guest edited by Dr. Christopher Chase in collaboration with Consulting Editor Dr. Robert Smith, focuses on Ruminant Immunology. Article topics include: Herd immunity: an epidemiologist's view; Genetics of immunoresponsive and correlates of immunity; Microbiome and immunity: an evolving field; Vaccine administration dos and don'ts (endotoxin stacking; delayed MLV); Mycoplasma bovis: interactions with the immune system and failure to generate an immune response; Nutraceuticals and their effect on immune response; Adjuvants; Immunology of maximizing passive transfer; Mucosal immunity and common mucosal response; Vaccinating in the face of maternal immunity; and Gamma Delta T cells in ruminants: their role, function, and importance.*

Hepatology, An Issue of Veterinary Clinics of North America: Small Animal Practice, E-Book Elsevier Health Sciences *This issue of Veterinary Clinics of North America: Small Animal Practice, with Editor Dr. Jonathan Lidbury, focuses on Hepatology. Article topics include: Laboratory evaluation of the liver; Getting the most out of liver biopsy; Hemostatic disorders associated with hepatobiliary disease; Acute liver injury; Canine copper associated chronic hepatitis; Canine idiopathic chronic hepatitis; Feline hepatic lipidosis; Hepatobiliary neoplasia in dogs and cats; Diagnostic imaging of the hepatobiliary system; Hepatic encephalopathy; Canine idiopathic chronic hepatitis; Feline cholangitis.*

Honey Bee Veterinary Medicine, An Issue of Veterinary Clinics of North America: Food Animal Practice, E-Book Elsevier Health Sciences *In this issue of Veterinary Clinics: Food Animal Practice, Guest Editor Jeffery R. Applegate brings his considerable expertise to the topic of Honey Bee Veterinary Medicine. Top experts in the field cover key topics such as Apiculture, Diseases of the Honey Bee, Population Medicine, Immunology, Nutrition, and more. Provides in-depth, reviews in Honey Bee Veterinary Medicine, providing actionable insights for veterinary practice. Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field; Authors synthesize and distill the latest research and practice guidelines to create these timely topic-based reviews. Contains 15 relevant, practice-oriented topics including Pesticides and the Impact on Honey Bees; Practical Applications in Honey Bee Genetics; Foreign Pests and Diseases as Potential Threats to North American Apiculture; Honey Bee Welfare and Standards of Humane Euthanasia; and more.*

Diseases of Donkeys and Mules, An Issue of Veterinary Clinics of North America: Equine Practice Elsevier Health Sciences *This issue of Veterinary Clinics: Equine Practice, guest edited by Dr. Ramiro Toribio in collaboration with Consulting Editor Dr. Thomas Divers, is devoted to Diseases of Donkeys and Mules. Topics include: Endocrine and metabolic disorders of donkeys; Gastrointestinal disorders of donkeys and mules; Clinical pathology of donkeys; Genetics, evolution, physiology in donkeys/mules; Nutrition and malnutrition; Donkey and mule welfare; Dermatological disorders of donkeys/mules; Anesthesia, analgesia, and sedation in donkeys/mules; Dental disorders of donkeys; Clinical evaluation and preventative care of the donkey; Respiratory disorders of donkeys; Donkey and mule behavior; Clinical Pharmacology of donkeys; Key aspects of donkey and mule reproduction; and Foot Care and Practical Farriery for the Donkey.*

Disorders of the Oral Cavity, An Issue of Veterinary Clinics of North America: Exotic Animal Practice, E-Book Elsevier Health Sciences *This issue of Veterinary Clinics of North America: Exotic Animal Practice focuses on Disorders of the Oral Cavity. Articles include: Anatomy and Disorders of the Oral Cavity of Pet Fishes; Anatomy and Disorders of the Oral Cavity of Reptiles and Amphibians; Anatomy and Disorders of the Beak and Oral Cavity of Birds; Anatomy and Disorders of the Oral Cavity of Pet Rabbits; Diagnostic Imaging of Dental Disease of Pet Rabbits; Surgical Treatment of Facial Abscesses in Pet Rabbits; Anatomy and Disorders of the Oral Cavity of Guinea Pigs; Anatomy and Disorders of the Oral Cavity of Chinchillas; Anatomy and Disorders of the Oral Cavity of Rat-like and Squirrel-like Rodents; and more!*

