LEARNING IN INFORMATION-RICH ENVIRONMENTS

I-LEARN AND THE CONSTRUCTION OF KNOWLEDGE FROM INFORMATION

Springer Nature **The amount and range of information available to today's students—and indeed to all learners—is unprecedented. If the characteristics of “the information age” demand new conceptions of commerce, national security, and publishing—among other things—it is logical to assume that they carry implications for education as well. Little has been written, however, about how the specific affordances of these technologies—and the kinds of information they allow students to access and create—relate to the central purpose of education: learning. What does “learning” mean in an information-rich environment? What are its characteristics? What kinds of tasks should it involve? What concepts, strategies, attitudes, and skills do educators and students need to master if they are to learn effectively and efficiently in such an environment? How can researchers, theorists, and practitioners foster the well-founded and widespread development of such key elements of the learning process? This second edition continues these discussions and suggests some tentative answers. Drawing primarily from research and theory in three distinct but related fields—learning theory, instructional systems design, and information studies—it presents a way to think about learning that responds directly to the actualities of a world brimming with information. The second edition also includes insights from digital and critical literacies and provides a combination of an updated research-and-theory base and a collection of instructional scenarios for helping teachers and librarians implement each step of the I-LEARN model. The book could be used in courses in teacher preparation, academic-librarian preparation, and school-librarian preparation.**

A JOURNEY OF FAITH: LESSONS LEARNED IN THE FIRE

WestBow Press **Life is a journey that includes laughter and also tears. It is sometimes a voyage of questions and doubts, but it can be a journey of faith. In this personal narrative and devotional, author Heather McCormick tells her story of facing infertility, caregiving, grief, and other challenges. A Journey of Faith openly shares her emotions, questions, doubts, and struggles, but it also records the faithfulness of God along this unexpected journey and the wisdom He taught her through the fires. Of the lessons that she shares, some teach about Gods faithfulness, His goodness, His comfort, His healing, His presence, His perfect timing, His sovereignty, and His answers to prayers. Others focus on faith, forgiveness, grace, love, humility, grief, laughter, peace, and spiritual warfare. In A Journey of Faith, McCormick communicates that God is at work in the problems you face. He is with you always and uses the problems to teach you. She shows the importance of continuing on the faith journey and learning to walk by faith with God.**

SPEED BUMPS AND ROUNDABOUTS: LESSONS I'VE LEARNED ON THE JOURNEY

[Ambassador International](#) Why didn't life work out as I planned? My plan was great! I would grow up with a loving family. I would have many friends to make pinky promises with. I would get top grades through school and be popular to boot. I would study for a degree I was passionate about, and I would meet . . . "The One" (sigh) . . . we would get married and have children who looked and behaved like baby angels. Oh, and I'd live happily ever after, of course. Was that too much to ask? I didn't plan for my parents to divorce. I didn't plan to change schools because of bullying. I didn't plan for university to fill me with doubts about whether I was good enough. I didn't plan to be single at 28. I didn't plan to run away to the other side of the world. But look where I've ended up. Life is never the smooth and straightforward journey we expect. Along the way, things slow us down and turn us around. Speed Bumps and Roundabouts is a story of those things: Hope. Vulnerability. Apathy. Gratitude. Beauty. Boundaries. Waiting . . . The journey is worth it, the scenery can be captivating, but we'll never know unless we keep going . . . over the speed bumps and around the roundabouts.
