Never Let Me Go

A Dictionary of Post-classical Yemeni Arabic: alif-shīu

BRILL 747 is the thrilling story behind "the Queen of the Skies"—the Boeing 747—as told by Joe Sutter, one of the most celebrated engineers of the twentieth century, who spearheaded its design and construction. Sutter's vivid narrative takes us back to a time when American technology was cutting-edge and jet travel was still glamorous and new. With wit and warmth, he gives an insider's sense of the larger than life-size personalities—and the tensions—in the aeronautical world.

Strengthening Forensic Science in the United States

A Path Forward

National Academies Press Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in

the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

English Episcopal Acta 30: Carlisle 1133-1292

Oxford University Press The area comprising what became the counties of Cumberland and Westmorland was long disputed, both politically and ecclesiastically, between the English and Scottish kingdoms. The bishopric of Carlisle was the last see in England to be created before the Reformation changes of the 1540s. This latest volume in the English Episcopal Acta series brings together for the first time an edition of all the surviving charters issued by bishops of Carlisle from 1133 until the death of Bishop Ralph de Ireton in 1292. The extant charters provide great insights into the episcopal administration of this border bishopric for the first 150 years of the see's existence. The introduction provides an account of the diocese, the bishops and their households, discussion of the diplomatic aspects and style of

the surviving charters and the episcopal seals. Offering fresh insights into this formative period of English history, this volume will be of interest to scholars and students of ecclesiastical, medieval and local history.

The Landlady (A Roald Dahl Short Story)

Penguin UK The Landlady is a brilliant gem of a short story from Roald Dahl, the master of the sting in the tail. In The Landlady, Roald Dahl, one of the world's favourite authors, tells a sinister story about the darker side of human nature. Here, a young man in need of room meets a most accommodating landlady . . . The Landlady is taken from the short story collection Kiss Kiss, which includes ten other devious and shocking stories, featuring the wife who pawns the mink coat from her lover with unexpected results; the priceless piece of furniture that is the subject of a deceitful bargain; a wronged woman taking revenge on her dead husband, and others. 'Unnerving bedtime stories, subtle, proficient, hair-raising and done to a turn.' (San Francisco Chronicle) This story is also available as a Penguin digital audio download read by Tamsin Greig. Roald Dahl, the brilliant and worldwide acclaimed author of Charlie and the Chocolate Factory, James and the Giant Peach, Matilda, and many more classics for children, also wrote scores of short stories for adults. These delightfully disturbing tales have often been filmed and were most recently the inspiration for the West End play, Roald Dahl's Twisted Tales by Jeremy Dyson. Roald Dahl's stories continue to make readers shiver today.

Amusing Ourselves to Death

Public Discourse in the Age of Show Business

Penguin What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil Postman's essential guide to the modern media is more relevant than ever. "It's unlikely that Trump has ever read *Amusing Ourselves to Death*, but his ascent would not have surprised Postman." -CNN
Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. *Amusing Ourselves to Death* is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one." -Jonathan Yardley, *The Washington Post Book World*
