In recent years, the movies Good Will Hunting, A Beautiful Mind, and Stand and Deliver, the stage plays Breaking the Code and Proof, the novella Flatland and the hugely successful television crime series NUMB3RS all weave mathematics prominently into their storylines. Less obvious but pivotal references to the subject appear in the blockbuster TV show Lost, the cult movie The Princess Bride, and even Tolstoy's War and Peace. In this collection of new essays, contributors consider the role of math in everything from films, baseball, crossword puzzles, fantasy role-playing games, and television shows to science fiction tales, award-winning plays and classic works of literature. Revealing the broad range of intersections between mathematics and mainstream culture, this collection demonstrates that even "mass entertainment" can have a hidden depth.* **Thinking Inside the Box Adventures with Crosswords and the Puzzling People Who Can't Live Without Them** Hachette UK *'Beautifully researched account, full of humour and personal insight' David Crystal, author of Making Sense: The Glamorous Story of English Grammar 'A witty, wise, and wonderfully weird journey that will change the way you think . . . This book is a delight' Bianca Bosker, author of Cork Dork: A Wine-Fueled Adventure Among the Obsessive Sommeliers, Big Bottle Hunters, and Rogue Scientists Who Taught Me to Live for Taste 'Delightfully engrossing, charmingly and enthusiastically well-written history of the crossword puzzle' Benjamin Dreyer, author of Dreyer's English: An Utterly Correct Guide to Clarity and Style 'Full of treasures, surprises and fun . . . richly bringing to life the quirky, obsessive, fascinating characters in the crossword world' Mary Pilon, author of The Monopolists: Obsession, Fury, and the Scandal Behind the World's Favorite Board Game 'A gold mine of revelations. If there is a pantheon of cruciverbalist scholars, Adrienne Raphel has established herself squarely within it' Mary Norris, author of Between You & Me: Confessions of a Comma Queen Equal parts ingenious and fun, Thinking Inside the Box is a love letter to the infinite joys and playful possibilities of language, a treat for die-hard cruciverbalists and first-time crossword solvers alike. The crossword is a feature of the modern world, inspiring daily devotion and obsession from millions. It was invented in 1913, almost by accident, when an editor at the New York World was casting around for something to fill some empty column space for that year's Christmas edition. Almost overnight, crosswords became a phenomenal commercial success, and have been an essential ingredient of any newspaper worth its salt since then. Indeed, paradoxically, the popularity of crosswords has never been greater, even as the world of media and newspapers, the crossword's natural habitat, has undergone a dramatic digital transformation. But why, exactly, are the satisfactions of a crossword so sweet that over the decades they have become a fixture of breakfast tables, bedside tables and commutes, and even given rise to competitive crossword tournaments? Blending first-person reporting from the world of crosswords with a delightful telling of the crossword's rich literary history, Adrienne Raphel dives into the secrets of this classic pastime. At the annual American Crossword Puzzle Tournament, she rubs shoulders with elite solvers from all over the world, doing her level best to hold her own; aboard a crossword-themed cruise she picks the brains of the enthusiasts whose idea of a good time is a week on the high seas with nothing to do but crosswords; and, visiting the home and office of Will Shortz, New York Times crossword puzzle editor and US National Public Radio's official Puzzlemaster, she goes behind the scenes to see for herself how the world's gold standard of puzzles is made.* **Critical Essays on English and Bengali Detective Fiction** Rowman & Littlefield *The book brings together three strains of detective fiction: British, American, and Bengal. Conceived by the devious minds at Nerve.com, these 50 puzzles test the old S.Q. (that's sexual quotient). What's a five-letter word for well endowed? In what country is oral sex illegal? Who was the first woman to expose a nipple on TV? Of course, not all the clues in Naughty Crosswords relate to sex. These puzzles test a wide range of knowledge, from geography (63 Across: One of the U.S. Virgin islands) to pop culture (47 Down: Twins who became legal on June 13, 2004) to politics (52 Across: Place where Bill and Hillary started screwing, presumably). Ok, so maybe they're mostly about sex. But that's what makes it so much fun! The Wire-O format makes it handy to write in no matter where you are. With four levels of difficulty and themes ranging from S&M to virginity, Naughty Crosswords revels in the fact that, when it comes to sex, no trivia is too trivial.* **The Stephen Sondheim Encyclopedia** Rowman & Littlefield *The Stephen Sondheim Encyclopedia is the first reference volume devoted to the works of this prolific composer and lyricist. From reflections on his children's musical tastes (might ABBA be an Old Testament citation?) to veiled digs at Labour's foreign policy ('What could be subtler during search for weapon!' 7, 4), each of Sandy Balfour's perfectly proportioned essays is a joyful investigation of these devilishly difficult puzzles and the life they punctuate.