Ruminant Surgery, An Issue of Veterinary Clinics of North America: Food Animal Practice, E-Book Elsevier Health Sciences *This issue of Veterinary Clinics of North America: Food Animal Practice focuses on Bovine Surgery. Article topics include: Local, regional, and spinal anesthesia in ruminants; Field sedation and anesthesia of ruminants; Respiratory Surgery; Surgery of the sinuses and eyes; Surgical procedures of the forestomachs; Surgical Management of Abomasal disease; Intestinal surgery; Surgery of the Umbilicus and Related Structures; Female reproductive surgery; Male reproductive surgery; Surgical management of the teats and udder; and more!*

Clinical Pathology for the Equine Practitioner, An Issue of Veterinary Clinics of North America: Equine Practice Elsevier Health Sciences *This issue of Veterinary Clinics: Equine Practice, guest edited by Dr. Sally DeNotta and Dr. Tracy Stokol, focuses on Clinical Pathology for the Equine Practitioner. This is one of three issues each year selected by the series consulting editor, Dr. Thomas J. Divers. Articles in this issue include, but are not limited to: practical tips on sample handling for hematology, biochemistry and*

cytology, what a hemogram can tell you, bone marrow, update on coagulation, inflammatory markers, point-of-care diagnostics, clinical pathology in the foal, synovial, CSF, peritoneal, and pericardial fluids, airway diagnostics, liver and GI clinical pathology in sick adult horses, renal clinical pathology and urinalysis in sick adult horses, and clinical pathology in the performance horse. **Veterinary Clinics of North America Equine Practice. Pain in horses : physiology, pathophysiology and therapeutic implications. Vol 26 No 3 Soft Tissue Surgery, An Issue of Veterinary Clinics of North America: Small Animal Practice Elsevier Health Sciences** Drs. Lisa Howe and Harry Booth, Jr have assembled an expert panel of authors on the topics of Soft Tissue Surgery. Articles include: Current concepts in hepatobiliary surgery, Current concepts in portosystemic shunting, Current concepts in oncologic surgery, Current concepts in skin and reconstructive surgery, Medical device facilitation of soft tissue surgery, Considerations in perioperative drug use in the soft tissue surgery patient, and more! **Endoscopy, An Issue of Veterinary Clinics of North America: Exotic Animal Practice 18-3, Elsevier Health Sciences** Drs. Stephen Divers and Laila Proença have assembled an expert team of authors focused on Endoscopy and Exotic Animals. Articles include: Definitive diagnosis in exotic animal practice: the essential value of endoscopy, Guinea pig cystoscopy and urolith removal, Flexible endoscopy including gastroscopy in ferrets with a section on Percutaneous Endoscopic Gastrostomy (PEG) Tube Placement and Use, Endoscopic rabbit sterilization, Endoscopy of small NH primates, Pulmonoscopy of snakes, and more! **Feedlot Production Medicine, An Issue of Veterinary Clinics of North America: Food Animal Practice Elsevier Health Sciences** As a Follow-up to their Arrival Cattle Management issue, Drs. Brad White and Daniel Thomson explore Feedlot Production Medicine in this issue. Articles feature an expert panel of authors on topics such as: Epidemiology for feedlots, Outbreak investigation, Sick animal identification, Necropsy & Euthanasia, BVD management in feedlot, Reference Intervals in Avian and Exotic Hematology, and more! **Nutrition, An Issue of Veterinary Clinics of North America: Small Animal Practice, Elsevier Health Sciences** Nutrition, An Issue of Veterinary Clinics of North America: Small Animal Practice, **Veterinary Clinics of North America Equine Practice. Wound management. V.5, no.3 Wound Management in the Horse, An Issue of Veterinary Clinics of North America: Equine Practice Elsevier Health Sciences** This issue of Veterinary Clinics: Equine Practice, edited by Dr. Earl Michael Gaughan, focuses on Wound Management in the Horse, with topics including: Diagnostic Approaches to Understanding Equine Limb Wounds; Wounds over Synovial Structures; Wounds with Special Challenges, such as exposed bone, marked hemorrhage, genital and mobile sites; Wound Cleansing and Hygiene; Suture Selection and Patterns; Topical Wound Medications; "Non-Healing" Wounds; Medical Therapy in Wound Management; Regenerative Therapies in Wound Management; Bandages, Casts, and External Support; and LASER Therapy. **Technological Advances in Exotic Pet Practice, An Issue of Veterinary Clinics of North America: Exotic Animal Practice Elsevier Health Sciences** This issue of Veterinary Clinics: Exotic Animal Practice, Guest Edited by Dr. Minh Huynh in collaboration with Consulting Editor, Dr. Joerg Mayer, focuses on Technological Advances in Exotic Pet