# Guerra não Declarada

Edições Vercial **"Guerra Não Declarada" reúne narrativas que concentram a ação em São Paulo, metrópole onde campeiam a extrema violência e o caos. As narrativas da primeira parte têm como protagonista o investigador Medeiros, lotado numa delegacia de polícia do Campo Limpo, na zona Sul da grande cidade. Personagem de alguns romances do autor - "A Boneca Platinada", "O Comando Negro", "As Joias da Coroa" e "A Dama de Ouro" -, é um homem incorruptível e dedicado a seu ofício. A exemplo dos hardboiled heroes da ficção policial americana, Medeiros é um solitário, cumprindo seu ofício com muita determinação e coragem e sem esperar reconhecimento algum dos superiores. Como pano de fundo às ações do investigador, compõem os bairros sórdidos da periferia, as ruas sujas, os botecos, inferninhos, povoados de marginais, prostitutas, drogados e policiais corruptos. As narrativas da segunda parte do livro contemplam a população anônima, os deserdados da sorte, os mendigos, os migrantes, os sem-teto e os bandidos de aluguel para quem a vida do próximo não vale nada. Nesse cenário inóspito, os crimes e a brutalidade surgem como algo comum ou banal. Não à toa que os cidadãos, aterrorizados pela violência gratuita, pelos assassinatos a sangue-frio, sintam-se tão desamparados, como se estivessem num campo de batalha, onde a morte espreita a cada passo.**

# Inventário da Sombra

Edições Vercial **Romance perturbador, "Inventário da Sombra" é um espelho fiel de um tempo sombrio, no qual o homem é condenado a expiar culpas suas e de outrem, sem remissão possível. Álvaro Cardoso Gomes, ao tecer esta polifonia do absurdo, consegue fundir o passado mítico aos mitos degradados da contemporaneidade, fazendo que Homero e Beckett dêem-se as mãos, para construir uma tragédia imitativa baixa. E para colaborar e dar vazão a esse enredo do absurdo, a linguagem impregna-se de efeitos retóricos que tornam a prosa mais maleável, pronta a expressar cintilâncias, fulgurações. Mesclando estilos, desde o prosaísmo mais banal, que compreende, entre outras modalidades, o tom oral, a gíria, os termos baixos da escatologia, até a linguagem mais castiça e o inefável da poesia,**

o discurso do romance é, assim, originalíssimo por sua abrangência. É isso que se espera de um grande romance: a dissonância de um discurso que não quer apenas criar um simulacro do mundo, mas, pelo contrário, oferecer fragmentos dispersos de mundos, como a mimetizar o paroxismo da era contemporânea. (Do Prefácio.)

## Thinking, Fast and Slow

Penguin UK In this work the author, a recipient of the Nobel Prize in Economic Sciences for his seminal work in psychology that challenged the rational model of judgment and decision making, has brought together his many years of research and thinking in one book. He explains the two systems that drive the way we think. System 1 is fast, intuitive, and emotional; System 2 is slower, more deliberative, and more logical. He exposes the extraordinary capabilities, and also the faults and biases, of fast thinking, and reveals the pervasive influence of intuitive impressions on our thoughts and behavior. He reveals where we can and cannot trust our intuitions and how we can tap into the benefits of slow thinking. He offers practical and enlightening insights into how choices are made in both our business and our personal lives, and how we can use different techniques to guard against the mental glitches that often get us into trouble. This author's work has transformed cognitive psychology and launched the new fields of behavioral economics and happiness studies. In this book, he takes us on a tour of the mind and explains the two systems that drive the way we think and the way we make choices.

### Babel No More

### The Search for the World's Most Extraordinary Language Learners

Simon and Schuster **A “fascinating” (The Economist) dive into the world of linguistics that is “part travelogue, part science lesson, part intellectual investigation...an entertaining, informative survey of some of the most fascinating polyglots of our time” (The New York Times Book Review). In Babel No More, Michael Erard, “a monolingual with benefits,” sets out on a quest to meet language superlearners and make sense of their mental powers. On the way he uncovers the secrets of historical figures like the nineteenth-century Italian cardinal Joseph Mezzofanti, who was said**

to speak seventy-two languages, as well as those of living language-superlearners such as Alexander Arguelles, a modern-day polyglot who knows dozens of languages and shows Erard the tricks of the trade to give him a dark glimpse into the life of obsessive language acquisition. With his ambitious examination of what language is, where it lives in the brain, and the cultural implications of polyglots' pursuits, Erard explores the upper limits of our ability to learn and use languages and illuminates the intellectual potential in everyone. How do some people escape the curse of Babel—and what might the gods have demanded of them in return?

## A Contrastive Grammar of Brazilian Pomeranian

John Benjamins Publishing Company Pomeranian is the West Germanic language spoken by European emigrants who went from Farther Pomerania (present-day Poland) to Brazil in the period 1857-1887. This language is no longer spoken in cohesive societies in Europe, but the language has survived and is in remarkably good shape on this language island in the tropical state of Espirito Santo. This monograph offers the first synchronic grammar of this language. After a historical introduction, the book offers a systematic description of its phonology, morphology and syntax. The language is contrasted with its European sisters, more particularly High German, Dutch, and Frisian. It highlights various phenomena that will presumably contribute to the ongoing theoretical debate on the Germanic verbal system. It provides new data on cluster V2, do-support, and the two infinitives. As to the infinitival syntax, the language shows remarkable parallels to the system of Frisian. As to the rich Pomeranian system of subtractive morphology, the phonological account that is offered, will be important for the ongoing discussion of the abstractness of phonological representations. Finally, Pomeranian is a welcome addition to the set of languages on which our etymological understanding of West Germanic is based.