* **Essays on Canadian Writing A Braided Heart Essays on Writing and Form** University of Michigan Press *An accessible and personable guide to writing creative nonfiction* **Crying in H Mart** Pan Macmillan *One of Barack Obama's Favorite Books of 2021 The New York Times bestseller from the Grammy-nominated indie rockstar Japanese Breakfast, an unflinching, deeply moving memoir about growing up mixed-race, Korean food, losing her Korean mother, and forging her own identity in the wake of her loss. 'As good as everyone says it is and, yes, it will have you in tears. An essential read for anybody who has lost a loved one, as well as those who haven't' - Marie-Claire In this exquisite story of family, food, grief, and endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humour and heart, she tells of growing up the only Asian-American kid at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over heaping plates of food. As she grew up, moving to the east coast for college, finding work in the restaurant industry, performing gigs with her fledgling band - and meeting the man who would become her husband - her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal pancreatic cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious, lyrical and honest, Michelle Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, Crying in H Mart is a book to cherish, share, and reread. 'Possibly the best book I've read all year . . . I will be buying copies for friends and family this Christmas.' - Rukmini Iyer in the Guardian 'Best Food Books of 2021' 'Wonderful . . . The writing about Korean food is gorgeous . . . but as a brilliant kimchi-related metaphor shows, Zauner's deepest concern is the ferment, and delicacy, of complicated lives.' - Victoria Segal, Sunday Times, 'My favourite read of the year' **A Novel Marketplace Mass Culture, the Book Trade, and Postwar American Fiction** University of Pennsylvania Press *As television transformed American culture in the 1950s, critics feared the influence of this newly pervasive mass medium on the nation's literature. While many studies have addressed the rhetorical response of artists and intellectuals to mid-twentieth-century mass culture, the relationship between the emergence of this culture and the production of novels has gone largely unexamined. In A Novel Marketplace, Evan Brier illuminates the complex ties between postwar mass culture and the making, marketing, and reception of American fiction. Between 1948, when television began its ascendancy, and 1959, when Random House became a publicly owned corporation, the way American novels were produced and distributed changed considerably. Analyzing a range of mid-century novels—including Paul Bowles's The Sheltering Sky, Ray Bradbury's Fahrenheit 451, Sloan Wilson's The Man in the Gray Flannel Suit, and Grace Metalious's Peyton Place—Brier reveals the specific strategies used to carve out cultural and economic space for the American novel just as it seemed most under threat. During this anxious historical moment, the book business underwent an improbable expansion, by capitalizing on an economic boom and a rising population of educated consumers and by forming institutional alliances with educators and cold warriors to promote reading as both a cultural and political good. A Novel Marketplace tells how the book trade and the novelists themselves successfully positioned their works as embattled holdouts against an oppressive mass culture, even as publishers formed partnerships with mass-culture institutions that foreshadowed the multimedia mergers to come in the 1960s. As a foil for and a partner to literary institutions, mass media corporations assisted in fostering the novel's development as both culture and commodity.* **Irregular Memories of the 'thirties An Archival History of the Baker Street Irregulars' First Decade, 1930-1940 : a Compendium of Old and New Essays, Newspaper and Magazine Accounts, Unpublished Memoirs and Correspondence, Copious Annotations, and an Unsolved Mystery Or Two** Fordham University Press *The second volume of the BSI history project series, this work contains a collection of essays, letters, articles and other material dealing with the early days of the Baker Street Irregulars, the world's first Sherlockian organization founded in 1934. Weekend Magazine Where from and Where To One of the Last Self-Told German Jewish Life Stories** Archway Publishing *What impact did the rise of Nazi dictatorship and mandatory anti-Semitism have on a Jewish child and young girl in Germany? How did her family live a Jewish life in Germany? How did she reach England and, during World War II, attend a London school evacuated to the provinces and a university department evacuated to a coastal town? In Where From and Where To, author Elizabeth Petuchowski narrates her story and answers these questions set against a background of contemporaneous events. She talks about her post-war work in London's Fleet Street for a publisher of trade journals, her marriage to a Berlin-born rabbinic student with whom she came to America, how she coped with culture shock and got used to living in America. Petuchowski recalls colorful characters; gatherings with students and with many others, well-known and not well-known; her own studies in Cincinnati, Ohio; and seeing England and Germany again years later. Where From and Where To shares a story of a most varied and fortunate life during times of momentous world happenings.