Who's who in Australia

Victoria, Queen of the Screen

From Silent Cinema to New Media

McFarland Both in life and death, Queen Victoria is among the most popular monarchs to be committed to film. Her reign was characterized by an explosion in media coverage that began to rely on images rather than words to tell her story. Even though Victoria has been labeled the "first media monarch," the sheer magnitude of her screen presence has been neither chronicled nor fully appreciated until now. This book examines the growth and evolution of Queen Victoria's on-screen image. From the satirical cartoons and silent films of the 19th century to the television shows, video games, and webcomics of the 21st, it demonstrates how the protean Victoria character has evolved, ultimately meaning many different things to many different people in many different ways. Each chapter looks at a facet of her character and includes analysis of how these media present Queen Victoria as a real person and shape her as a character acting within a narrative. The book includes a comprehensive and international filmography.

The Spirit Well, The Shadow Lamp, and The Fatal Tree

A Bright Empires Collection

Thomas Nelson Enjoy books three, four, and five in Stephen Lawhead's Bright Empires series! The Spirit Well The Search for the Map—and the secret behind its cryptic code—intensifies in a quest across time, space, and multiple realities. The Shadow Lamp The quest for answers—and ultimate survival—hinges on finding the cosmic link between the Skin Map, the Shadow Lamp, and the Spirit Well. The Fatal Tree It started with small, seemingly insignificant wrinkles in time: A busy bridge suddenly disappears, spilling cars into the sea. A beast from another realm roams modern streets. Napoleon's army appears in 1930s Damascus ready for battle. But that's only the beginning as entire realities collide and collapse.

Charas, the Improbable Dome Builders

"Pioneer Works Press, in partnership with The Song Cave, is pleased to present the release of CHARAS: The Improbable Dome Builders, by Syeus Mottel (2017), a fascinating account of six ex-gang members who broke ground to construct a geodesic dome on a vacant lot in the shadow of the Manhattan Bridge after a 1970 meeting with the celebrated and revolutionary architect R. Buckminster Fuller, also known as Bucky. Originally published in 1973, this republication speaks to the issues at the heart of the CHARAS project as gentrification seems to multiply faster than communities can work to preserve themselves against it. The book acts as a record to highlight ways people have united to activate empty spaces before gentrification. As a group, CHARAS was interested in physically altering the housing conditions in their immediate neighborhood, the Lower East Side. Influenced by Bucky's teachings, the young men of CHARAS began a period of devoted study to solid geometry, spherical trigonometry, and the principles of dome building. Following this period, CHARAS developed a program that encouraged community autonomy and the reclaiming public space. More than simply a documentation of the project, the book offers stories, profiles, interviews, and images, and the group's process from their intensive study to the obstacles they faced while physically constructing domes."--pioneerworks.org

The Illustrated sporting & dramatic news National Directory of Nonprofit Organizations Churchill's Shadow An Astonishing Life and a Dangerous Legacy

Random House 'Provocative, clear-sighted, richly textured and wonderfully readable, this is the indispensable biography of Churchill for the post-Brexit 2020s' DAVID KYNASTON 'Stimulating, erudite and above all entertaining' ROBERT HARRIS In A.J.P. Taylor's words, Churchill was 'the saviour of his country' when he became prime minister in 1940. Yet he was also a deeply flawed character, whose personal ambition would cloud his political judgement. While Churchill's Shadow gives due credit to the achievements, it also reveals some spectacular failures; indeed, it appears that for every Finest Hour there were many more Gallipolis. But this book goes beyond the reappraisal of a life and a career: it reveals that Churchill has cast a complex shadow over post-war British history and contemporary politics - from the 'Churchillian stance' of Tony Blair taking the country to war in Iraq to the delusion of a special relationship with the United States to the fateful belief in British exceptionalism: that the nation can once again stand alone in Europe. Geoffrey Wheatcroft takes a radically different approach to other biographies and studies of Churchill, zooming in on crucial moments in his life that help us understand the man in his many contradictions. Churchill's Shadow both tells the story of his extraordinary life and the equally fascinating one of his legacy, focusing on how Churchill was viewed by contemporaries and those who came after. As we struggle to work out who we are as a nation, how our complex legacies of war and empire shape our past and our present, we do that in the long shadow of Churchill. He set about writing his own myth during his lifetime and it is a myth - with all the delusions and hangovers myths bring - in whose grip we have been living in ever since.
