AUTHENTICITY, LANGUAGE AND INTERACTION IN SECOND LANGUAGE CONTEXTS

Multilingual Matters **This collection addresses issues of authenticity in second language contexts from a variety of theoretical and methodological approaches along three principal themes: What is authentic language? Who is an authentic speaker? How is authenticity achieved? The volume responds to these questions by bringing together scholars working in a range of contexts, including with language learners in the classroom and in residence or study abroad, with a variety of second or additional languages: Chinese, English, French, German, Japanese and Spanish. Contributions focus on authenticity as it relates to patterns of language and meaning, and to agency, identity and culture, and serve as an opening to an extended conversation about the nature of authenticity and its development in L2 contexts. This volume is relevant for students and scholars interested in learning about or investigating questions of authenticity and interaction in a wide range of language learning contexts.**

GENERAL AND ORAL PATHOLOGY FOR THE DENTAL HYGIENIST

Lippincott Williams & Wilkins General and Oral Pathology for the Dental Hygienist, 2nd Edition, is a comprehensive study of the general concepts of pathophysiology as they relate to systemic and oral conditions. The only dental hygiene book on the market to address both oral and general pathology, General and Oral Pathology for the Dental Hygienist is the ideal solution for programs that cover oral and general pathology in one course, and provides an easily accessible review of general pathology for programs that cover oral pathology separately. The Oral Pathology section is uniquely organized by distinct recognizable characteristics of lesions (for example, "white" lesions or "radiolucent" lesions), a uniquely practical and highly effective way of presenting this information since dental hygienists have to evaluate pathology based on what they see. This allows the student to easily identify what he or she might be looking at and to differentiate between lesions with similar appearances.

INTRODUCTORY AND INTERMEDIATE ALGEBRA: AN APPLIED APPROACH

Cengage Learning As in previous editions, the focus in ALGEBRA: INTRODUCTORY & INTERMEDIATE remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To examples and the paired Examples and You Try It problems. Student engagement is crucial to success. Presenting students with worked examples, and then providing them with the opportunity to immediately solve similar problems, helps them build their confidence and eventually master the concepts. Simplicity is key in the organization of this edition, as in all other editions. All lessons, exercise sets, tests, and supplements are organized around a carefully constructed hierarchy of objectives. Each exercise mirrors a preceding objective, which helps to reinforce key concepts and promote skill building. This clear, objective-based approach allows students to organize their thoughts around the content, and supports instructors as they work to design syllabi, lesson plans, and other administrative documents. New features like Focus on Success, Apply the Concept, and Concept Check add an increased emphasis on study skills and conceptual understanding to strengthen the foundation of student success. The Sixth Edition also features a new design, enhancing the Aufmann Interactive Method and making the pages easier for both students and instructors to follow. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>.
