ARTIFICIAL NEURAL NETWORKS AND MACHINE LEARNING - ICANN 2018

27TH INTERNATIONAL CONFERENCE ON ARTIFICIAL NEURAL NETWORKS, RHODES, GREECE, OCTOBER 4-7, 2018, PROCEEDINGS, PART I

Springer This three-volume set LNCS 11139-11141 constitutes the refereed proceedings of the 27th International Conference on Artificial Neural Networks, ICANN 2018, held in Rhodes, Greece, in October 2018. The papers presented in these volumes was carefully reviewed and selected from total of 360 submissions. They are related to the following thematic topics: AI and Bioinformatics, Bayesian and Echo State Networks, Brain Inspired Computing, Chaotic Complex Models, Clustering, Mining, Exploratory Analysis, Coding Architectures, Complex Firing Patterns, Convolutional Neural Networks, Deep Learning (DL), DL in Real Time Systems, DL and Big Data Analytics, DL and Big Data, DL and Forensics, DL and Cybersecurity, DL and Social Networks, Evolving Systems - Optimization, Extreme Learning Machines, From Neurons to Neuromorphism, From Sensation to Perception, From Single Neurons to Networks, Fuzzy Modeling, Hierarchical ANN, Inference and Recognition, Information and Optimization, Interacting with The Brain, Machine

Learning (ML), ML for Bio Medical systems, ML and Video-Image Processing, ML and Forensics, ML and Cybersecurity, ML and Social Media, ML in Engineering, Movement and Motion Detection, Multilayer Perceptrons and Kernel Networks, Natural Language, Object and Face Recognition, Recurrent Neural Networks and Reservoir Computing, Reinforcement Learning, Reservoir Computing, Self-Organizing Maps, Spiking Dynamics/Spiking ANN, Support Vector Machines, Swarm Intelligence and Decision-Making, Text Mining, Theoretical Neural Computation, Time Series and Forecasting, Training and Learning.

MAKING SECRET CODES

Capstone "Discusses different methods for creating secret codes"--Provided by publisher.

ANCIENT CIVILISATIONS

R.I.C. Publications

AMAZING FACTS IN WORLD HISTORY, GRADES 5 - 8

Mark Twain Media This entertaining classroom supplement provides students with an intimate view of the people and events that have shaped the world! Activities will pique students' interest and serve as a springboard for discussion. Topics covered include ancient Egypt, the early Olympic games, life in Rome, the Mongols, ancient China, Vikings, the Middle Ages, the Titanic, and more! Reading passages are accompanied by fun quizzes, puzzles, logic problems, to reinforce learning. An answer key is also included. Mark Twain Media Publishing Company specializes in providing captivating, supplemental books and decorative resources to complement middle- and upper-grade classrooms. Designed by leading educators, the product line covers a range of subjects including mathematics, sciences, language arts, social studies, history, government, fine arts, and character. Mark Twain Media also provides innovative classroom solutions for bulletin boards and interactive whiteboards. Since 1977, Mark Twain Media has remained a reliable source for a wide variety of engaging classroom resources.

A COMPANION TO GREEK MYTHOLOGY

John Wiley & Sons A Companion to Greek Mythology presents a series of essays that explore the phenomenon of Greek myth from its origins in shared Indo-European story patterns and the Greeks' contacts with their Eastern Mediterranean neighbours through its development as a shared language and thought-system for the Greco-Roman world. Features essays from a prestigious international team of literary experts Includes coverage of Greek myth's intersection with history, philosophy and religion Introduces readers to topics in mythology that are often inaccessible to non-specialists Addresses the Hellenistic and Roman periods as well as Archaic and Classical Greece

NOW YOU KNOW BIG BOOK OF ANSWERS 2

Dundurn Doug Lennox serves up a mammoth selection of some of his most cherished Q&As culled from his previous books. Also featured in this wide-ranging compendium are 150 brand-new questions answered with Dougs inimitable flair for unearthing intriguing arcana.

BRILL'S COMPANION TO GREEK AND LATIN EPYLLION AND ITS RECEPTION

BRILL This book offers a critical re-examination of some important (and some lesser known) texts which are commonly labelled 'epyllia' in classical scholarship. It traces the history of the generic term 'epyllion' and sketches the literary and scholarly reception of these texts.

