Death Without Dignity

AuthorHouse Tyler Davidson has just discovered his colleague, Hugh Disner, dead in the men's room of the building in which they both have offices at a second-tier state university. Tyler immediately becomes a suspect since he has a known history of disdain for Disner and is hounded throughout by a no-nonsense detective named Smockley. He complicates matters by starting a relationship with Disner's widow, Breda. Meanwhile, Tyler fears that he himself might be the next murder victim. What develops is the unraveling of the mystery surrounding Disner's death, along with a study in paranoia, one which colors everything Tyler does, from teaching classes, to grading papers in his office or home, to attending committee meetings, and to promoting his novel called DAVIDSON'S HELL (a modernized version of Dante's "Inferno"). Interlaced is a humorous treatment of academia, including pretentious professors, feckless administrators, inept students, and silly traditions. DEATH WITHOUT DIGNITY is sure to keep you laughing while you feel all of Tyler's fear and suspense.

The Book of the Apocalypse

Available Surfaces

Essays on Poesis

University of Michigan Press In Available Surfaces, T. R. Hummer explores the art of making both poetry and music, and of the concept of "making" itself. He draws on childhood experiences and experiences as an adult, as a poet, and as an explorer of unworldly spaces to examine that "something ineffable about the process of making of which the poem is the exemplary artifact." Hummer grew up in the deep South, and spent many of his high school years playing saxophone in various rock and roll bands before he met poetry. This musical influence is visible in his work: he often discusses poetry together with music, or music with poetry, and his career has included both writing and performance.

Prophecy of Wrath

Christian Faith Publishing, Inc. Thunderous applause and cheers echoed throughout the conference hall at the European Union quarters in Brussels. Thomas falls to his knees in utter shock as he watched the televised life-changing event. His head was pounding as if there was a blaring red neon sign that was going off, and on in his head were the words, THE ANTICHRIST SIGNS SEVEN-YEAR PEACE TREATY WITH ISRAEL! Like most Christians, Thomas believed that the signing of the seven-year peace treaty would not take place until after the biblical rapture. In desperation, Thomas cries out to God as to why he was left behind. To his astonishment, he later learns that the rapture hadn't happened yet! With his adult son's help, Thomas comes to the conclusion that the seven-year tribulation must have begun at the time of the peace signing with Israel. In desperation, Thomas restores his broken marriage and moves his family, along with a small group of people to the Keweenaw Peninsula in Michigan. He finds refuge at a forgotten, old abandoned settlement, which he and Scott had accidently discovered prior to the peace agreement. Miraculously, the buildings were still all intact. They were even filled with personal belongings, which had not been touched by human hands since the 1800s. Thomas felt led by God to bring his people to the Keweenaw, so they could take refuge from the tribulation and the diabolic Antichrist. Life is a struggle for the nineteen settlers as they live much like the pioneers of olden days. Besides the day-to-day struggles for survival, there were romantic conflicts, new relationships, and catastrophes. Nevertheless, the new members of Old Town put their faith in God's hands in the cold, rugged hills of Michigan's Upper Peninsula.

Lifting the Veil: Winter

John O'Brien The seven Seals were broken and the trumpets sounded, their notes echoing around the world. Four horsemen had emerged from the midst of roiling storms and set loose upon humanity. Civilization ended in smoke and flame with clouds of radioactivity encircling the globe. 144,000 had been marked and were the only survivors, driven underground by the poisonous conditions and the nuclear winter which followed the exchange of atomic weapons. The exception is a valley held under the protection of four angels holding a corner of the world free. Those few who remain hold the future hope for humanity in a land where the

darkness holds sway. As demons walk freely among the sanctuaries, will they be able to upset the balance and drive the last vestige of light from the land?