Practice. Topics covered in this issue include: Medical Applications for 3D Printing in Exotic Pet Medicine; Use of Bone Plates in Exotic Pet Medicine; Smartphone-based Devices for Medical Use in Exotic Pet Medicine; Technological Advances in Endoscopic Equipment and Endosurgery in Exotic Pet Medicine; Technological Advances in Surgical Equipment in Exotic Pet Medicine; Technological Advances in Diagnostic Imaging in Exotic Pet Medicine; Technological Advances in Exotic Pet Anesthesia; Advances in Exotic Pet Clinical Pathology; Technological Advances in Herpetology; Advances in Therapeutics and Delayed Drug Release; Permanent Implantable Devices in Exotic Pet Medicine; Technological Advances in Exotic Pet Wound Management; and Dissemination of Medical Information in Exotic Pet Practice. **Renal Disease, An Issue of Veterinary Clinics of North America: Exotic Animal Practice, E-Book Elsevier Health Sciences** This issue of Veterinary Clinics: Exotic Animal Practice, guest edited by Dr. Christal Pollock, focuses on Renal Disease. This is one of three issues each year selected by the series consulting editor, Dr. Jorg Mayer. Articles in this issue include, but are not limited to: Anatomy and physiology of the avian renal system; Diseases of the avian renal system; Laboratory evaluation of renal function; Diagnostic imaging of the avian renal system; Clinical management of avian renal disease; Anatomy and physiology of the reptile renal system; Clinical management of reptile renal disease; Diagnostic imaging of the renal system in exotic companion mammals; Renal disease in amphibians; Renal disease in fish; Diseases of the reptile renal system; Diagnostic imaging of the reptile urinary system; and Renal disease in exotic companion mammals. **Equine Urinary Tract Disorders, An Issue of Veterinary Clinics of North America: Equine Practice, E-Book Elsevier Health Sciences** Equine Urinary Tract Disorders, An Issue of Veterinary Clinics of North America: Equine Practice, E-Book **Clinical Cardiology, An Issue of Veterinary Clinics of North America: Equine Practice Elsevier Health Sciences** This issue of Veterinary Clinics: Equine Practice, Guest Edited by Dr. Colin Schwarzwald and Dr. Katharyn Mitchell, in collaboration with Consulting Editor Dr. Thomas Divers, focuses on Clinical Cardiology. Article topics include: An overview of the equine heart in health and disease; Examination of horses with cardiac disease; Echocardiography; Electrocardiography; Cardiac arrhythmias; Congenital cardiac disease; Acquired valvular disease; Pericardial disease, myocardial disease, and great vessel abnormalities; CV causes of exercise intolerance and poor performance; Assessment of the CV system during prepurchase and insurance examinations; Monitoring of the CV system; Response to exercise and training; and Drugs used to treat cardiac disease. **Nutrition, An Issue of Veterinary Clinics of North America: Exotic Animal Practice, Elsevier Health Sciences** Dr. Jörg Mayer has assembled an expert panel of authors on the topic of nutrition in exotic animals. Articles include: Prescription diets for exotic pets, Supplements for exotic pets, Nutrition for reptiles, Nutrition for avians, Nutrition for amphibians, Nutrition for fish, Nutrition for marsupials, Nutrition for rodents, and Nutrition for Rabbits. **Pediatrics, An Issue of Veterinary Clinics of North America: Small Animal Practice, Elsevier Health Sciences** This issue focuses on pediatric disorders in dogs and cats. Topics will include: clinical pathology of dogs and cats, pediatric neutering, pediatric immunization, nutrition, seizure disorders, canine pediatric dentistry, pediatric feline upper respiratory disease, neonatal fading syndrome, holistic pediatric medicine, management of the cleft palate, and urinary ectopia. **Emergency Procedures for the Small Animal Veterinarian 3 Emergency Procedures for the Small Animal Veterinarian Elsevier Health Sciences** Small animal veterinarians of all specialties and at all stages in their careers will find the new edition of Emergency Procedures for the Small Animal Veterinarian their invaluable one-stop shop for the information they need to provide optimal patient care in an emergency situation. Readers familiar with the previous edition will be pleased to see the text comprehensively updated, with much new content and many new features including an all-color design to make finding information easier than ever. Those coming to the book for the first time will appreciate its clarity of structure, its concise and practical approach and its step-by-step presentation of key information, all of which will prove their worth time and again in each new emergency, whatever the species. For those working as a solo doctor in

