KEY=2ND - ERICKSON HAIDEN

HITLER

Routledge Adolf Hitler has left a lasting mark on the twentieth-century, as the dictator of Germany and instigator of a genocidal war, culminating in the ruin of much of Europe and the globe. This innovative best-seller explores the nature and mechanics of Hitler's power, and how he used it.

HITLER AND NAZI GERMANY

Routledge Hitler and Nazi Germany details the major themes of Hitler's rise to power, beginning with the formation of the Nazi movement and the forerunners to the Nazi Party. The book goes on to document the establishment of dictatorship, foreign policy, the Nazi economy and the use of propaganda. With indispensable analysis of the nature of National Socialism, this concise guide addresses the issues essential to the understanding of this topic, including the issue of race and the Holocaust.

HITLER THE MAN, BY ADOLF HITLER... PREFACE BY HENRY W. NEVINSON... [2ND EDITION.]

THE "HITLER MYTH"

IMAGE AND REALITY IN THE THIRD REICH

Oxford University Press, USA Few twentieth-century political leaders enjoyed greater popularity among their own people than Hitler in the 1930s and 1940s. This remarkable study of the myth that sustained one of the most notorious dictators, and delves into Hitler's extraordinarily powerful hold over the German people. In this 'major contribution to the study of the Third Reich' (Times Literary Supplement), Ian Kershaw argues that it lay not so much in Hitler's personality or his bizarre Nazi ideology, as in the social and political values of the people themselves. In charting the creation, rise, and fall of the 'Hitler Myth', he demonstrates the importance of the manufactured 'Führer cult' to the attainment of Nazi political ends, and how the Nazis used the new techniques of propaganda to exploit and build on the beliefs, phobias, and prejudices of the day.

HITLER AND NAZISM

Routledge Hitler and Nazism is an essential introduction to a notorious figure and crucial theme in modern European history. Focusing on the key themes of Nazi domestic policy, this book draws together the results of recent research into a concise analysis of the nature of Nazi rule and its impact on German society. This book continues to explore how Nazism took hold in Germany; the issues of Hitler's beliefs and their role in the Third Reich; the factors that brought the party to power, and the structure and nature of both government and society in the Third Reich. It also develops further its analysis of the important issues of modernisation, gender, racial hygiene and the origins and implementation of the Holocaust.

HITLER, 2ND EDITION

Hitler: Profile of a Dictator is a fascinating exploration of Hitler and his role in the Third Reich. The book unravels the complex historiographical debate surrounding this notorious figure by examining his personality, his ideas and the nature of his power. Hitler: Profile of a Dictator surveys Hitler's career chronologically and includes coverage of: * the young idealogue * the Führer State * Hitler's role in the outbreak of the Second World War * Hitler's involvement in the Holocaust. This second edition brings the continuing debate up to date in light of the most recent research, and speculates on the implications of the Irving trial.

ADOLF HITLER

A BIOGRAPHICAL COMPANION

ABC-CLIO An encyclopedia of topics relating to the German leader such as his most important collaborators and opponents, his domestic and foreign policies, the use of propaganda, racial persecution and the Holocaust, and Hitler as a war leader.

HITLER'S SECOND BOOK

THE UNPUBLISHED SEQUEL TO MEIN KAMPF

Enigma Books The unpublished followup to Hitler's autobiography never published during the dictator's lifetime includes details of his vision for a foreign policy based on continual aggression that would inevitably result in a confrontation with the United States, which he saw as a major stumbling block to his plans.

ATLAS OF NAZI GERMANY

Routledge Originally published in hardback only in 1987, Michael Freeman's valuable guide to the history of Nazi Germany now returns to print in a substantially revised Second Edition. Dealing with all aspects of the Nazi regime, it is far more than just an atlas: the integration of the maps themselves with charts and other visually-displayed data, and an extensive and authoritative commentary, makes this a book to read as well as to refer to.

HITLER'S HOME FRONT

WURTTENBERG UNDER THE NAZIS

A&C Black This is a groundbreaking new study of an overlooked area of Second World War History.

