A Wolf at the Door Scholastic Press "Who'sthere?" says little bear. and he jumps up to open the door. Is it one of his friends, or is a big bad wolf really trying to chase them all? **The Wolf at the Door The Menace of Economic Insecurity and How to Fight It** The acclaimed authors of *Death by a Thousand Cuts* argue that Americans care less about inequality than about their own insecurity. Michael Graetz and Ian Shapiro propose realistic policies and strategies to make lives and communities more secure. This is an age of crisis. That much we can agree on. But a crisis of what? And how do we get out of it? Many on the right call for tax cuts and deregulation. Others on the left rage against the top 1 percent and demand wholesale economic change. Voices on both sides line up against globalization: restrict trade to protect jobs. In *The Wolf at the Door*, two leading political analysts argue that these views are badly mistaken. Michael Graetz and Ian Shapiro focus on what really worries people: not what the rich are making but rather their own insecurity and that of people close to them. Americans are concerned about losing what they have, whether jobs, status, or safe communities. They fear the wolf at the door. The solution is not protectionism or class warfare but a return to the hard work of building coalitions around realistic goals and pursuing them doggedly through the political system. This, Graetz and Shapiro explain, is how earlier reformers achieved meaningful changes, from the abolition of the slave trade to civil rights legislation. The authors make substantial recommendations for increasing jobs, improving wages, protecting families suffering from unemployment, and providing better health insurance and child care, and they guide us through the strategies needed to enact change. These are achievable reforms that would make Americans more secure. *The Wolf at the Door* is one of those rare books that not only diagnose our problems but also show us how we can address them. **The Wolves at the Door The True Story of America's Greatest Female Spy** Diversion Books "Judith Pearson does a

remarkable job of bringing one of America's greatest spies back to life. I highly recommend this story of derring-do and white knuckles suspense." —Patrick O'Donnell, *Combat Historian and Author of Operatives, Spies, and Saboteurs* The remarkable story of one of WWII's greatest spies. Virginia Hall left her comfortable Baltimore roots in 1931 to follow a dream of becoming a Foreign Service Officer. After watching Hitler roll over Poland and France, she enlisted to work for the British Special Operations Executive (SOE), a secret espionage and sabotage organization. She was soon deployed to occupied France where, if captured, imprisonment and torture at the hands of the Gestapo was all but assured. Against such an ominous backdrop, Hall managed to locate drop zones for money and weapons, helped escaped POWs and downed Allied airmen flee to England, and secured safe houses for agents. And she did it all on one leg: Virginia Hall had lost her left leg before the war in a hunting accident. Soon, wanted posters appeared throughout France, offering a reward for her capture. By winter of 1942, Hall had to flee France via the only route possible: a hike on foot through the frozen Pyrénées Mountains into neutral Spain. Upon her return to England, the American espionage organization, the Office of Special Services, recruited her and sent her back to France disguised as an old peasant woman. While there, she was responsible for killing 150 German soldiers and capturing 500 others. Sabotaging communications and transportation links and directing resistance activities, her work helped change the course of the war. This is the true story of Virginia Hall. Schoolhouse Door The Dismantling of Public Education and the Future of School A trenchant analysis of how public education is being destroyed in overt and deceptive ways--and how to fight back "There's no more time for tinkering around the edges." --Betsy DeVos, 2018 "Rethink School" tour Betsy DeVos may be the most prominent face of the push to dismantle public education, but she is in fact part of a large movement that's been steadily gaining power and notching progress for decades--amassing funds, honing their messaging, and crafting policies. While support for public education today is stronger than ever, the movement to save our schools remains fragmented, variable, and voluntary. Meanwhile, those set on destroying this beloved institution are unified, patient, and well-resourced. In *A Wolf at the Schoolhouse Door*, Jennifer Berkshire and Jack Schneider, co-hosts of the popular education podcast *Have You Heard*, lay out the increasingly potent network of conservative elected officials, advocacy groups, funders, and think tanks that have aligned behind a radical vision to unmake public education. They describe the dogma underpinning the work of the dismantlers and how it fits into the current political context, giving readers an up-close look at the policies--school vouchers, the war on teachers' unions, tax credit scholarships, virtual schools, and more--driving the movement's agenda. Finally they look forward, surveying the world the dismantlers threaten to build. As teachers from coast to coast mobilize with renewed vigor, this smart, essential book sounds an alarm, one that should incite a public reckoning on behalf of the millions of families served by the American educational system--and many more who stand to suffer from its unmaking. **Lucy Keeps the Wolf from the Door The House with the Golden Door** **Apollo Wolves at the Door Migration, Dehumanization, Rewilding the World** Bloomsbury Publishing USA In view of the current rhetoric surrounding the global migrant crisis □ with politicians comparing refugees with animals and media reports warning of migrants swarming like insects or trespassing like wolves □ this timely study explores the cultural origins of the language and imagery of dehumanization. Situated at the junction of literature, politics, and ecocriticism, *Wolves at the Door* traces the history of the wolf metaphor in discussions of race, gender, colonialism, fascism, and ecology. How have 'Gypsies', Jews, Native Americans but also 'wayward' women been 'wolfed' in literature and politics? How has the wolf myth been exploited by Hitler, Mussolini and Turkish ultra-nationalism? How do right-wing politicians today exploit the reappearance of wolves in Central Europe in the context of the migration discourse? And while their reintroduction in places like Yellowstone has fuelled heated debates, what is the wolf's role in ecological rewilding and for the restoration of biodiversity? In today's fraught political climate, *Wolves at the Door* alerts readers to the links between stereotypical images, their cultural history, and their political consequences. It raises awareness about xenophobia and the dangers of nationalist idolatry, but also highlights how literature and the visual arts employ the wolf myth for alternative messages of tolerance and cultural diversity. **Wolf at the Door** Fiction. America's inglorious exit from Vietnam, the increasingly desperate actions of counterculture protest groups, the rise of repressive CIA operations, the commodification of the American wayall this and more is captured here in Brossard's inimitable style. That style discards realism in favor of a free-form fiction that mixes French surrealism and theatrical absurdity with Beat improvisation and performance art confrontation. Brossard's avalanche of language is outrageous. A kind of verbal delirium possesses the text, which on one level may be the collective fantasy lives of a countercultural group in Paris; on another, the psychotic outpourings of a woman named Decca Aldridge; on yet another, a script by impresario Socks Peelmunder for a guerrilla theater performance; and on the final level, the gamy underside of America's subconsciousa terrifying lava flow of provincial prejudices, racial fears, political paranoia, and sexist attitudes all speaking in tongues in a desperate attempt to bolt the door against the return of the repressed. Not since *Naked Lunch* has the American dream been assaulted with such ferocious verbal energy. **Women who Run with the Wolves Myths and Stories of the Wild Woman Archetype** A Jungian analyst explores the feminine psyche through stories of "wild women"--the mythological archetype of the strong, primitive woman **Thirteen Doorways, Wolves Behind Them All** Balzer & Bray National

The following year, the two speeches were published as *A Room of One's Own*, and became one of the foremost feminist texts. Knitted into a polished argument are several threads of great importance - women and learning, writing and poverty - which helped to establish much of feminist thought on the importance of education and money for women's independence. In the same breath, Woolf brushes aside critics and sends out a call for solidarity and independence - a call which sent ripples well into the next century.