an emergency practice, *Emergency Procedures for the Small Animal Veterinarian* third edition will fulfil the role of a substitute colleague when further information is needed quickly. No small animal clinician will want to be without a copy. New to this edition Contains two new chapters on supportive care (fluid therapy, oxygen supplementation, analgesia, nutritional support) and shock Presents the latest recommendations for cardiopulmonary resuscitation Includes the latest diagnostic testing regimens Offers current therapeutic recommendations including analgesia and nutritional support Dr Plunkett is joined by new co-authors for respiratory emergencies and emergencies of the urinary tract, and for a completely revised and augmented exotics chapter Contains major updates, revisions and expansions of the toxicologic emergencies chapter

Current Catalog First multi-year cumulation covers six years: 1965-70.

Bovine Respiratory Disease, an Issue of Veterinary Clinics of North America: Food Animal Practice, Volume 36-2 Elsevier This issue of *Veterinary Clinics: Food Animal Practice*, guest edited by Drs. Amelia Woolums and Douglas Step, focuses on Bovine Respiratory Disease. This is one of three issues each year selected by the series consulting editor, Dr. Robert A. Smith. Articles in this issue include, but are not limited to: BRD from the 20th century to now: has anything changed?; *Mannheimia haemolytica* and *Pasteurella multocida*: how are they changing in response to our efforts to control them?; *Mycoplasma bovis*: what characteristics of this agent explain the disease that it causes?; *Histophilus somni*: antigenic changes relevant to BRD; The microbiome and BRD; Viruses in Bovine Respiratory Disease in North America: Knowledge Advances Using Genomic Testing; The Immunology of Bovine Respiratory Disease: Recent Advancements; Host tolerance to infection with the bacteria that cause bovine respiratory disease; How does nutrition influence BRD?; How does housing influence BRD?; Diagnostic tests for BRD; Details to attend to when managing high risk cattle; BRD Vaccination: MLV vs Killed? IN vs Parenteral? What is the evidence?; Timing of BRD Vaccination; Causes, significance, and impact of BRD treatment failure; The effect of market forces on BRD; and The future of BRD management in the era of precision agriculture, rapid DNA sequencing, and bioinformatics.

Canine and Feline Respiratory Medicine John Wiley & Sons This comprehensive reference provides readers with everything they need to know about diagnosing and treating canine and feline respiratory disease. Significantly updated and expanded, it focuses on localization of disease, efficient diagnostic testing, and appropriate therapy. With more images, discussion, and diagrams, this Second Edition includes more detail and new information throughout, particularly in the areas of antimicrobial guidelines, anti-fungal therapies, and anti-viral medications in cats. Logically organized for ease of use in the practice setting, *Canine and Feline Respiratory Medicine, Second Edition* features problem-based learning to enhance working knowledge of the topics discussed. Chapters cover localization of disease, respiratory diagnostics, respiratory therapeutics, nasal disorders, and diseases of airways. Sections on parenchymal disease; pleural and mediastinal disease; and vascular disorders are also presented. Offers a complete guide to the diagnosis and treatment of respiratory conditions in canine and feline patients—now expanded to include more detailed and advanced information Focuses on localization of disease, diagnostic testing, and appropriate therapy Thoroughly updated with new antimicrobial guidelines, the latest information on anti-fungal therapy, and new advances in anti-viral medications in cats Includes many new images and topics for discussion Features problem-based learning exercises to support a working understanding of the topics discussed *Canine and Feline Respiratory Medicine* is an essential resource for veterinary internal medicine specialists, general practitioners, and veterinary students.