HITLER'S SECRET LIFE

THE MYSTERIES OF THE EAGLE'S NEST

Stein & Day Pub Interviews with Hitler's intimates and with members of the Nazi inner circle reveal the story of Hitler's perverse relationships, sado-masochistic sexual behavior, sources of capitol, influences, and gradual debilitation

ADOLF HITLER

A PSYCHOLOGICAL INTERPRETATION OF HIS VIEWS ON ARCHITECTURE, ART, AND MUSIC

Popular Press Zalampas applies the psychological model of Alfred Adler to Adolf Hitler through the examination of his views on architecture, art, and music. This study was made possible by the publication of Billy F. Price's volume of over seven hundred of Hitler's watercolors, oils, and sketches.

HITLER AND NAZI GERMANY

Routledge Hitler and Nazi Germany provides a concise introduction to Hitler's rise to power and Nazi domestic and foreign policies through to the end of the Second World War. Combining narrative, the views of different historians, interpretation and a selection of sources, this book provides a concise introduction and study aid for students. This second edition has been extensively revised and expanded and includes new chapters on the Nazi regime, the SS and Gestapo, and the Second World War. Expanded background narratives provide a solid understanding of the period and the analyses and sources have been updated throughout to help students engage with recent historiography and form their own interpretation of events.

HITLER AMONG THE GERMANS

Greenwood Combines individual and mass psychohistory in an exploration of the personal and national psychological determinants of Hitler's rise and fall and of Hitler's success in identifying German national trauma with his own

HITLER'S LIBRARY

Central European University Press This work "browses" into Hitler's library: it investigates the collection by shedding new lights on the readings and reading habits of Hitler.

HITLER

PROFILE OF A DICTATOR

Routledge Hitler: Profile of a Dictator is a fascinating exploration of Hitler and his role in the Third Reich. The book unravels the complex historiographical debate surrounding this notorious figure by examining his personality, his ideas and the nature of his power. Hitler: Profile of a Dictator surveys Hitler's career chronologically and includes coverage of: * the young idealogue * the Führer State * Hitler's role in the outbreak of the Second World War * Hitler's involvement in the Holocaust. This second edition brings the continuing debate up to date in light of the most recent reseach, and speculates on the implications of the Irving trial.

HITLER'S GERMANY

ORIGINS, INTERPRETATIONS, LEGACIES

Routledge Hitler's Germany provides a comprehensive narrative history of Nazi Germany and sets it in the wider context of nineteenth and twentieth century German history. Roderick Stackelberg analyzes how it was possible that a national culture of such creativity and achievement could generate such barbarism and destructiveness. This second edition has been updated throughout to incorporate recent historical research and engage with current debates in the field. It includes: an expanded introduction focusing on the hazards of writing about Nazi Germany an extended analysis of fascism, totalitarianism, imperialism and ideology a broadened contextualisation of antisemitism discussion of the Holocaust including the euthanasia program and the role of eugenics new chapters on Nazi social and economic policies and the structure of government as well as on the role of culture, the arts, education and religion additional maps, tables and a chronology a fully updated bibliography. Exploring the controversies surrounding Nazism and its afterlife in historiography and historical memory Hitler's Germany provides students with an interpretive framework for understanding this extraordinary episode in German and European history.

GERMAN RESISTANCE TO HITLER

Harvard University Press Hoffmann examines the growing recognition by some Germans in the 1930s of the malign nature of the Nazi regime, the ways in which these people became involved in the resistance, and the views of those who staked their lives in the struggle against tyranny and murder.

