Legal Concepts for Insurance Agent Ethics: How Agents Get Sued and Lose Their Licenses Lulu.com Most people think they are fairly ethical-or at least as ethical as others. In this book, attorney and insurance professional Dwight M. Kealy walks the reader through Contract Law, Tort Law, Criminal Law, and the Department of Insurance Code as a way to define ethical boundaries for insurance agent conduct. Sometimes the author writes as the attorney representing a client against an insurance agent. Sometimes the author writes as the attorney defending the insurance agent. Throughout the book, the author balances these opposing views to expose the relevant legal issues, and to encourage the conduct insurance professionals should follow to stay out of court and keep their insurance licenses. Scaramouche, A Romance of the French Revolution the History Focus □□□ He was born with a gift of laughter and a sense that the world was mad. And that was all his patrimony. His very paternity was obscure, although the village of Gavrillac had long since dispelled the cloud of mystery that hung about it. Those simple Brittany folk were not so simple as to be deceived by a pretended relationship which did not even possess the virtue of originality. When a nobleman, for no apparent reason, announces himself the godfather of an infant fetched no man knew whence, and thereafter cares for the lad's rearing and education, the most unsophisticated of country folk perfectly understand the situation. And so the good people of Gavrillac permitted themselves no illusions on the score of the real relationship between Andre-Louis Moreau—as the lad had been named—and Quintin de Kercadiou, Lord of Gavrillac, who dwelt in the big grey house that dominated from its eminence the village clustering below. Andre-Louis had learnt his letters at**

the village school, lodged the while with old Rabouillet, the attorney, who in the capacity of fiscal intendant, looked after the affairs of M. de Kercadiou. Thereafter, at the age of fifteen, he had been packed off to Paris, to the Lycee of Louis Le Grand, to study the law which he was now returned to practise in conjunction with Rabouillet. All this at the charges of his godfather, M. de Kercadiou, who by placing him once more under the tutelage of Rabouillet would seem thereby quite clearly to be making provision for his future. Andre-Louis, on his side, had made the most of his opportunities. You behold him at the age of four-and-twenty stuffed with learning enough to produce an intellectual indigestion in an ordinary mind. Out of his zestful study of Man, from Thucydides to the Encyclopaedists, from Seneca to Rousseau, he had confirmed into an unassailable conviction his earliest conscious impressions of the general insanity of his own species. Nor can I discover that anything in his eventful life ever afterwards caused him to waver in that opinion.