Advanced Diagnostic Approaches and Current Management in Internal Medicine Urology, An Issue of Veterinary Clinics of North America: Small Animal Practice Elsevier Health Sciences This issue of *Veterinary Clinics: Small Animal Practice*, edited by Dr. Mary Anna Labato and Dr. Mark J. Acierno, focuses on current topics in Urology. Articles include: Urinary incontinence; Inappropriate urinations; Upper tract urolithiasis; Nutritional management of urolithiasis; Feline Idiopathic Cystitis (FIC); Urinary Tract Infection (UTI); Stem cell therapy; Importance of urinalysis; Urinary tract cytology; DI of the urinary tract; Interventional therapies of the urinary tract; Urologic oncology; and Nutraceuticals for urine tract use.

Behavior: A Guide For Practitioners, An Issue of Veterinary Clinics of North America: Small Animal Practice, Elsevier Health Sciences This issue acts as a guide to behavior in dogs and cats for practitioners. Topics include: genetics and behavior of cats and dogs, the effects of stress on small animal health and behavior, canine aggression towards family members or visitors, common sense small animal behaviour modification, small animal behavior triage, abnormal repetitive behaviors, feline aggression towards family members, cat fights, and more.

National Library of Medicine Current Catalog Cumulative listing Palliative Medicine and Hospice Care, an Issue of Veterinary Clinics of North America: Small Animal Practice Elsevier This issue of *Veterinary Clinics: Small Animal Practice*, edited by Dr. Katherine J. Goldberg, focuses on Advances in Palliative Medicine. Article topics include: Pet Hospice Program at Colorado State University; Hospice Care Service at Michigan State University; Pain and Palliative Care Service at Angell Memorial Animal Hospital; Current topics in serious illness and palliative medicine: a curricular initiative at Cornell University; Development and use of the Serious Veterinary Illness Conversation Guide; Ethics of palliative medicine in veterinary patients; Overcoming obstacles to palliative care: what can we learn from our MD colleagues?; Caregiver burden and veterinary client mental health concerns; Capacities of animal patients: how cognitive ethology can (and should) inform palliative and end of life care; Palliative care challenges from the oncology service in a veterinary teaching hospital; Private practice oncology: viewpoint on end of life decision-making; Advances in pain management, palliative care applications; Advances in neurology, palliative care applications; Updates and advances in cognitive dysfunction; Perspectives on nutrition and feeding; Palliative care services at home: viewpoint from a multi-doctor practice; Objective exploration of euthanasia: what do (and don't) we know about adverse effects?; Integrating a social worker into the veterinary team for palliative care and hospice; and Conflict management.

Equine Genetic Diseases, An Issue of Veterinary Clinics of North America: Equine Practice, E-Book Elsevier Health Sciences This issue of *Veterinary Clinics: Equine Practice*, guest edited by Dr. Carrie Finno, focuses on Equine Genetic Diseases. Topics include: Genetics, Genomics, and Emergent Precision Medicine 12 years post Equine Reference Genome; Equine SNP Genotyping Arrays; Next-generation Sequencing; Genetic Testing in the Horse; Genetics of Cardiovascular Disease; Genetics of Respiratory Disease; Genetics of Neurological Disease; Genetics of Immune Disease; Genetics of Orthopedic Disease; Genetics of Ocular Disease; Genetics of Skin Disease; Genetics of Endocrine and Metabolic Disease; Genetics of Muscle Disease; Genetics of Laminitis; Genetics of Reproductive Diseases; and Genetics of Behavioral Traits.