THE ROOTS OF NAZI PSYCHOLOGY

HITLER'S UTOPIAN BARBARISM

University Press of Kentucky Adolf Hitler has always been and will continue to be a tempting subject for psychological analysis -- even if, despite Peter Gay's classic Freud for Historians, psychohistory and psychobiography are still considered the black sheep of historical biography. Gonen (a retired professor of psychology at the University of Cincinnati and author of A Psychohistory of Zionism) offers a brief study and analysis of what he claims is a "Nazi psychology". Drawing from an extensive and rigorous reading of Hitler's speeches and published writings (especially Mein Kampf), Freudian theories and social, economic and cultural history, Gonen ponders whether Hitler was an aberration in German society or a "man of the people". (The German masses, he concludes, shared in Hitler's paranoia and delusions.) Chapters cover the role of ideology in shaping mass thinking, as well as anti-Semitism, lebensraum and the idea of the Volkish state -- and contain fascinating passages on the image of the Jew, the role of women and the interrelatedness of kitsch and death in the Nazi mentality. Although Gonen doesn't really say anything new ("Hitler", he tells us, for example, "was a messianic paranoid"), what he offers is compellingly written and blessedly free of social science jargon. What is troubling, however, is that Gonen fails to explore concepts central to his inquiry, such as "utopia" and "barbarism", and that he contends that Nazism had its own "internal (or) inherent logic". Slightly flawed, this is still a good introduction to a difficult subject.

THE THIRD REICH

CHARISMA AND COMMUNITY

Pearson Education This book shows how a charismatic leader preyed on ordinary Germans yearning for stability in a time of economic, political and social crisis. It goes on to give a complete and up-to-date analysis of The Third Reich; its implications for and place in history.

HITLER'S JEWISH SOLDIERS

THE UNTOLD STORY OF NAZI RACIAL LAWS AND MEN OF JEWISH DESCENT IN THE GERMAN MILITARY

The author explores the often overlooked historical issue of Jews or "partial Jews" serving in the Germany military--as many as 150,000 men who served as enlisted men, officers, and even generals. (Military History)

HITLER'S PRIESTESS

SAVITRI DEVI, THE HINDU-ARYAN MYTH, AND NEO-NAZISM

NYU Press Each year, thousands of Chinese children, primarily abandoned infant girls, are adopted by Americans. Yet we know very little about the local and transnational processes that characterize this new migration. Transnational Adoption is a unique ethnographic study of China/U.S. adoption, the largest contemporary intercountry adoption program. Sara K. Dorow begins by situating the popularity of the China/U.S. adoption process within a broader history of immigration and adoption. She then follows the path of the adoption process: the institutions and bureaucracies in both China and the United States that prepare children and parents for each other; the stories and practices that legitimate them coming together as transnational families; the strains placed upon our common notions of what motherhood means; and ways in which parents then construct the cultural and racial identities of adopted children. Based on rich ethnographic evidence, including interviews with and observation of people on both sides of the Pacific—from orphanages, government officials, and adoption agencies to advocacy groups and adoptive families themselves—this is a fascinating look at the latest chapter in Chinese-American migration.

HITLER'S PRISONS

LEGAL TERROR IN NAZI GERMANY

Yale University Press State prisons played an indispensable part in the terror of the Third Reich, incarcerating many hundreds of thousands of men and women during the Nazi era. This important book illuminates the previously unknown world of Nazi prisons, their victims, and the judicial and penal officials who built and operated this system of brutal legal terror. Nikolaus Wachsmann describes the operation and function of legal terror in the Third Reich and brings Nazi prisons to life through the harrowing stories of individual inmates. Drawing on a vast array of archival materials, he traces the series of changes in prison policies and practice that led eventually to racial terror, brutal violence, slave labour, starvation, and mass killings. Wachsmann demonstrates that ordinary legal officials were ready collaborators who helped to turn courts and prisons into key components in the Nazi web of terror. And he concludes with a discussion of the whitewash of the Nazi legal system in post-war West Germany.

FROM BISMARCK TO HITLER

GERMANY, 1890-1933

Hodder Education This second edition has been thoroughly updated to provide comprehensive and accessible coverage of German history from the Kaiserreich through to the collapse of the Weimar Republic. Events and issues arising from the period are covered in depth, including the domestic and foreign policies of Imperial Germany, the First World War and revolution, the founding of the Weimar Republic and the rise of the Nazis. Whilst focusing mainly upon domestic affairs the book also highlights how external factors influenced events in Germany. The study guides have been comprehensively revised and provide a firm basis for answering source-based and essay questions.

