### THE BUSINESS YEAR: ABU DHABI 2020

---

*The Business Year As Ecuador and the world at large grapple with the emerging challenge of the COVID-19 pandemic, it is important not to forget the fundamentals of the Ecuadorian economy and the success stories of 2019 and the start of 2020. We believe contained within these pages is an accurate, balanced account of the state of the Ecuadorian economy as of publication, told through the words of the dozens of top public- and private-sector figures. The Business Year's country-specific publications, sometimes featuring over 150 face-to-face interviews, are among the most comprehensive annual economic publications available internationally. This 212-page publication covers green economy, finance, hydrocarbons, mining, agriculture, construction, industry, transport, education, health, ICT, and tourism.*

### PLUNKETT'S ENERGY INDUSTRY ALMANAC 2007

---

---

### ENERGY INDUSTRY MARKET RESEARCH, STATISTICS, TRENDS & LEADING COMPANIES

---

*Plunkett Research, Ltd. The energy industry is boiling over with changes. Deregulation, new opportunities in foreign fields and markets and environmental challenges are rushing together head-on to shape the energy and utilities business of the future. Extremely deep offshore wells in the Gulf of Mexico and offshore of West Africa are being drilled at immense cost. Meanwhile China has become a major energy importer and Russia has become a major exporter. In the U.S., Europe and Japan, renewable and alternative energy sources are developing quickly, including big breakthroughs in wind power and fuel cells. This exciting new reference book covers everything from major oil companies to electric and gas utilities, plus pipelines, refiners, retailers, oil field services and engineering. Petroleum topics include upstream and downstream. Additional topics include coal, natural gas and LNG. More than a dozen statistical tables cover everything from energy consumption, production and reserves to imports, exports and prices. Next, our unique profiles of the Energy 500 Firms are also included, with such vital details as executive contacts by title, revenues, profits, types of business, web sites, competitive advantage, growth plans and more. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.*

### JOB INTERVIEW QUESTIONS AND ANSWERS FOR HIRING ON OFFSHORE OIL AND GAS RIGS

---

*Petrogav International Petrogav International provides courses for participants that intend to work on offshore drilling and production platforms. Training courses are taught by professionals from the oil and gas industry with current knowledge and years of field experience. The participants will get all the necessary competencies to work on the offshore drilling platforms and on the offshore production platforms. It is intended also for non-drilling and non-production personnel who work in drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. This course provides a non-technical overview of the phases, operations and terminology used on offshore oil and gas platforms. It is intended also for non-production personnel who work in the offshore drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of production operations, with a particular focus on the unique aspects of offshore operations.*

### PLUNKETT'S ENGINEERING & RESEARCH INDUSTRY ALMANAC 2006: THE ONLY COMPLETE GUIDE TO THE BUSINESS OF RESEARCH, DEVELOPMENT AND ENGINEERING

---

*Plunkett Research, Ltd. This reference book is a complete guide to the trends and leading companies in the engineering, research, design, innovation and development business fields: those firms that are dominant in engineering-based design and development, as well leaders in technology-based research and development. We have included companies that are making significant investments in research and development via as many disciplines as possible, whether that research is being funded by internal investment, by fees received from clients or by fees collected from government agencies. In this carefully-researched volume, you'll get all of the data you need on the American Engineering & Research Industry, including: engineering market analysis, complete industry basics, trends, research trends, patents, intellectual property, funding, research and development data, growth companies, investments, emerging technologies, CAD, CAE, CAM, and more. The book also contains major statistical tables covering everything from total U.S. R&D expenditures to the total number of scientists working in various disciplines, to amount of U.S. government grants for research. In addition, you'll get expertly written profiles of nearly 400 top Engineering and Research firms - the largest, most successful corporations in all facets of Engineering and Research, all cross-indexed by location, size and type of business. These corporate profiles include contact names, addresses, Internet addresses, fax numbers, toll-free numbers, plus growth and hiring plans, finances, research, marketing, technology, acquisitions and much more. This book will put the entire Engineering and Research industry in your hands. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.*

### PLUNKETT'S ALMANAC OF MIDDLE MARKET COMPANIES: MIDDLE MARKET RESEARCH, STATISTICS & LEADING COMPANIES

---

*Plunkett Research, Ltd. Plunkett's Almanac of Middle Market Companies 2008 is designed to be time-saving business development tool for professionals, marketers, sales directors, consultants and strategists seeking to understand and reach middle market American companies. It will also be of great use to placement, recruiting and human resources professionals, as well as professionals working in economic development, lending and media. It covers competitive intelligence, market research and business analysis--everything you need to identify and develop strategies for middle market corporations. Coverage includes all major business sectors, from InfoTech to health care to telecommunications and much more. (We have intentionally omitted retail companies and banks.) These profiles and details on over 500 middle market firms are pulled from our extensive company and industry databases. We also include a business glossary and a listing of business contacts, such as industry associations and government agencies. Next, we profile hundreds of leading middle market companies. Our company profiles include complete business descriptions and up to 27 executives by name and title. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.*

### NEW-TECHNOLOGY FLOWMETERS

---

---

### VOLUME I

---

*CRC Press New-Technology Flowmeters describes the origin, principle of operation, development, advantages and disadvantages, applications, and frontiers of research for new-technology flowmeters, which include Coriolis, magnetic, ultrasonic, vortex, and thermal. Focusing on the newer, faster growing flowmeter markets, the book places them in the context of more traditional meters such as differential pressure, turbine, and positive displacement. Taking an objective look at the origins of each flowmeter type, the book discusses the early patents, for each type, and which companies deserve credit for initially commercializing each flowmeter type. This book is designed for personnel involved with flowmeters and instrumentation, including product and marketing managers, strategic planners, application engineers, and distributors.*