Clinical Manual of Small Animal Endosurgery John Wiley & Sons A practical and comprehensive guide to rigid endoscopy and endosurgery in small animal practice. Fully illustrated throughout, it covers the clinical treatment of small animals from pre-operative through to post-operative care. With reference to specific procedures, this manual includes guidance on the selection of equipment, surgical techniques, anaesthesia and possible complications. A specialist chapter advising on the treatment of birds, reptiles and small

mammals is also included. *Clinical Manual of Small Animal Endosurgery* will enable veterinarians to develop and improve their endoscopic techniques in clinical practice, as well as providing guidance on referral options for more complex cases. **KEY FEATURES** • Provides comprehensive information on how to perform rigid endoscopic investigations and procedures. • The focus is on dogs and cats with a specialist chapter covering the treatment of exotic small animals • Contains many full colour clinical photographs • Written and edited by experts in the field

Food Animal Neurology, an Issue of Veterinary Clinics of North America: Food Animal Practice Elsevier This issue, edited by Dr. Kevin Washburn, focuses on Food Animal Neurology. Article topics include: Neurological examination of the ruminant; Diagnostics and ancillary tests of neurologic dysfunction in the ruminant; Localization of neurologic lesions in ruminants; Cerebral disorders of calves; Cerebral disorders of the adult ruminant; Cerebellar disorders of ruminants; Brain stem and cranial nerve disorders of ruminants; Spinal cord and peripheral nerve abnormalities of the ruminant; and Toxicoses of the ruminant nervous system.

Exotic Animal Laboratory Diagnosis John Wiley & Sons *Exotic Animal Laboratory Diagnosis* is a practical, user-friendly guide to diagnostic testing in a wide range of exotic species. Offers complete information on obtaining samples, performing tests, and interpreting laboratory results in exotic animals Presents information on each species using a similar format for easy access Emphasizes details on clinical biochemistries, urinalysis, and common laboratory diagnostic tests not found in other resources Draws together information on selecting, performing, and using diagnostic tests into a single easy-to-use resource Covers a wide range of species, including small mammals, primates, reptiles, aquatic animals, and wild, laboratory, and pet birds

Surgery of Exotic Animals John Wiley & Sons *Surgery of Exotic Animals* The first book to provide veterinarians with in-depth guidance on exotic animal surgical principles and techniques As the popularity of exotic animals continues to grow, it is becoming increasingly important for veterinarians to be knowledgeable and skilled in common surgical procedures for a wide range of exotic species. Written for practitioners and board-certified surgeons with a working knowledge of domestic animal surgery, *Surgery of Exotic Animals* is the first clinical manual to provide comprehensive guidance on surgical principles and common procedures in exotic pets, zoo animals, and wildlife. Edited by internationally recognized leaders in exotic animal surgery and zoological medicine, this much-needed volume covers invertebrates, fish, amphibians, reptiles, birds, and both terrestrial and marine mammals. Contributions from a team of surgery and zoo specialists offer detailed descriptions of common surgeries and provide a wealth of color images demonstrating how each procedure is performed—including regional anatomy and surgical approaches. An invaluable one-stop source of authoritative surgical information on exotic species, this book: Provides illustrated guidance on surgical principles and common surgeries performed in exotic species Describes general principles, instrumentation, equipment, suture materials, and magnification surgery Covers a wide range of procedures such as small and large mammal dental surgery, avian soft tissue surgery, reptile orthopedic surgery, and primate surgery Includes chapters on surgical oncology, megavertebrate laparoscopy, and minimally invasive surgery techniques *Surgery of Exotic Animals* is an indispensable clinical guide and reference for all private veterinary practitioners; exotic, zoo, and wildlife veterinarians; laboratory animal veterinarians; veterinary students; and veterinary technicians.

Pathology of Small Mammal Pets John Wiley & Sons *Pathology of Small Mammal Pets* presents a ready reference for veterinarians, veterinary pathologists, and technicians who work with small mammal companion animals. Provides up-to-date, practical information on common disease conditions in small mammal companion animals Offers chapters logically organized by species, with comprehensive information on diagnosing diseases in each species Takes a practical, system-based approach to individual disease conditions Covers clinical signs, laboratory diagnostics, gross pathology, histopathology, and differential diagnoses in detail Includes relevant information for conventional breeding operations and breeding facilities, with strategies for disease management in herds and colonies Features information on normal anatomy in included species to assist in recognizing pathology