Sacred Landscapes in Antiquity

Creation, Manipulation, Transformation

Oxbow Books From generation to generation, people experience their landscapes differently. Humans depend on their natural environment: it shapes their behavior while it is often felt that deities responsible for both natural benefits and natural calamities (such as droughts, famines, floods and landslides) need to be appeased. We presume that, in many societies, lakes, rivers, rocks, mountains, caves and groves were considered sacred. Individual sites and entire landscapes are often associated with divine actions, mythical heroes and etiological myths. Throughout human history, people have also felt the need to monumentalize their sacred landscape. But this is where the similarities end as different societies had very different understandings, beliefs and practices. The aim of this new thematic appraisal is to scrutinize carefully our evidence and rethink our methodologies in a multi-disciplinary approach. More than 30 papers investigate diverse sacred landscapes from the Iberian peninsula and Britain in the west to China in the east. They discuss how to interpret the intricate web of ciphers and symbols in the landscape and how people might have experienced it. We see the role of performance, ritual, orality, textuality and memory in people's sacred landscapes. A diachronic view allows us to study how landscapes were 'rewritten', adapted and redefined in the course of time to suit new cultural, political and religious understandings, not to mention the impact of urbanism on people's understandings. A key question is how was the landscape manipulated, transformed and monumentalized - especially the colossal investments in monumental architecture we see in certain socio-historic contexts or the creation of an alternative humanmade, seemingly 'non-natural' landscape, with perfectly astronomically aligned buildings that define a cosmological order? Sacred Landscapes therefore aims to analyze the complex links between landscape, 'religiosity' and society, developing a dialectic framework that explores sacred landscapes across the ancient world in a dynamic, holistic, contextual and historical perspective.

The Teotihuacan Trinity

The Sociopolitical Structure of an Ancient Mesoamerican City

University of Texas Press Northeast of modern-day Mexico City stand the remnants of one of the world's largest preindustrial cities, Teotihuacan. Monumental in scale, Teotihuacan is organized along a three-mile-long thoroughfare, the Avenue of the Dead, that leads up to the massive Pyramid of the Moon. Lining the avenue are numerous plazas and temples, which indicate that the city once housed a large population that engaged in complex rituals and ceremonies. Although scholars have studied Teotihuacan for over a century, the precise nature of its religious and political life has remained unclear, in part because no one has yet deciphered the glyphs that may explain much about the city's organization and belief systems. In this groundbreaking book, Annabeth Headrick analyzes Teotihuacan's art and architecture, in the light of archaeological data and Mesoamerican ethnography, to propose a new model for the city's social and political organization. Challenging the view that Teotihuacan was a peaceful city in which disparate groups united in an ideology of solidarity, Headrick instead identifies three social groups that competed for political power—rulers, kin-based groups led by influential lineage heads, and military orders that each had their own animal insignia. Her findings provide the most complete evidence to date that Teotihuacan had powerful rulers who allied with the military to maintain their authority in the face of challenges by the lineage heads. Headrick's analysis also underscores the importance of warfare in Teotihuacan society and clarifies significant aspects of its ritual life, including shamanism and an annual tree-raising ceremony that commemorated the Mesoamerican creation story.

Vampire Matriarch: On a quest to hunt down her mother, Lexi underestimates just how powerful the vampirism in her system has become. Intent on murder, she is instead drawn in by false promises and sweet lies. Katrina rules her nest through intimidation and fear, but she possesses a talent that no other undead creature has ever had before. This makes her far harder to kill than Lexi had anticipated. It will take cunning and ingenuity to end the master vampire's life. Lexi isn't the only one who is suffering. Reece is going through his own form of torment. The perfect life he'd experienced in a succubus induced dream is just a figment of his imagination. Nothing is as he'd expected since leaving the Shifter Squad and joining his pack. At the next full moon, Lexi becomes something that has never existed before. Part wolf, part vampire and part something else, she sets out to confront the mate who abandoned her. Reece Garrett is responsible for her becoming an abomination. She decides that it is high time he answered for what he did to her. Web Master: Lexi has faced many difficult challenges since becoming a member of the Shifter Squad. All were apparently designed to teach her the skills she needs to undertake the duty that Fate has given her. As absurd as it may seem, she is destined to save the world. Thankfully, she won't have to tackle this daunting task alone. The rival organization known as EERI are somehow involved in the coming threat. The Squad's goal is to hunt down the rival organization's leader and end them before they can destroy mankind. Before they can embark on their search, they are sidetracked by a new mission. As they begin to close in on their enemy, a new threat arises that heralds the beginning of the end. Their target knows their weaknesses and they will do anything they can to destroy the team's morale. Lexi was told that she has all the tools she needs to fight her nemesis, but not even her new speed and strength will be enough to save the life of someone she loves. Hell Spawn: With the apocalypse fast approaching, Lexi now knows who her nemesis is, but he isn't going to be easy to defeat. She and the Shifter Squad must find a way to halt the stone golems and their minions as well as the hordes of zombies and hell spawn that will soon overwhelm the country. They won't be alone during the battles ahead. They have gained friends and allies during their missions who will come to their aid when called. Chosen by Fate to save humankind from annihilation, Lexi must call on every skill that she has acquired during her trials. Even with her army behind her, she despairs that it might not be enough to win a war against the increasing flood of demons that are being unleashed from hell.

