Small is Profitable The Hidden Economic Benefits of Making Electrical Resources the Right Size [Routledge](#) Today's electricity industry - large power stations feeding a nationwide grid - will soon be a thing of the past. This book explains why and what will replace it - decentralized and distributed electrical resources which can be up to 10 times as economically valuable. The authors - all leading experts in the field - explain very clearly and thoroughly all the benefits, so the engineers will understand the economic advantages and the investors will understand the engineering efficiencies. Here's what industry experts are saying about Small is Profitable... 'A tour-de-force and a goldmine of good ideas. It is going to have a stunning impact on thinking about electricity.' Walter C. Patterson, Senior Research Fellow, Royal Institute of International Affairs, London. 'An amazing undertaking - incredibly ambitious yet magnificently researched and executed.' Dr. Shimon Awerbuch, Senior Advisor, International Energy Agency, Paris. 'Outstanding...You have thought of some [benefits] I never considered...A great resource for the innovation in energy services that will have to take place for us to have a sustainable future.' Dr. Carl Weinberg, Weinberg Associates, former Research Director, PG&E. 'This is a brilliant synthesis and overview with a lot of original analytics and insights and a very important overall theme. I think it is going to have a big impact.' Greg Kats, Principal, Capital E LLC, former Finance Director for Efficiency and Renewable Energy, U.S. Department of Energy. 'E. F. Schumacher would be proud of this rigorous extension of his thesis in Small is Beautiful. It shows how making systems the right size can make them work better and cost less. Here are critical lessons for the new century: technologies tailored to the needs of people, not the reverse, can improve the economy and the environment.' Dr. Daniel Kammen, Professor of Energy and Society and of Public Policy, University of California, Berkeley. 'Small is Profitable creates an unconventional but impeccably reasoned foundation to correctly assign the costs and true benefits of distributed energy systems. It has become an indispensable tool for modelling distributed energy systems benefits for us.' Tom Dinwoodie, CEO and Chairman, PowerLight Corporation. 'A Unique and valuable contribution to the distributed energy industry...Small Is Profitable highlights the societal benefits of distributed resources, and will be a helpful guide to policymakers who wish to properly account for these benefits in the marketplace.' Nicholas Lenssen, Senior Director, Primen. 'This book will shift the electric industry from the hazards of overcentralization toward the new era where distributed generation will rule.' Steven J. Strong, President, Solar Design Associates, Inc. 'Readers will understand why distributed resources are poised to fundamentally alter the electric power system. Its comprehensive review of the benefits of distributed resources [is] an important part of my library.' Dr. Thomas E. Hoff, President, Clean Power Research. 'The most comprehensive treatise on distributed generation.... Great job and congratulations.' Howard Wenger, Principal, Pacific Energy Group '..[D]ensely packed with information and insights...goes a long way to demonstrate that the former paradigm of electric power supply no longer makes sense.' Prof. Richard Hirsh, University of Vermont, Leading historian of the electric power sector. 'Amory Lovins was already the world's most original and influential thinker on the future of energy services in general and electricity systems in particular. This remarkable book is a very worthy addition to an extraordinary legacy.' Ralph Cavanagh, Energy Co-Director, Natural Resources Defense Council. 'This is a book every utility professional should have on the bookshelf.' Dr Peter S. Fox-Penner, Principal and Chairman of the Board, the Brattle Group, former Principal Deputy Assistant Secretary of Energy. **Immigration and Ethnic Communities A Focus on Latinos** [Michigan State University, Julian Samora Research Institute](#) For over a decade, Latino immigrants, especially those of Mexican origin, have been at the heart of the immigration debate and have borne the brunt of conservative populism. Contributing factors to the public reaction to immigrants in general and Latinos specifically include the sheer size of recent immigration, the increasing prevalence of Latinos in the work force, and the geographic concentration of Latinos in certain areas of the country. Based on a conference held at the Julian Samora Institute (Michigan) in April 1995, this book is organized around two main themes. The first discusses patterns of immigration and describes several immigrant communities in the United States; the second looks in depth at immigration issues, including economic impacts, employment, and provision of education and other services to immigrants. Papers and commentaries are: (1) "Introductory Statement" (Steven J. Gold); (2) "Immigrants from Latin America and the Caribbean: A Socioeconomic Profile" (Ruben G. Rumbaut); (3) "Discrimination and Conflict: Minority Status and the Latino Community in the United States" (Juan L. Gonzales Jr.); (4) "The Demography of Mexicans in the Midwest" (Rogelio Saenz); (5) "Historical Foundations of Latino Immigration and Community Formation in 20th-Century Michigan and the Midwest" (Dennis Nodin Valdes); (6) "Islanders in the States: A