Plumb's Veterinary Drug Handbook Pocket John Wiley & Sons *Plumb's Veterinary Drug Handbook, Ninth Edition* updates the most complete, detailed, and trusted source of drug information relevant to veterinary medicine. Provides a fully updated edition of the classic veterinary drug handbook, with carefully curated dosages per indication for clear guidance on selecting a dose Features 16 new drugs Offers an authoritative, complete reference for detailed information about animal medication Designed to be used every day in the fast-paced veterinary setting Includes dosages for a wide range of species, including dogs, cats, exotic animals, and farm animals

Theriogenology, An Issue of Veterinary Clinics: Small Animal Practice - E-Book Elsevier Health Sciences Guest Editors Catherine Lamm and Chelsea Makloski review articles in theriogenology for the small animal practitioner. Topics will include: managing the reproductive cycle in the bitch, clinical techniques of artificial insemination in dogs, current advances in gestation and parturition in cats and dogs, clinical approaches to infertility in the bitch, the problem stud dog, guide to emergency interception during parturition in the dog and cat, clinical approach to abortion, still birth and neonatal death in cats and dogs, disorders of sexual development, common lesions in the male reproductive tract of cats and dog, common lesions in the female reproductive tract of cats and dogs, bacterial reproductive pathogens of cats and dogs, viral reproductive pathogens of cats and dogs, and more!

Veterinary Hematology Atlas of Common Domestic and Non-Domestic Species John Wiley & Sons Now in its third edition, *Veterinary Hematology: Atlas of Common Domestic and Non-Domestic Species* continues to offer veterinarians and veterinary technicians an essential guide to veterinary hematology. Comprehensive in scope, the atlas presents the fundamentals of both normal and abnormal blood cell morphologies, with coverage of a wide range of species, including dogs, cats, horses, ruminants, llamas, rats, mice, nonhuman primates, ferrets, rabbits, guinea pigs, birds, amphibians, and reptiles. Designed as a useful and accessible guide, the updated third edition presents more than 300 color images and includes a new chapter that describes the best techniques for using hematology instruments. The authors—noted experts on the topic—clearly show how to identify and interpret the hematological changes that may occur in a variety of species. In addition, a companion website offers a wealth of additional hematological images. This vital atlas: Provides an updated edition of the popular veterinary hematology atlas for veterinarians, veterinary students, and veterinary technicians Contains a new instructive chapter on hematology instrumentation Presents hundreds of high-quality color photographs that help in identification Covers a range of species from dogs and cats to birds and reptiles Features a companion website that provides a wealth of hematological images Written for both novice and experienced veterinarians, *Veterinary Hematology* provides a complete resource to blood morphologic abnormalities in domestic and non-domestic species.

Paratuberculosis Organism, Disease, Control CABI *Paratuberculosis*, also referred to as Johne's disease, affects principally cattle, goats, sheep, buffalo, deer and other ruminants. It is common worldwide and responsible for significant economic losses in the ruminant livestock industries. A timely follow up to the first book on *Paratuberculosis*, this new edition is still the only comprehensive

text providing both historical context and the latest developments in the field. Examining the epidemiology of paratuberculosis, the organism that causes the disease, and practical aspects of its diagnosis and control, it also addresses the link between paratuberculosis in the food chain and human health implications, including Crohn's disease. **Advances in Fluid, Electrolyte, and Acid-base Disorders, An Issue of Veterinary Clinics of North America: Small Animal Practice, E-Book Elsevier Health Sciences** Drs. Helio Autran de Moraes and Stephen DiBartola have assembled a comprehensive list of topics on *Advances in Fluid, Electrolyte, and Acid-base Disorders*. Just some of the many article topics include: Hypoxemia; Respiratory Alkalosis; Respiratory Acidosis; Anion gap and strong ion gap; Metabolic Alkalosis; Hyperchloremic Metabolic Acidosis; High Anion Gap Metabolic Acidosis; Hypercalcemia; Hypocalcemia; Chloride; Magnesium; Phosphorus; Practical management of dysnatremias; Spurious electrolyte disorders; Compensation for acid-base disorders; Fluid therapy: Options and rational selection; Maintenance fluid therapy: Isotonic versus hypotonic solutions; Are colloids bad and what are the options?; Fluid management in patients with trauma; Restrictive versus liberal approach, and more!