THE GREEK MUSE

Strategic Book Publishing Her face splashed red not from vegetable paint. Its sudden appearance is a war cry of a different kind: a tormented soul, a human being forced into becoming a cannibal, a gruesome monster? Have the gods of bygone days reawakened the myth of the Minotaur? Seeking inspiration from a muse, Zsolt meets the woman locked-up in her gilded cage. A clever disguise for a virtual stunt, or has the world reverted to the age of the Minoan civilization, and reawakened the distant past? Zsolt the artist will venture into the call for help to free the woman he is drawn to with the irresistible call for an adventure that pushes his curiosity to new heights. As he prepares for his trip to visit the sacred sites of Greek antiquity, he discovers a world he had not thought to exist. While meeting his friend Takis, the freshman PI, his research of sites of antiquity aids their survival freeing Rita, the 'monster-woman'. Still, there is a price to be paid by the friends entering the secret underworld. Rita will be sacrificed and Mino, the sarcastic master of it, challenges them to a race against time and back-breaking tasks. Will they succeed their tests against all odds or be added to the gruesome meals Mino has in mind? A tale of thrilling happenings, life-threatening hindrances and the occult and hidden, The Greek Muse appears in a variety of faces, demanding limits of endurance by her friend, saviour and lover.

BOYS' LIFE

DIGITAL FINGERPRINTING

Springer This is the first book on digital fingerprinting that comprehensively covers the major areas of study in a range of information security areas including authentication schemes, intrusion detection, forensic analysis and more. Available techniques for assurance are limited and authentication schemes are potentially vulnerable to the theft of digital tokens or secrets. Intrusion detection can be thwarted by spoofing or impersonating devices, and forensic analysis is incapable of demonstrably tying a particular device to specific digital evidence. This book presents an

innovative and effective approach that addresses these concerns. This book introduces the origins and scientific underpinnings of digital fingerprinting. It also proposes a unified framework for digital fingerprinting, evaluates methodologies and includes examples and case studies. The last chapter of this book covers the future directions of digital fingerprinting. This book is designed for practitioners and researchers working in the security field and military. Advanced-level students focused on computer science and engineering will find this book beneficial as secondary textbook or reference.

FULL CIRCLE MAGAZINE #94

THE INDEPENDENT MAGAZINE FOR THE UBUNTU LINUX COMMUNITY

Full Circle Magazine This month: * Command & Conquer * How-To : Block Calls, LibreOffice, and Using i2P * Graphics : Inkscape. * Linux Labs: BTRFS * Book Review: Practical Data Science Cookbook * Ubuntu Games: War Thunder plus: News, Arduino, Q&A, and soooo much more.

THE TEACHER'S BOOK OF LISTS

Good Year Books Lists galore provide endless inspiration for any teacher. Many have introductory notes with background information and suggestions for educational use. Some lists are accompanied by worksheets and activities. For example, after the Abbreviations list, students identify abbreviations in telephone messages and rewrite them using complete words. In the spirit of the book, here's a list of topics covered: words, spelling, writing, communication, literature, math, science, the environment, social studies, art and music, and teacher and family references. Grades 1-6. Answer key. Illustrated. Good Year Books. 378 pages. Second Edition.

DO THE MATH!

ON GROWTH, GREED, AND STRATEGIC THINKING

SAGE Publications Our world has become more complicated, and the notion of growth at any cost has led to constant economic uncertainty, a permanently stressed-out workforce, and everyday stories of government and corporate corruption. John K. White argues that a better knowledge of basic systems is needed to understand the world we live in, and one place to start is with counting and mathematics. Without an understanding of mathematics, we make poor personal financial choices, and we can't make the important decisions about government bailouts, oil supplies, or global warming. **Do the Math!** uses creative examples—borrowing liberally from the anecdotal and the academic, from literature and the newspaper, and from the stock market and the casino—to provide a thought-provoking guide to better understanding the world around us.

SHERLOCK HOLMES AND THE EGYPTIAN TOMB MYSTERY

Andrews UK Limited We are in London in 1890, and the British Museum plans to exhibit the contents, brought specially to London, of a newly excavated Egyptian tomb. The event is disturbed by the murder of a museum watchman. A suspect is quickly found, a young museum assistant, caught red-handed with a bloodstained knife. But things are not so simple; behind this apparently clear case Holmes uncovers, piece by piece, just as did the archaeologists, a complicated story of blackmail, violence and treachery, which, at every step, threatens him, and Watson, with deadly consequences. See how events ranging from the British Embassy in Cairo to a theatre in East London can baffle and confuse, until Holmes and Watson find the last pieces of the puzzle, and must fight for their lives.