* **The Gastronomical Me** classic of food writing that redefined the genre, *The Gastronomical Me* is a memoir of travel, love and loss, but above all hunger. In 1929 M.F.K. Fisher left America for France, where she tasted real French cooking for the first time. It inspired a prolific career as a food and travel writer. In *The Gastronomical Me* Fisher traces the development of her appetite, from her childhood in America to her arrival in Europe, where she embarked on a whole new way of eating, drinking, and living. She recounts unforgettable meals shared with an assortment of eccentric characters, set against a backdrop of mounting pre-war tensions. Here are meals as seductions, educations, diplomacies, and communions, in settings as diverse as a bedsit above a patisserie, a Swiss farm, and cruise liners across oceans. In prose convivial and confiding, Fisher illustrates the art of ordering well, the pleasures of dining alone, and how to eat so you always find nourishment, in both head and heart. **New Approaches to Semiotics and the Human Sciences Essays in Honor of Roberta Kevelson** Peter Lang Pub Incorporated *Little links the 14 essays beyond an iconoclastic attitude toward the mainstream of a branch of thinking most people have never heard of, and a leaning towards legal matters. Among the topics are constitutive theory, what judges and juries do, class conflict in white America, justice as a iconophobic icon, word play and the challenge of sense, conceptual iconicity and grammatical rules, and the cognitive self and the virtual self. Appended are a conversation with Kevelson and a list of her professional achievements. Edward "Red" Shaw had seen a lot of nasty business in his three decades with Des Moines PD, but the grisly slashing of an old man who was just trying to find his cat one night was among the nastiest. He knew right away that something was different, that this case would be like nothing else he'd worked before. It didn't help that his longtime partner was laid up with a bum leg, that Sally wasn't around, that he'd gotten drunk a few hours before being called to the crime scene, and that he showed up with a bad case of the queasies. Hung over was no way to start a hunt. Shaw knew and detested the assistant county attorney who caught the case, but he didn't know about Ana Talarico or Randy Frye, so he couldn't have imagined where the gruesome evidence might lead him. And then there was Tina... **The Lion and the Unicorn Socialism and the English Genius** [Penguin UK](#) George Orwell's moving reflections on the English character and his passionate belief in the need for political change. Pick up a pencil and get ready to solve the puzzle--and a puzzling murder--in this lively debut of a unique amateur detective, Miss Cora Felton, the reigning queen of crosswords. Cora's an eccentric old lady with a nationally syndicated puzzle column, an irresistible urge to poke into unsettling events, and a niece who's determined to keep her out of trouble. In a slyly amusing and wickedly suspenseful mystery, this delightful heroine takes her first crack at playing sleuth. Only this isn't fun and games....It's murder. Violent crime is rare in tiny Bakerhaven. When the body of an unknown teenage girl turns up in the local cemetery, Police Chief Dale Harper finds himself investigating his first homicide. Nothing about this case is straightforward. Even a thorough search of the crime scene fails to reveal who she was, the murder weapon, or why the killer left her body in a graveyard minus her shoes. A cryptic message on a scrap of paper she carried seems to be a crossword puzzle clue. Could it have been left by the killer? If so, what does it mean? Fortunately for Harper, Bakerhaven is the new home of Miss Cora Felton, the famed "Puzzle Lady" herself, whose popular crossword puzzle column graces newspapers nationwide. Yet bringing Cora Felton into this case could be his most costly mistake. For though she may look like someone's sweet old grandmother, behind those twinkling eyes and that slightly mysterious smile lies a woman with a whopping secret...and some hidden vices. What's worse, one whiff of mystery turns Miss Felton into a modern-day Miss Marple. Now Cora is snooping through crime scenes, questioning witnesses, and gaining a lot of unwanted attention. It's just the sort of meddling, mischief-making behavior that drives Chief Harper to distraction and inspires many cross words from her long-suffering niece Sherry. But when another body turns up in a murder that hits much closer to home, Cora must find a killer--before she winds up in a black box three feet across...and six down. A delicious brew of colorful characters, irresistible intrigue, and dazzling plot twists, Parnell Hall's A Clue for the Puzzle Lady is just what a mystery should be--a generous helping of fun and a puzzle that never fails to surprise and entertain. **Crossworld One Man's Journey Into America's Crossword Obsession** [Marc Breman](#) Sixty-four million people do it at least once a week. Nabokov wrote about it. Bill Clinton even did it in the White House. The crossword puzzle has arguably been our national obsession since its birth almost a century ago. Now, in "Crossworld," writer, translator, and lifelong puzzler Marc Romano goes where no Number 2 pencil has gone before, as he delves into the minds of the world's cleverest crossword creators and puzzlers, and sets out on his own quest to join their ranks. While covering the American Crossword Puzzle Tournament for the "Boston Globe," Romano was amazed