Beginning with the peopling of the continent about 60,000 years ago, the volume examines the early history and culture of the Aboriginals, Australia's indigenous population and the oldest continuously surviving culture in the world. The volume continues with the first documented sighting of the landmass by a European in the 17th century and the colonial period in the 18th and 19th centuries. From the Federation of 1901 to the Liberal government of John Howard (1998-2007) and the Labor government of Kevin Rudd (2007-present), this new book explores Australia's relationship to the British Crown, environmental issues that plague the land, the rights of marginalized people, and the role of sports. Media exploded and million-dollar contracts were torn up. Australia's prime minister expressed the public anger and disappointment: 'Our cricketers are role models, and cricket is synonymous with fair play.' But there was more to the story than the actions of a few young men. A tangle of personality, politics and culture had led them to this point. Geoff Lemon witnessed that story from commentary boxes and press conferences, and was there in South Africa for its final act. This is a frank, fearless and often humorous account of the path from Ashes high to Cape Town low, from someone who watched it all unfold. **Girt The Unauthorised History of Australia** Black Inc. Girt. No word could better capture the essence of Australia ... In this hilarious history, David Hunt reveals the truth of Australia's past, from megafauna to Macquarie - the cock-ups and curiosities, the forgotten eccentrics and Eureka moments that have made us who we are. Girt introduces forgotten heroes like Mary McLoghlin, transported for the crime of "felony of sock," and Trim the cat, who beat a French monkey to become the first animal to circumnavigate Australia. It recounts the misfortunes of the escaped Irish convicts who set out to walk from Sydney to China, guided only by a hand-drawn paper compass, and explains the role of the coconut in Australia's only military coup. Our nation's beginnings are steeped in the strange, the ridiculous and the frankly bizarre. Girt proudly reclaims these stories for all of us. Not to read it would be un-Australian "A sneaky, sometimes shocking peek under the dirty rug of Australian history." - John Birmingham "Hilarious and insightful - Hunt has found the deep wells of humour in Australia's history." - Chris Taylor, *The Chaser* **Truth** Text Publishing At the close of a long day, Inspector Stephen Villani stands in the bathroom of a luxury apartment high above the city. In the glass bath, a young woman lies dead, a panic button within reach. So begins *Truth*, the sequel to Peter Temple's bestselling masterpiece, *The Broken Shore*, winner of the Gold Dagger for Best Crime Novel. Villani's life is his work. It is his identity, his calling, his touchstone. But now, over a few sweltering summer days, as fires burn across the state and his superiors and colleagues scheme and jostle, he finds all the certainties of his life are crumbling. *Truth* is a novel about a man, a family, a city. It is about violence, murder, love, corruption, honour and deceit. And it is about truth. **First Australians (Unillustrated)** The Miegunyah Press This book is the dramatic story of the collision of two worlds that created contemporary Australia. Wise old Wombat suggests that the animals try to make the biggest frog laugh, so the water will spill out of his mouth. He watched in bewilderment as a small pro-Tibet protest was overrun by thousands of angry Chinese students. Where did they come from? Why were they so aggressive? And what gave them the right to shut down others exercising their democratic right to protest? The authorities did nothing about it, and what he saw stayed with him. In 2016 it was revealed that wealthy Chinese businessmen linked to the Chinese Communist Party had become the largest donors to both major political parties. Hamilton realised something big was happening, and decided to investigate the Chinese government's influence in Australia. What he found shocked him. From politics to culture, real estate to agriculture, universities to unions, and even in our primary schools, he uncovered compelling evidence of the Chinese Communist Party's infiltration of Australia. Sophisticated influence operations target Australia's elites, and parts of the large Chinese-Australian diaspora have been mobilised to buy access to politicians, limit academic freedom, intimidate critics, collect information for Chinese intelligence agencies, and protest in the streets against Australian government policy. It's no exaggeration to say the Chinese Communist Party and Australian democracy are on a collision course. The CCP is determined to win, while Australia looks the other way. Thoroughly researched and powerfully argued, *Silent Invasion* is a sobering examination of the mounting threats to democratic freedoms Australians have for too long taken for granted. Yes, China is important to our economic prosperity; but, Hamilton asks, how much is our sovereignty as a nation worth? 'Anyone keen to understand how China draws other countries into its sphere of influence should start with *Silent Invasion*. This is an important book for the future of Australia. But tug on the threads of China's influence networks in Australia and its global network of influence operations starts to unravel.' -Professor John Fitzgerald, author of *Big White Lie: Chinese Australians in White Australia* **The Fatal Shore A History of the Transportation of Convicts to Australia, 1787-1868** Random House In 1787, the twenty-eighth year of the reign of King George III, the British Government sent a fleet to colonize Australia ... The *Fatal Shore* is the prize-winning, scholarly, brilliantly entertaining narrative that has given its true history to Australia. **Stories from the Billabong** Lincoln Children's Books From the author of *Walkabout* come ten of Australia's ancient aboriginal legends, authentically and elegantly retold. Updated edition, covering Brexit, Trump, Xi's ambitions for China, and the geopolitical implications of the COVID-19 pandemic Everything Australia wants to achieve as a country depends on its capacity to understand the world outside and to respond effectively to it. In *Fear of Abandonment*, expert and insider Allan Gyngell tells the story of how Australia has shaped the world and been shaped by it since it established an independent foreign policy during the dangerous days of 1942. Gyngell argues that the fear of being abandoned – originally by Britain, and later by our most powerful ally, the United States – has been an important driver of how Australia acts in the world. Covering everything from the White Australia policy to the South China sea dispute, this is a gripping and authoritative account of the way Australians and their governments have helped create the world we now inhabit in the twenty-first century. In revealing the history of Australian foreign affairs, it lays the foundation for how it should change. Today Australia confronts a more difficult set of international challenges than any we have faced since 1942 – this new edition brings the story up to date. Allan Gyngell is National President of the Australian Institute of International Affairs and an honorary professor at the Australian National University. His long career in Australian international relations included appointments as director-general of the Office of National Assessments and founding executive director of the Lowy Institute. He worked as a diplomat, policy officer and analyst in several government departments and as international adviser to Paul Keating. Investigative journalist Jess Hill puts perpetrators – and the systems that enable them – in the spotlight. Her radical reframing of domestic abuse takes us beyond the home to explore how power, culture and gender intersect to both produce and normalise abuse. She boldly confronts uncomfortable questions about how and why society creates abusers, but can't seem to protect their victims, and shows how we can end this dark cycle of fear and control. *See What You Made Me Do* is a profound and bold confrontation of this urgent crisis and its deep roots.
