## **MAPPING GLOBAL THEATRE HISTORIES**

---

[Springer](#) **This textbook provides a global, chronological mapping of significant areas of theatre, sketched from its deepest history in the evolution of our brain's 'inner theatre' to ancient, medieval, modern, and postmodern developments. It considers prehistoric cave art and built temples, African trance dances, ancient Egyptian and Middle-Eastern ritual dramas, Greek and Roman theatres, Asian dance-dramas and puppetry, medieval European performances, global indigenous rituals, early modern to postmodern Euro-American developments, worldwide postcolonial theatres, and the hyper-theatricality of today's mass and social media. Timelines and numbered paragraphs form an overall outline with distilled details of what students can learn, encouraging further explorations online and in the library. Questions suggest how students might reflect on present parallels, making their own maps of global theatre histories, regarding geo-political theatrics in the media, our performances in everyday life, and the theatres inside our brains.**

## **TECHNIQUES OF SOCIAL INFLUENCE**

---

## **THE PSYCHOLOGY OF GAINING COMPLIANCE**

---

Routledge **Every day we are asked to fulfil others' requests, and we make regular requests of others too, seeking compliance with our desires, commands and suggestions. This accessible text provides a uniquely in-depth overview of the different social influence techniques people use in order to improve the chances of their requests being fulfilled. It both describes each of the techniques in question and explores the research behind them, considering questions such as: How do we know that they work? Under what conditions are they more or less likely to be effective? How might individuals successfully resist attempts by others to influence them? The book groups social influence techniques according to a common characteristic: for instance, early chapters describe "sequential" techniques, and techniques involving egotistic mechanisms, such as using the name of one's interlocutor. Later chapters present techniques based on gestures and facial movements, and others based on the use of specific words, re-examining on the way whether "please" really is a magic word. In every case, author Dariusz Dolinski discusses the existing experimental studies exploring their effectiveness, and how that effectiveness is enhanced or reduced under certain conditions. The book draws on historical material as well as the most up-to-date research, and unpicks the methodological and theoretical controversies involved. The ideal introduction for psychology graduates and undergraduates studying social influence and persuasion, Techniques of Social Influence will also appeal to scholars and students in neighbouring disciplines, as well as interested marketing professionals and practitioners in related fields.**

## **CRITICAL MEDICAL ANTHROPOLOGY**

---

---

## **PERSPECTIVES IN AND FROM LATIN AMERICA**

---

UCL Press **Critical Medical Anthropology** presents inspiring work from scholars doing and engaging with ethnographic research in or from Latin America, addressing themes that are central to contemporary Critical Medical Anthropology (CMA). This includes issues of inequality, embodiment of history, indigeneity, non-communicable diseases, gendered violence, migration, substance abuse, reproductive politics and judicialisation, as these relate to health. The collection of ethnographically informed research, including original theoretical contributions, reconsiders the broader relevance of CMA perspectives for addressing current global healthcare challenges from and of Latin America. It includes work spanning four countries in Latin America (Mexico, Brazil, Guatemala and Peru) as well as the trans-migratory contexts they connect and are defined by. By drawing on diverse social practices, it addresses challenges of central relevance to medical anthropology and global health, including reproduction and maternal health, sex work, rare and chronic diseases, the pharmaceutical industry and questions of agency, political economy, identity, ethnicity, and human rights.

Misery has made him rich; she was the heroine of a string of bestsellers. And now he wants to get on to some real writing. That's when the car accident happens, and he wakes up in pain in a strange bed. But it isn't hospital. Annie Wilkes has pulled him from the wreck, brought him to her remote mountain home, splinted and set his mangled legs. The good news is that Annie was a nurse and has pain-killing drugs. The bad news is that she has long been Paul's Number One Fan. And when she finds out what Paul had done to Misery, she doesn't like it. She doesn't like it at all. Paul Sheldon used to write for a living. Now he's writing to stay alive.