### THE OIL & GAS YEAR EGYPT 2019

---

The Oil & Gas Year Limited "Currently, the Ministry of Petroleum is working on the implementation of new concepts to maximise the investment map of Egypt's upstream activities." Tarek El Molla, Minister of Petroleum and Mineral Resources The Oil & Gas Year Egypt 2019 comes at a time when the country's hydrocarbons industry is about to witness tremendous developments, dubbed a "golden era." This year's Egypt edition highlights the country's recently achieved gas self-sufficiency and the government's objective of turning Egypt into a regional hub for LNG trade, showcases the successful completion of recent bidding rounds and the plans in place to further intensify exploration activities, and promotes the ambitious new investments in the petrochemicals industry. "When we state that we need to become a gas hub, we think not only about Egypt, but about our neighbouring countries too. We are not competing; we are integrating. We have the infrastructure, we have a big market and network, and we also need to integrate with our neighbours for the benefit of everyone." Osama El Bakly, Chairman of EGAS The Oil & Gas Year Egypt 2019 delves into Egypt's strategy to become the East Mediterranean energy hub, taking advantage of the availability of gas, the country's existing infrastructure and its strategic position. This fifth edition of The Oil & Gas Year's Egypt series provides insight to investors and companies looking at strategic opportunities in the country, at a time when Egypt's oil and gas industry is experiencing a renaissance.

### BLOCKCHAIN AND AI TECHNOLOGY IN THE INDUSTRIAL INTERNET OF THINGS

---

IGI Global Blockchain and artificial intelligence (AI) in industrial internet of things is an emerging field of research at the intersection of information science, computer science, and electronics engineering. The radical digitization of industry coupled with the explosion of the internet of things (IoT) has set up a paradigm shift for industrial and manufacturing companies. There exists a need for a comprehensive collection of original research of the best performing methods and state-of-the-art approaches in this area of blockchain, AI, and the industrial internet of things in this new era for industrial and manufacturing companies. Blockchain and AI Technology in the Industrial Internet of Things compares different approaches to the industrial internet of things and explores the direct impact blockchain and AI technology have on the betterment of the human life. The chapters provide the latest advances in the field and provide insights and concerns on the concept and growth of the industrial internet of things. While including research on security and privacy, supply chain management systems, performance analysis, and a variety of industries, this book is ideal for professionals, researchers, managers, technologists, security analysts, executives, practitioners, researchers, academicians, and students looking for advanced research and information on the newest technologies, advances, and approaches for blockchain and AI in the industrial internet of things.

### EXTRACTING INNOVATIONS

---

---

---

#### MINING, ENERGY, AND TECHNOLOGICAL CHANGE IN THE DIGITAL AGE

---

CRC Press This book considers the most contemporary innovations propelling the extractive industries forward while also creating new environmental and social challenges. The socio-ecological fabric of innovation in the extractive industries is considered through an integrative approach that brings together engineers, natural scientists, and social scientists—academics and practitioners—giving an empirically grounded and realistic evaluation of the innovations in this sector. It synthesizes a series of questions including: Why have these sectors been historically slow to innovate? What specific strategies can improve innovation and uptake of new technologies? What new forms of technology will shape the sector in the decades ahead? What impact will new technologies have on resource extraction and energy production? How are digital technologies changing the competitive landscape and industry architecture? How will new technologies impact sustainability of the sector and can technologies improve social performance and environmental stewardship? And more!

#### THE ENERGY YEAR EGYPT 2022

---

The Oil & Gas Year Limited "We are witnessing giant international companies such as ExxonMobil and Chevron investing in Egypt for the first time in the upstream domain." Minister of Petroleum and Mineral Resources H.E. Eng. Tarek El Molla The Energy Year Egypt 2022 spotlights dynamic developments in the Egyptian energy market, from the launch of transparent, global access to technical data via the Egypt Upstream Gateway digital platform to the rise of the renewables market, with emphasis on solar and green hydrogen. Insights from key players such as Eni, bp and Apache feature in this year's report. "The Nile Delta Basin is a world-class gas basin with a lot of growth potential." Karim Alaa, bp's regional president for North Africa As Egypt aims to position itself as a regional energy hub, The Energy Year Egypt 2022 offers details and insight on policy developments and related business opportunities. The report also highlights the country's panorama of downstream mega-projects, efforts to revamp oil and gas production, developments in the power sector, new models of public-private partnership and initiatives for reducing carbon emissions. This sixth edition of The Energy Year's Egypt series provides insight to potential investors on the latest developments and opportunities in one of the region's key markets for oil, gas and renewables.

#### HANDBOOK OF RESEARCH ON APPLIED AI FOR INTERNATIONAL BUSINESS AND MARKETING APPLICATIONS

---

IGI Global Artificial intelligence (AI) describes machines/computers that mimic cognitive functions that humans associate with other human minds, such as learning and problem solving. As businesses have evolved to include more automation of processes, it has become more vital to understand AI and its various applications. Additionally, it is important for workers in the marketing industry to understand how to coincide with and utilize these techniques to enhance and make their work more efficient. The Handbook of Research on Applied AI for International Business and Marketing Applications is a critical scholarly publication that provides comprehensive research on artificial intelligence applications within the context of international business. Highlighting a wide range of topics such as diversification, risk management, and artificial intelligence, this book is ideal for marketers, business professionals, academicians, practitioners, researchers, and students.