SECRET OF THE MUSES RETOLD

CLASSICAL INFLUENCES ON ITALIAN AUTHORS OF THE TWENTIETH CENTURY

University of Chicago Press Precious repositories of ancient wisdom? Musty relics of outmoded culture? Timeless paragons of artistic achievement? Hegemonic tools of intellectual repression? Just what are the classics, anyway, and why do (or should) we still pay so much attention to them? What is the literary canon? What is myth, and how do we use it? These are some of the questions that gave rise to John Kirby's *Secret of the Muses Retold*. This new study of works by five twentieth-century Italian writers investigates the abiding influence of the Greek and Roman classics, and their rich legacy in our own day. The result is not only a splendid introduction to contemporary Italian literature, but also a lucid and stimulating meditation on the insights that writers such as Umberto Eco and Italo Calvino have tapped from the wellspring of ancient tradition. Kirby's book offers an impassioned plea for the recuperation of the humanities in general, and of classical studies in particular. No expertise in Greek, Latin, Italian, or literary theory is presumed, and both traditional and postmodern perspectives are accommodated.

THE WRITING OF THE GODS

THE RACE TO DECODE THE ROSETTA STONE

Simon and Schuster The surprising and compelling story of two rival geniuses in an all-out race to decode one of the world's most famous documents—the Rosetta Stone—and their twenty-year-long battle to solve the mystery of ancient Egypt's hieroglyphs. The Rosetta Stone is one of the most famous objects in the world, attracting millions of visitors to the British museum every year, and yet most people don't really know what it is. Discovered in a pile of rubble in 1799, this slab of stone proved to be the key to unlocking a lost language that baffled scholars for centuries. Carved in ancient Egypt, the Rosetta Stone carried the same message in different languages—in Greek using Greek letters, and

in Egyptian using picture-writing called hieroglyphs. Until its discovery, no one in the world knew how to read the hieroglyphs that covered every temple and text and statue in Egypt. Dominating the world for thirty centuries, ancient Egypt was the mightiest empire the world had ever known, yet everything about it—the pyramids, mummies, the Sphinx—was shrouded in mystery. Whoever was able to decipher the Rosetta Stone, and learn how to read hieroglyphs, would solve that mystery and fling open a door that had been locked for two thousand years. Two brilliant rivals set out to win that prize. One was English, the other French, at a time when England and France were enemies and the world's two great superpowers. The Writing of the Gods chronicles this high-stakes intellectual race in which the winner would win glory for both himself and his nation. A riveting portrait of empires both ancient and modern, this is an unparalleled look at the culture and history of ancient Egypt and a fascinating, fast-paced story of human folly and discovery unlike any other.

DECODING MARK

Bloomsbury Publishing USA When John desires Mary or Mary desires John, what does either of them want? What is meant by innocence, passion, love and arousal, desire, perversion and shame? These are just a few of the questions Roger Scruton addresses in this thought-provoking intellectual adventure. Beginning from purely philosophical premises, and ranging over human life, art and institutions, he surveys the entire field of sexuality; equally dissatisfied with puritanism and permissiveness, he argues for a radical break with recent theories. Upholding traditional morality -- though in terms that may shock many of its practitioners -- his argument gravitates to that which is candid, serene and consoling in the experience of sexual love.

NEIKO'S FIVE LAND ADVENTURE

AK Taylor What if the fate of two worlds were in the hands of one person: you? The childhood secret of a troubled teen warrior is used against her by her enemies. It turns out what Neiko imagined is real, and she becomes trapped in the same world she imagined by an otherworldly evil that is worse than the devil. Getting home is the least of her problems. The Indians and the Crackedskulls are locked in the turmoil of a war that has raged for centuries, and it is presently in a stalemate. Her enemies, Raven and Bloodhawk, have come up with a scheme to take her down, but in doing so they inadvertently open the door to another universe and to an otherwordly evil. Neiko later finds out that a land she thought she had only imagined is actually real and the dark being is not a figment of her childhood imagination-he is terrifyingly real and she faces him for the first time. To make matters worse, it is now in her world and he has evil plans especially for her. After several standoffs with the malevolent Ramses the Dark Pharaoh in Hawote, she is trapped in Qari by his strange and powerful magic. Trapped in another universe in a place that is not exactly the way she imagined it, and she must somehow find a way to teleport home. That is easier said than done; the odds are overwhelmingly against her and her scorpion-cobra companion as they must travel to find the answer and

help but at the same time avoid Ramses' allies, traps, and tricks. Can she come back home and turn the tables on her enemies?

A COMPANION TO FAMILIES IN THE GREEK AND ROMAN WORLDS

John Wiley & Sons A Companion to Families in the Greek and Roman Worlds draws from both established and current scholarship to offer a broad overview of the field, engage in contemporary debates, and pose stimulating questions about future development in the study of families. Provides up-to-date research on family structure from archaeology, art, social, cultural, and economic history Includes contributions from established and rising international scholars Features illustrations of families, children, slaves, and ritual life, along with maps and diagrams of sites and dwellings Honorable Mention for 2011 Single Volume Reference/Humanities & Social Sciences PROSE award granted by the Association of American Publishers
