COMPUTATIONAL SOCIAL NETWORKS

TOOLS, PERSPECTIVES AND APPLICATIONS

Springer Science & Business Media This book is the first of three volumes that illustrate the concept of social networks from a computational point of view. The book contains contributions from a international selection of world-class experts, with a specific focus on practical tools, applications, and open avenues for further research (the other two volumes review issues of Security and Privacy, and Mining and Visualization in CSNs). Topics and features: presents the latest advances in CSNs, and illustrates how organizations can gain a competitive advantage by applying these ideas in real-world scenarios; discusses the design and use of a wide range of computational tools and software for social network analysis; describes simulations of social networks, the representation and analysis of social networks, and the use of semantic networks in knowledge discovery and visualization; provides experience reports, survey articles, and intelligence techniques and theories relating to specific problems in network technology.

CONSTITUTION, JEFFERSON'S MANUAL, AND RULES OF THE HOUSE OF REPRESENTATIVES OF THE UNITED STATES

MOBILE APPLIKATIONEN 1

INTERDISZIPLINÄRE ENTWICKLUNG AM BEISPIEL DES MOBILE

LEARNING

Springer-Verlag Die Mobilisierung unserer Gesellschaft trifft auf zahlreiche Entwicklungsprojekte mobiler Applikationen, die zunächst enthusiastisch begonnen wurden, letztlich aber gescheitert sind. Am Beispiel des Mobile Learning stellt Philipp Maske in diesem zweibändigen Werk heraus, dass Entwicklungsprozesse mobiler Applikationen von einem bisher unerforschten interdisziplinären Wirknetzwerk der Dimensionen Ökonomie, Technologie und Didaktik beeinflusst werden. Basierend auf diesem Wirknetzwerk wird ein Vorgehensmodell als Instrument der gestaltungsorientierten Wirtschaft konstruiert, dessen Nützlichkeit anhand einer Fallstudienimplementierung bewertet wird.

ADVANCES IN DATA AND INFORMATION SCIENCES

PROCEEDINGS OF ICDIS-2017, VOLUME 1

Springer The book gathers a collection of high-quality peer-reviewed research papers presented at the International Conference on Data and Information Systems (ICDIS 2017), held at Indira Gandhi National Tribal University, India from November 3 to 4, 2017. The book covers all aspects of computational sciences and information security. In chapters written by leading researchers, developers and practitioner from academia and industry, it highlights the latest developments and technical solutions, helping readers from the computer industry capitalize on key advances in next-generation computer and communication technology.

THE ROUGH GUIDE TO ANDROID PHONES

Rough Guides UK The Rough Guide to Android Phones™ is the ultimate guide for Android phone users. Showing you all the tips and tricks that ensure your phone performs to its full potential. There's even a complete lowdown on the hottest 100 Android apps. The slick Rough Guide reveals the secrets of this up-and-coming mobile operating system; covering models produced by Motorola, HTC, Samsung and many more. From the basic questions, like 'What is Android', to making the most of its functionality, this is the complete companion to your Android phone. Whether you already have an Android phone or are thinking of buying one, this is the gadget guide you need to make the most of your Android phone.

AIRMAN'S INFORMATION MANUAL

INTELLIGENT SOFTWARE METHODOLOGIES, TOOLS AND TECHNIQUES

14TH INTERNATIONAL CONFERENCE, SOMET 2015, NAPLES, ITALY, SEPTEMBER 15-17, 2015. PROCEEDINGS

Springer This book constitutes the best papers selection from the proceedings of the 14th International Conference on Intelligent Software Methodologies, Tools and Techniques, SoMeT 2015, held in Naples, Italy, in September 2015. The 47 full papers presented together with one short paper were carefully reviewed and selected from 118 submissions. The papers are organized in topical sections on

embedded and mobile software systems, theory and application; real-time systems; requirement engineering, high-assurance and testing system; social networks and big data; cloud computing and semantic web; artificial intelligence techniques and intelligent system design; software development and integration; security and software methodologies for reliable software design; new software techniques in image processing and computer graphics; software applications systems for medical health care.

WEB INFORMATION SYSTEMS AND TECHNOLOGIES

8TH INTERNATIONAL CONFERENCE, WEBIST 2012, PORTO, PORTUGAL, APRIL 18-21, 2012, REVISED SELECTED PAPERS

Springer This book contains the thoroughly refereed and revised best papers from the 8th International Conference on Web Information Systems and Technologies, WEBIST 2012, held in Porto, Portugal, in April 2012, and organized by the Institute for Systems and Technologies of Information, Control and Communication (INSTICC), in collaboration with ACM SIGMIS. The 23 papers presented in this book were carefully reviewed and selected from 184 submissions. The papers were selected from those with the best reviews also taking into account the quality of their presentation at the conference. The papers are grouped into parts on Internet Technology; Web Interfaces and Applications; Society, e-Business, and e-Government; Web Intelligence; and Mobile Information Systems.