The "Sign of Christ's Return" will show you what to look for to be ready for the return of Christ! We are less than 10 years away from His Return! The Sign of Christ's Return is loaded with invaluable prophetic information that you will be amazed by and will enjoy reading. It also has a very strong message of salvation. This is a great book to place in the hands of one who is lost! The 1st great event in Man's history is, of course, his creation by Almighty God. Satan deceived man, and they were banished from the home God made for them. The 2nd great event in Man's history was the flood of Noah's day. God offered people deliverance, if they would believe the preaching of Noah and enter the Ark. Satan again deceived the people of Noah's day, and all perished except for Noah and his family. The 3rd great event in Man's history is the Salvation of mankind. God has offered to the world the gift of eternal salvation when Christ died on the cross and rose from the dead three days later. Yet again, Satan has worked feverishly for the past 2000 years to discount the record of Christ and to keep people from accepting the gift of Salvation! The 4th great event in the history of Mankind is about to take place: The Return of Jesus to Earth by 2018!

The 1937 - 1938 Nanjing Atrocities

Springer Nature This book presents a comprehensive overview of the Nanjing Massacre, together with an in-depth analysis of various aspects of the event and related issues. Drawing on original source materials collected from various national archives, national libraries, church historical society archives, and university libraries in China, Japan, Germany, United Kingdom and the United States, it represents the first English-language academic attempt to analyze the Nanjing Massacre in such detail and scope. The book examines massacres and other killings, in addition to other war crimes, such as rape, looting, and burning. These atrocities are then explored further via a historical analysis of Chinese survivors' testimony, Japanese soldiers' diaries, Westerners' eyewitness accounts, the news coverage from American and British correspondents, and American, British and German diplomatic dispatches. Further, the book explores issues such as the role and function of the International Committee for Nanking Safety Zone, burial records of massacre victims, post-war military tribunals, controversies over the Nanjing Massacre, and the 100-Man Killing Contest. This book is intended for all researchers, scholars, graduate and undergraduate students, and members of the general public who are interested in Second World War issues, Sino-Japanese conflicts, Sino-Japan relations, war crimes, atrocity and holocaust studies, military tribunals for war crimes, Japanese atrocities in China, and the Nanjing Massacre.

Genocide

Truth, Memory, and Representation

Duke University Press What happens to people and the societies in which they live after genocide? How are the devastating events remembered on the individual and collective levels, and how do these memories intersect and diverge as the rulers of postgenocidal states attempt to produce a monolithic “truth” about the past? In this important volume, leading anthropologists consider such questions about the relationship of genocide, truth, memory, and representation in the Balkans, East Timor, Germany, Guatemala, Indonesia, Nigeria, Rwanda, Sudan, and other locales. Specialists on the societies about which they write, these anthropologists draw on ethnographic research to provide on-the-ground analyses of communities in the wake of mass brutality. They investigate how mass violence is described or remembered, and how those representations are altered by the attempts of others, from NGOs to governments, to assert “the truth” about outbreaks of violence. One contributor questions the neutrality of an international group monitoring violence in Sudan and the assumption that such groups are, at worst, benign. Another examines the consequences of how events, victims, and perpetrators are portrayed by the Rwandan government during the annual commemoration of that country’s genocide in 1994. Still another explores the silence around the deaths of between eighty and one hundred thousand people on Bali during Indonesia’s state-sponsored anticommunist violence of 1965–1966, a genocidal period that until recently was rarely referenced in tourist guidebooks, anthropological studies on Bali, or even among the Balinese themselves. Other contributors consider issues of political identity and legitimacy, coping, the media, and “ethnic cleansing.” *Genocide: Truth, Memory, and Representation* reveals the major contribution that cultural anthropologists can make to the study of genocide. Contributors: Pamela Ballinger, Jennie E. Burnet, Conerly Casey, Elizabeth Drexler, Leslie Dwyer, Alexander Laban Hinton, Sharon E. Hutchinson, Uli Linke, Kevin Lewis O’Neill, Antonius C. G. M.