HITLER'S WAR

New York : McGraw-Hill Examines the German dictator's strategies for the conduct of World War II in light of Hitler's own view of German history, his personal strengths and weaknesses, and his political experiences during his rise to power in the 1930s

HITLER

A STUDY IN TYRANNY

Harpercollins College Division The sources for this exhaustive study included the massive German archives, evidence given at the Nuremberg trials, and countless documents, speeches, memoirs and diaries of men in close contact with the Fuhrer.

HITLER IN HISTORY

Brandeis Univ Four lectures delivered at Brandeis University in September-October 1983, with an additional chapter summarizing the author's views. Argues that Hitler planned in the 1920s to wage war to acquire "Lebensraum" for the German people, but also to exterminate the Jews, and that he deceived the German people who admired him with childlike devotion, and who would not believe that he "knew" about the atrocities being committed. Hitler ruled Germany as a monocrat - all vital political decisions were made by him alone. His power rested in his ability to play differing and opposing interest groups against each other.

HITLER'S SILENT PARTNERS

SWISS BANKS, NAZI GOLD, AND THE PURSUIT OF JUSTICE

William Morrow Vienna, 1939: "If anything happens to us, I have money in Switzerland." These were among the last words that sixteen-year-old Renie Lang's grandfather said to her before he perished in the Holocaust. Fifty years later, Renee and thousands like her are trying to find their rightful inheritances in Swiss banks -- and the world faces appalling revelations that "neutral" Switzerland acted as secret banker to the Nazis, abetting the German war against the Jewish people. Award-winning journalist Isabel Vincent unravels the labyrinthine story behind the headlines: how desperate men and women tried to secure their families' futures by opening bank accounts in Switzerland; how the Nazis laundered, through Swiss banks, gold seized from the treasuries of occupied countries, much of it looted from the Jews; how the demands of international business, Swiss bank secrecy, and greed have conspired to prevent the truth from being disclosed for over half a century and still prevent restitution. Balanced, rigorous, and often heartbreaking, this major work also gives a human face to the statistics: a crusading Toronto lawyer; Edgar Bronfman, the passionate head of the World Jewish Congress; a Swiss parliamentarian determined to discover her country's past; and Renie, a survivor waiting in the shadows for some small justice, already a little too late.

HITLER

A CHRONOLOGY OF HIS LIFE AND TIME

Palgrave Macmillan

ALTERNATIVES TO HITLER

GERMAN RESISTANCE UNDER THE THIRD REICH

teNeues German resistance to Hitler is a central element of the history of Nazism. In this text, contemporary historian Hans Mommsen reveals the diversity of the political aims held by these other Germans. He analyses the ideologies of the assassination plot of 20th July 1944, as well as those of the Kreisau Circle and the conservative, socialist, church and military oppositions. These resistance groups all endeavoured to find a viable alternative to Hitler and to achieve a moral renewal of politics and society - although many of them rejected democracy and had a sometimes ambivalent attitude towards the persecution of the Jews.

LET'S SWALLOW SWITZERLAND!

HITLER'S PLANS AGAINST THE SWISS CONFEDERATION

Lexington Books Why was Switzerland spared a German attack during World War II? Was its existence actually endangered at any time? In "Let's Swallow Switzerland," historian Klaus Urner reveals new data uncovered about the actual threats Switzerland faced during the war. Extensive archival research into the events at the Führer's headquarters discloses that Hitler, in cooperation with Mussolini, initiated a surprise pincer operation against Switzerland during the final phase of the French campaign. On June 24, 1940, Army Corps C received orders to prepare for the "Special Task Switzerland." In early July, the 12th Army, with nine divisions, was deployed near the Western border of Switzerland. Urner proves that German operational plans were not fictitious designs worked out by a bored staff, as has been claimed, but in fact were serious preparatory measures for an attack. The second half of this fascinating exposé provides a discussion of German economic warfare against Switzerland, revealing that Germany's goal was to control every interaction between Switzerland and the Allies--such attempts continued until the total occupation of France on November 11, 1942. Numerous original documents attesting to Hitler's plans, historic photographs, and a detailed bibliography make this book a fundamental work for understanding Switzerland's difficult predicament during World War II.