## Mort Cinder

Fantagraphics Books **Alberto Breccia** is recognized as one of the greatest international cartoonists in the history of comics and **Mort Cinder** is considered one of his finest achievements. Created in collaboration with the Argentine writer **Héctor Germán Oesterheld**, best known in the U.S. for his politically incendiary sci-fi masterpiece, the Eisner Award-winning **The Eternaut**, **Mort Cinder** is a horror story with political overtones. This episodic serial, written and drawn between 1962-1964, is drawn by Breccia in moody chiaroscuro. The artist's rubbery, expressionistic faces capture every glint in the eyes of the grave robbers, sailors, and slaves that populate these stories; while the slash of stripes of prisoners' uniforms, the trapeziums of Babylon, and more create distinct and evocative milieus.

## Moon Lander

### How We Developed the Apollo Lunar Module

Smithsonian Institution Chief engineer Thomas J. Kelly gives a firsthand account of designing, building, testing, and flying the Apollo lunar module. It was, he writes, “an aerospace engineer’s dream job of the century.” Kelly’s account begins with the imaginative process of sketching solutions to a host of technical challenges with an emphasis on safety, reliability, and maintainability. He catalogs numerous test failures, including propulsion-system leaks, ascent-engine instability, stress corrosion of the aluminum alloy parts, and battery problems, as well as their fixes under the ever-present constraints of budget and schedule. He also recaptures the exhilaration of hearing Apollo 11’s Neil Armstrong report that “The Eagle has landed,” and the pride of having inadvertently provided a vital “lifeboat” for the crew of the disabled Apollo 13.

## The Great Questions of Tomorrow

Simon and Schuster With the world at the threshold of profound changes, the question becomes: Where are the philosophers? Where are the great thinkers of today? Where is the next Jefferson, Curie, or Mandela? Which technologies and changes in the nature of life will they harness, embrace, or be inspired by? As the world's center of gravity has shifted over the centuries from Europe and then to the US, so too has the center of intellectual gravity.

With that center shifting to Asia and also to the emerging world, will those places produce the transformational thinkers of the twenty-first century? Embarking on an around-the-world search, David Rothkopf strives to answer these questions, uncovering what the next big ideas are and where they're emerging. Who are the people behind the ideas, and how they will be colored by their place and culture of origins?

## The Three Marias

University of Texas Press Through this translation of *As Três Marias* the literary achievements of Rachel de Queiroz may at last be judged and appreciated by the English-reading public. Since none of her four novels has previously been translated into English, *The Three Marias* will be, for many non-Brazilians, an introduction to this nationally known South American author whose books have been widely praised for their artistic merits. Her literary works are colored by her projected personality, by an intense feeling for her own people, by an omnipresent social consciousness, and by personal experiences in the arid backlands of her native state of Ceará. Basing this story on certain of her own recollections from the nineteen-twenties, Rachel de Queiroz tells of a girl growing up in the seaport town of Fortaleza, in northeastern Brazil. Professor Ellison, whose special field is Brazilian and Spanish-American literature, has captured in his translation the author's graceful style and simplicity of language, and has successfully retained the perspective of an idealistic and gradually maturing girl.

## Semantic Mechanisms of Humor

Springer Science & Business Media **GOAL** This is the funniest book I have ever written - and the ambiguity here is deliberate. Much of this book is about deliberate ambiguity, described as unambiguously as possible, so the previous sentence is probably the first, last, and only deliberately ambiguous sentence in the book. Deliberate ambiguity will be shown to underlie much, if not all, of verbal humor. Some of its forms are simple enough to be perceived as

deliberately ambiguous on the surface; in others, the ambiguity results from a deep semantic analysis. Deep semantic analysis is the core of this approach to humor. The book is the first ever application of modern linguistic theory to the study of humor and it puts forward a formal semantic theory of verbal humor. The goal of the theory is to formulate the necessary and sufficient conditions, in purely semantic terms, for a text to be funny. In other words, if a formal semantic analysis of a text yields a certain set of semantic properties which the text possesses, then the text is recognized as a joke. As any modern linguistic theory, this semantic theory of humor attempts to match a natural intuitive ability which the native speaker has, in this particular case, the ability to perceive a text as funny, i. e. , to distinguish a joke from a non-joke.

# The Space In-Between

# Essays on Latin American Culture

Duke University Press **Silviano Santiago has been a pioneer in the development of concepts crucial to the discourse of contemporary critical and cultural theory, especially postcolonial theory. The notions of “hybridity” and “the space in-between” have been so completely absorbed into current theory that few scholars even realize these terms began with Santiago. He was the first to introduce poststructuralist thought to Brazil—via his publication of the Glossario de Derrida and his role as a prominent teacher. The Space In-Between translates many of his seminal essays into English for the first time and, in the process, introduces the thought of one of Brazil’s foremost critics and theorists of the late twentieth century. Santiago’s work creates a theoretical field that transcends both the study of a specific national literature and the traditional perspectives of comparative literature. He examines the pedagogical and modernizing mission of Western voyagers from the conquistadors to the present. He deconstructs the ideas of “original” and “copy,” unpacking their implications for the notions of so-called dominant and dominated cultures. Santiago also confronts questions of cultural dependency and analyzes the problems involved in the imposition of an alien European history, the cultural displacements experienced by the Indians through their religious conversion, and the hierarchical suppression of native and Afro-Brazilian values. Elegantly written and translated, The Space In-Between will provide insights and perspectives that will interest cultural and literary theorists, postcolonial scholars, and other students of contemporary culture.**