TEXTILE-LED DESIGN FOR THE ACTIVE AGEING POPULATION

Elsevier Despite the world's aging population, suitable clothing for the older community is a largely neglected area. This book considers the needs of the growing number of active older people and investigates how recent developments in textiles, fibres, finishes, design and integrated technology can be deployed to serve this group and improve quality of life. Part I provides an understanding of the active aging population by considering the group's experiences of and attitudes towards clothing and reviewing the barriers to their adoption of new wearable technologies. Part II focuses on the needs of the older population, including effective communication with designers and the age-related anatomical and physiological changes that designs should consider. Part III reviews design requirements and processes, and finally Part IV reviews the manufacture of suitable apparel, with chapters on suitable textile fibres, balancing technology and aesthetics and wearable electronics. Summarises the wealth of recent research on attitudes to clothing amongst the active ageing population Looks into how their aspirations can be investigated and appropriate apparel designed to meet their needs Examines

design and manufacturing issues, including ways of accommodating physiological changes with age and the use of wearable electronics

THE CHRISTIAN'S MANUAL

BEING A BOOK OF DIRECTIONS AND DEVOTIONS TO BE USED DAILY, AND ESPECIALLY IN PREPARING FOR THE HOLY COMMUNION

PARENTOLOGY

EVERYTHING YOU WANTED TO KNOW ABOUT THE SCIENCE OF RAISING CHILDREN BUT WERE TOO EXHAUSTED TO ASK

Simon and Schuster An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of Battle Hymn of the Tiger Mother). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

DROID X

THE MISSING MANUAL

"O'Reilly Media, Inc." An introduction to the Droid X explains how to get the most out of the device, with a hands-on approach to learning the Droid X functions and applications, a review of its features, customization tips and tricks, and instructions

to help users master theDroid X.

BRACKET 2

GOES SOFT

Actar D, Inc. From soft politics, soft power and soft spaces to fluid territories, software and soft programming, Bracket 2 unpacks the use and role of responsive, indeterminate, flexible, and immaterial systems in design. In an era of declared crises--economic, ecological and climatic, among others--the notion of soft systems has gained increasing traction as a counterpoint to permanent, static and hard systems. Acknowledging fluid and indeterminate situations with complex feedback loops that allow for reaction and adaption, the possibility of soft systems has reentered the domain of design. The examples displayed in "Bracket goes soft" are offered as nothing more than a short catalog of soft systems--some explicitly architectural, others geological, others entirely metaphorical. In all cases, these examples explore how the notion of going soft can be iterated across professions, disciplines, and fields of research. The book is divided into the themes "sensing/feedback"; "interfacing/ enveloping"; "subverting/hijacking"; "formatting/ distributing"; "contingency/ resilience"; "diffusing/generating". Bracket is a book series structured around an open call that highlights emerging critical issues at the juncture of architecture, environment, and digital culture. The editorial board and jury for Bracket 2 includes Benjamin Bratton, Julia Czerniak, Jeffrey Inaba, Geoff Manaugh, Philippe Rahm, Charles Renfro, as well as co-editors Neeraj Bhatia and Lola Sheppard. Bracket is a collaboration between InfraNet Lab and Archinect.

SCIENTIFIC AMERICAN

ANDROID HACKER'S HANDBOOK

John Wiley & Sons The first comprehensive guide to discovering and preventing attacks on the Android OS As the Android operating system continues to increase its share of the smartphone market, smartphone hacking remains a growing threat. Written by experts who rank among the world's foremost Android security researchers, this book presents vulnerability discovery, analysis, and exploitation tools for the good guys. Following a detailed explanation of how the Android OS works and its overall security architecture, the authors examine how vulnerabilities can be discovered and exploits developed for various system components, preparing you to defend against them. If you are a mobile device administrator, security researcher, Android app developer, or consultant responsible for evaluating Android security, you will find this guide is essential to your toolbox. A crack team of leading Android security researchers explain Android security risks, security design and architecture, rooting, fuzz testing, and vulnerability analysis Covers Android application building blocks and security as well as debugging and auditing Android apps Prepares mobile device administrators, security researchers, Android app developers, and security consultants to defend Android systems against attack Android Hacker's Handbook is the first comprehensive resource for IT professionals charged with smartphone security.

HEC RIVER ANALYSIS SYSTEM (HEC-RAS)

The Hydrologic Engineering Center (HE) is developing next generation software for one-dimensional river hydraulics. The HEC-RAS River Analysis System is intended to be the successor to the current steady-flow HEC-2 Water Surface Profiles Program as well as provide unsteady flow, sediment transport, and hydraulic design capabilities in the future. A common data representation of a river network is used by all modeling methods, thus allowing the user to more easily migrate from steady-flow model with several significant advances over HEC-2. An overview of the Version 1 program package and some of the improved hydraulic features are presented.

THE ILLUSTRATED GUIDE TO ASSISTIVE TECHNOLOGY & DEVICES

TOOLS AND GADGETS FOR LIVING INDEPENDENTLY

Demos Medical Publishing A Doody's Core Title 2012 This new illustrated guide to assistive technologies and devices chronicles the use of AT/AD - technology used by individuals with disabilities to perform functions that might otherwise be difficult or impossible. This book empowers people to use assistive technologies to overcome some of their physical or mental limitations and have a more equal playing field. It includes real-life examples about how people with disabilities are using assistive technology (AT) to assist them in daily tasks, and discusses emotional issues related to AT/AD.
