Apes And Angels 7. From Observables to Unobservables in Science and Philosophy 8. The Mad Lover About the Book: The Most Dangerous Game, also published as The Hounds of Zaroff, is a short story by Richard Connell first published in Collier's magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s. Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt. After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan. Zaroff, another big-game hunter, knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for sport, giving them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff, Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for The Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in, smoking a cigarette, and then abruptly departing. After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures

Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind: the difficulty of replacing Ivan and the uncertainty of whether Rainsford perished in his dive. About the Author : Richard Edward Connell, Jr. was an American author and journalist, best known for his short story "The Most Dangerous Game." Connell was one of the best-known American short story writers of his time and his stories appeared in the Saturday Evening Post and Collier's Weekly. Connell had equal success as a journalist and screenwriter. He was nominated for an Academy Award in 1942 for best original story for the film Meet John Doe.

The Trial Lawyer

What it Takes to Win

American Bar Association "Each arena has its Michael Jordan. In the courtroom, it is David Berg. And Berg has taken this natural talent and time-honed skill to a new level as he unlocks certain secrets that have catapulted him to the top of his profession. What most have considered his "magic," he explains as common sense practice. This book should be a required text at every law school. Those in the legal profession should not just read this, they should study it. The difference it will make in case results more than pays for the book, over and over again." W. Mark Lanier, The Lanier Law Firm, Houston, TX "My father made his living as a lawyer. My elder brother used to practice his cross-examination technique on me and thus rose to be Australia's attorney-general. It might be said that I grew

up with the law. But I can swear on a stack of bibles that I have never read a book about the nuts and bolts of forensic skill, about how to win cases and influence judges and juries, as expert, perceptive, precise and, often, as outright funny as David Berg's. I hope that I never need the professional services to which his book is a guide, but if I do I pray my defender will have read and memorized every last word of it." Robert Hughes, Author of the Fatal Shore Former art critic of Time magazine "I think of David as a people's trial lawyer in the Clarence Darrow tradition. He has tried almost every type of case from murder to patent infringement. He has an ability to persuade jurors that is the equal of any practitioner I know. The Trial Lawyer shows how it can be done." Morris Dees, Southern Poverty Law Center, Montgomery, AL "I wrote this book out of the fear that the great war stories of the next generation of trial lawyers would begin, `And then, I looked that mediator in the eyes and I said'...

Informal Fallacies

Towards a Theory of Argument Criticisms

John Benjamins Publishing The basic question of this monograph is: how should we go about judging arguments to be reasonable or unreasonable? Our concern will be with argument in a broad sense, with realistic arguments in natural language. The basic object will be to engage in a normative study of determining what factors, standards, or procedures should be adopted or appealed to in evaluating an argument as "good," "not-so-good," "open to criticism," "fallacious," and so forth. Hence our primary concern will be with the problems of how to criticize an argument, and when a criticism is reasonably justified.

The Philosophy of Horror

Or, Paradoxes of the Heart

Routledge Noel Carroll, film scholar and philosopher, offers the first serious look at the aesthetics of horror. In this book he discusses the nature and narrative structures of the genre, dealing with horror as a "transmedia" phenomenon. A fan and serious student of the horror genre, Carroll brings to bear his comprehensive knowledge of obscure and forgotten works, as well as of the horror masterpieces. Working from a philosophical perspective, he tries to account for how people can find pleasure in having their wits scared out of them. What, after all, are those "paradoxes of the heart" that make us want to be horrified?

Dangerous Games

What the Moral Panic Over Role-Playing Games Says about Play, Religion, and Imagined Worlds

Univ of California Press The 1980s saw the peak of a moral panic over fantasy role-playing games such as Dungeons and Dragons. A coalition of moral entrepreneurs that included representatives from the Christian Right, the field of psychology, and law enforcement claimed that these games were not only psychologically dangerous but an occult religion masquerading as a game. Dangerous Games explores both the history and the sociological significance of this panic. Fantasy role-playing games do share several functions in common with religion. However, religion—as a socially constructed world of shared meaning—can also be compared to a fantasy role-

playing game. In fact, the claims of the moral entrepreneurs, in which they presented themselves as heroes battling a dark conspiracy, often resembled the very games of imagination they condemned as evil. By attacking the imagination, they preserved the taken-for-granted status of their own socially constructed reality. Interpreted in this way, the panic over fantasy-role playing games yields new insights about how humans play and together construct and maintain meaningful worlds. Laycock's clear and accessible writing ensures that Dangerous Games will be required reading for those with an interest in religion, popular culture, and social behavior, both in the classroom and beyond.

Cauldron of the Gods

A Manual of Celtic Magick

Mandrake Imagine the forest. As darkness falls, the somber beeches disappear in misty twilight and shadows seem to gather under their branches. Far away, the blackbird's call tells of the coming of the night. The birds cease their singing, silence descends, soon the

beasts of the night will make their appearance. Between tangled roots, hidden by nettles and brambles, the earth seems to ripple. A few humps of earth seem to emerge from the ground. They are the last traces of burial mounds, of mounds, which were tall and high 2500 years ago. Many of them have disappeared, hidden by tangled roots of beech and oak, ploughed flat by careless farmers, others again show caved-in tops where grave robbers have looted the central chamber. The locals shun these hills. There are tales that strange fires can be seen glowing on the mounds, and that on spooky nights, great armed warriors arise from their resting places. Then the doors to the deep are thrown open and unwary travelers have to beware of being invited into the halls of the dead and unborn. Here the kings of the deep feast and celebrate, time passes differently and strange treasures may be found. Who knows the nights when the gates are open? Who carries the primrose, the wish-flower, the strange blossom that opens the doors to the hollow hills?

Stop Hitting Snooze

iUniverse If you're anything like me, you hit the snooze on your alarm at least once every morning. You may even set your alarm so you can hit snooze a few times before you really need to get up. I know I do. Why do we do this? Why do we consistently hit snooze and stay in bed? The reason is that the bed is comfortable. Granted, there are times when we really don't need to get up and forgot to turn off the alarm, but this is not often. We like to stay in our beds because it's warm and safe. We eventually do have to get out of bed. Whether it's work, school, or maybe just to play some video games, we always get out of bed. I want you to ponder this question as you read: What if you never got out of bed? This is what happens far too often with our faith. We wake up long enough to receive salvation, and then hit the button again, now feeling safe knowing where we're going when we die. It is finally time for you to get up, get out of bed, and see the world.