Comparative Account" (Sherri Grasmuck, Ramon Grosfoguel); (7) "Emerging Latino Populations in Rural New York" (Enrique E. Figueroa); (8) "Immigration to the United States: Journey to an Uncertain Destination" (Philip Martin); (9) "Borders and Immigration: Recasting Definitions" (Scott Whiteford); (10) "Mexico-to-U.S. Migration and Rural Mexico: A Village Economywide Perspective" (J. Edward Taylor); (11) "Job Competition Reassessed: Regional and Community Impacts from Los Angeles" (Abel Valenzuela Jr.); (12) "The Social Organization of Day-Laborers in Los Angeles" (Daniel Melero Malpica); (13) "Unpacking 187: Targeting Mejanas" (Pierrette Hondagneu-Sotelo); (14) "Proposition 187 and Its Aftermath: Will the Tidal Wave Continue?" (Adela de la Torre); (15) "All Was Not Lost: The Political Victories of Mexican Immigrants in Guadalupe, California" (Victor Garcia); (16) "Other Important Points" (Enrique Figueroa); (17) "What Is Needed? More Interdisciplinary Work Drawing on the Humanities" (Denise Segura); and (18) "The Different Faces and Dimensions of Immigration: A View from Midwest Reality" (Manuel Chavez). Most papers contain references and author profiles. (SV) Applications of Non-Pollen Palynomorphs from Palaeoenvironmental Reconstructions to Biostratigraphy [Geological Society of London](#) This long-awaited book about non-pollen palynomorphs (NPPs) aims to cover gaps in our knowledge of these abundant but understudied palynological remains. NPPs, such as fungal spores, testate amoebae, dinoflagellate cysts, acritarchs and animal remains, are routinely recovered from palynological preparations of marine or terrestrial material, from Proterozoic to recent geological times. This book gives the reader a comprehensive overview of the different types of NPPs, with examples from diverse time periods and environments. It provides guidance on sample preparation to maximize the recovery of these NPPs, detailed information on their diversity and ecological affinity, clarification on the nomenclature and demonstrates their value as environmental indicators. This volume will become the reference guide for any student, academic or practitioner interested in everything else in their palynological preparations. The Human Rights of Migrants [International Organization for Migration](#) Includes statistics. Foreign Trade Statistics of Asia and the Far East: Series B. Practice and Theory in the Italian Renaissance Workshop Verrocchio and the Epistemology of Making Art [Cambridge University Press](#) Verrocchio worked in an extraordinarily wide array of media and used unusual practices of making to express ideas. Pathways Out of Poverty Selected Essays from the Angelo King Institute for Economic and Business Studies Improving the Quality of Primary Education in Latin America and the Caribbean Toward the 21st Century [World Bank Publications](#) World Bank Discussion Paper No. 257. Countries in the Latin America and the Caribbean region (LAC) have invested heavily in primary education over the past 10 years. International studies of achievement, however, show that LAC countries still perform poorly. Poole's Index to Periodical Literature: Third supplement : From January 1 1892 to December 31 1896 The Ecological Impact of Synthetic Organic Compounds on Estuarine Ecosystems Poole's Index to Periodical Literature: Third supplement from Jan. 1, 1892-Jan. 1, 1896 Process Design Manual for Carbon Adsorption Caribbean Migration [University of West Indies Press](#) Originally published in 1992, this text considers out-migration from the Caribbean in an analytical manner. Its comparative approach, involving three islands (Jamaica, Barbados and St Vincent) and the range of micro-environments within those islands, is based on data from extensive surveys and in-depth interviews. Analysis of the migration process reflects the perspective of Caribbean potential migrants themselves. Poole's Index to Periodical Literature Surgical Pathology of the Head and Neck [CRC Press](#) Surgical Pathology of the Head and Neck, Third Edition is a complete stand-alone reference covering all aspects of head and neck pathology. Providing an interdisciplinary approach to the diagnosis, treatment, and management of head and neck diseases, this source promotes clear communication between pathologists and surgeons. This is the reference of