by the skill of the competitors and astonished by the cast of characters he came across--like Will Shortz, beloved editor of the "New York Times" puzzle and the only academically accredited "enigmatologist" (puzzle scholar); Stanley Newman, "Newsday"'s puzzle editor and the fastest solver in the world; and Brendan Emmett Quigley, the wickedly gifted puzzle constructor and the Virgil to Marc's Dante in his travels through the crossword inferno. Chronicling his own journey into the world of puzzling--even providing tips on how to improve crosswording skills--Romano tells the story of crosswords and word puzzles themselves, and of the colorful people who make them, solve them, and occasionally become consumed by them. But saying this is a book about puzzles is to tell only half the story. It is also an explanation into what crosswords tell us about ourselves--about the world we live in, the cultures that nurture us, and the different ways we think and learn. If you're a puzzler, "Crossworld" will enthrall you. If you have no idea why your spouse send so much time filling letters into little white squares, "Crossworld" will tell you - and with luck, save your marriage. **CROSSWORD -** by Marc Romano **ACROSS 1.** I am hopelessly addicted to the "New York Times" crossword puzzle. **2.** Like many addicts, I was reluctant to admit I have a problem. **3.** The hints I was heading for trouble came, at first, only occasionally. **4.** The moments of panic when I realized that I might not get my fix on a given day. **5.** The toll on relationships. **6.** The strained friendships. **7.** The lost hours I could have used to do something more productive. **8.** It gets worse, too. **DOWN 1.** You're not just playing a game. **2.** You're constantly broadening your intellectual horizons. **3.** You spend a lot of time looking at and learning about the world around you. **4.** You have to if you want to develop the accumulated store of factual information you'll need to get through a crossword puzzle. **5.** Puzzle people are nice because they have to be. **6.** The more you know about the world, the more you tend to give all things in it the benefit of the doubt before deciding if you like them or not. **7.** I'm not saying that all crossword lovers are honest folk dripping with goodness. **8.** I would say, though, that if I had to toss my keys and wallet to someone before jumping off a pier to save a drowning girl, I'd look for the fellow in the crowd with the daily crossword in his hand. One hundred pages. Millions of possible combinations... but only one is correct. Can you solve Torquemada's murder mystery? In 1934, the Observer's cryptic crossword compiler, Edward Powys Mathers (aka Torquemada), released a novel that was simultaneously a murder mystery and the most fiendishly difficult literary puzzle ever written. The pages have been printed in an entirely haphazard order, but it is possible - through logic and intelligent reading - to sort the pages into the only correct order, revealing six murder victims and their respective murderers. Only three puzzlers have ever solved the mystery of Cain's Jawbone: do you have what it takes to join their ranks? Please note: this puzzle is extremely difficult and not for the faint-hearted. **Out of My Mind** [Simon and Schuster](#) Considered by many to be mentally retarded, a brilliant, impatient fifth-grader with cerebral palsy discovers a technological device that will allow her to speak for the first time. **Text Types and the History of English** [Walter de Gruyter](#) The history of modern European languages has been largely determined by the range of functions they have acquired, particularly after 1500. This development necessitated a notable expansion of their syntax and lexis, but is most characteristically reflected in the conventionalization of text types. Starting from the German concept of Textsorte as developed from the 1960s onwards, the present account is a first comprehensive attempt at charting the field for the history and present-day situation of the English language. In text types, a designation is linked with a more or less stable form which guides the writer's production as well as the reader's expectation, permitting one to recognize straightforward uses as well as deliberate misuses. Some two thousand of such designations are here listed with minimal definitions and dates for first occurrences. The discussion then concentrates on selected types, which are seen as especially illustrative for English: book dedications, cooking recipes, advertisements, church hymns, lexical entries, and jokes. Their functions and development over time are treated in correlation with their specific linguistic characteristics and adaptations to different period styles and social changes in the readership. The functional range of text types in traditions outside England and the consequences of the export of English categories are exemplified by the history of Scots/Scottish English and of English in India. The arguments are accompanied by a lavish supply of textual excerpts and more than fifty pages of facsimiles, which are especially relevant for insights derived from typographical features. A full bibliography and indices are provided at the end. The book will prove useful for decisions on the constitution of representative text corpora and stimulate research into a greater number of individual text types as well as contrastive analyses at least among European languages.