HITLER

Longman Publishing Group The end of the postwar European order which was the legacy of the Third Reich provides a fitting moment to reassess the foundations of Hitler's calamitously destructive power. This interpretative study makes no claim to offer a new biography of Hitler. In some ways its approach is indeed quite non-biographical. It focuses directly upon the nature and mechanics, the character and exercise of Hitler's dictatorial power.

HITLER: VOLUME II

DOWNFALL 1939-45

Random House 'Meticulous... Probably the most disturbing portrait of Hitler I have ever read' Dominic Sandbrook, Sunday Times By the summer of 1939 Hitler was at the zenith of his power. Yet despite initial triumphs in the early stages of war, the Führer's fortunes would turn dramatically as the conflict raged on. Realising that victory was lost, and with Soviet troops closing in on his Berlin bunker, Hitler committed suicide in April 1945; one week later, Nazi Germany surrendered. His murderous ambitions had not only annihilated his own country, but had cost the lives of millions across Europe. In the final volume of this landmark biography, Volker Ullrich argues that the very qualities - and the defects - that accounted for Hitler's popularity and rise to power were what brought about his ruin. A keen strategist and meticulous military commander, he was also a deeply insecure gambler who could be shaken by the smallest setback, and was quick to blame subordinates for his own disastrous mistakes. Drawing on a wealth of new sources and scholarship, this is the definitive portrait of the man who dragged the world into chaos.

THE TRIAL OF ADOLF HITLER

A NOVEL

New York : Summit Books If Hitler had lived, could 25 years as a humane person atone for his past deeds?

A CONCISE HISTORY OF NAZI GERMANY

Rowman & Littlefield Pub Incorporated This balanced history offers a concise, readable introduction to Nazi Germany. Combining compelling narrative storytelling with analysis, Joseph Bendersky presents an authoritative survey of the major political, economic, and social factors that powered the rise and fall of the Third Reich. Now in its third edition, the book incorporates the significant research of recent years. Delving into the complexity of social life within the Nazi state, it also reemphasizes the crucial role played by racial ideology in determining the policies and practices of the Third Reich. Bendersky paints a fascinating picture of how average citizens negotiated their way through both the threatening power behind certain Nazi policies and the strong enticements to acquiesce or collaborate. His classic treatment provides an invaluable overview of a subject that retains its historical significance and contemporary importance.

HITLER'S SALON

Peter Lang From 1937 to 1944 the National Socialist regime organised a series of art exhibitions, Grosse Deutsche Kunstausstellung, in Munich. This book traces the history of the exhibitions, characterises the artists and artworks shown and investigates how the local Munich tradition of displaying art was reinvented for national purposes.

HITLER'S MISTAKES

Xs Books Based on a wide-ranging synthesis of specialist sources, this account explores the flaws in Hitler's character and how they translated into military blunders and compound failures.

HITLER'S WAR IN THE EAST, 1941-1945

A CRITICAL ASSESSMENT

Berghahn Books Provides a guide to the extensive literature on the war in the East, including largely unknown Soviet writing on the subject. Sections on policy and strategy, the military campaign, the ideologically motivated war of annihilation in the East, the occupation, and coming to terms with the results of the war offer a wealth of bibliographic citations, and include introductions detailing history of the period and related issues. For military historians, and for scholars who approach this period in history from a socio-economic or cultural perspective. No index. Annotation copyrighted by Book News, Inc., Portland, OR

HITLER'S GAMES

THE 1936 OLYMPICS

Olympic Marketing Corporation A detailed, illustrated account of the 1936 Berlin Olympic Games ranges from the early planning from 1933 on to all key events of the games themselves, and covers the political and ideological factors involved