Poole's Index to Periodical Literature: 1892-1896 Poole's Index to Periodical Literature [1802-1907] Accountability Report for Fiscal Year Poole's Index to Periodical Literature Third Supplement from Jan. 1, 1892 to Dec. 31, 1896 Gravity Models of Spatial Interaction Behavior [Springer Science & Business Media](#) Gravity models describe, and hence help predict, spatial flows of commuters, air-travelers, migrants, commodities and even messages. They are one of the oldest and most widely used of all social science models. This book presents an up-to-date, consistent and unified approach to the theory, methods and application of the gravity model - which spans from the axiomatic foundations of such models all the way to practical hints for their use. "I have found no better general method for use in applied research dealing with spatial interaction... It is against this background that the present book by Sen and Smith is most welcomed." Walter Isard Poole's Index to Periodical Literature Industrial energy use. [DIANE Publishing](#) UN Millennium Development Library: Investing in Development A Practical Plan to Achieve the Millennium Development Goals [Routledge](#) The Millennium Development Goals, adopted at the UN Millennium Summit in 2000, are the world's targets for dramatically reducing extreme poverty in its many dimensions by 2015 income poverty, hunger, disease, exclusion, lack of infrastructure and shelter while promoting gender equality, education, health and environmental sustainability. These bold goals can be met in all parts of the world if nations follow through on their commitments to work together to meet them. Achieving the Millennium Development Goals offers the prospect of a more secure, just, and prosperous world for all. The UN Millennium Project was commissioned by United Nations Secretary-General Kofi Annan to develop a practical plan of action to meet the Millennium Development Goals. As an independent advisory body directed by Professor Jeffrey D. Sachs, the UN Millennium Project submitted its recommendations to the UN Secretary General in January 2005. The core of the UN Millennium Project's work has been carried out by 10 thematic Task Forces comprising more than 250 experts from around the world, including scientists, development practitioners, parliamentarians, policymakers, and representatives from civil society, UN agencies, the World Bank, the IMF, and the private sector. Investing in Development: A Practical Plan to Achieve the Millennium Development Goals brings together the core recommendations of the UN Millennium Project. By outlining practical strategies and approaches to financing the, the report presents an operational framework that will allow even the poorest countries to achieve the Millennium Development Goals by 2015. Second Inauguration of Woodrow Wilson as President of the United States and Thomas Riley Marshall

as Vice President of the United States March 5, 1917 Course of Instruction at the United States Naval Academy The Hague Child Abduction Convention A Critical Analysis [A&C Black](#) International child abduction is one of the most emotionally charged and fascinating areas of family law practice. The 1980 Hague Convention on the Civil Aspects of International Child Abduction was the response of the international community to the increase in the phenomenon of parental child abduction. However, behind the widely acclaimed success of this Convention - which has now been ratified by more than 90 states - lie personal tragedies, academic controversy and diplomatic tensions. The continuing steady flow of case-law from the various Member States has resulted in the emergence of different approaches to the interpretation of key concepts in the Convention. In addition, over the years other global and regional legal instruments and the recommendations of the Special Commissions have had an impact on the implementation of the Convention. This book brings together all these strands and provides an up-to-date, clear and highly readable discussion of the international operation of the Abduction Convention together with in-depth critical academic analysis in light of the objectives of the Convention and other relevant legal norms, such as the 1989 UN Convention on the Rights of the Child. Throughout the book, examples are brought from case law in many jurisdictions and reference is made to relevant legal and social science literature and empirical research. Over the past decade, increasing focus has been placed on what might be seen as procedural issues, such as separate representation for children, undertakings, judicial liaison and mediation. The book analyses the significance of these developments and the extent to which they can help resolve the continuing tension between some of the objectives of the Convention and the interests of individual children. This book will be essential reading for judges, practitioners, researchers, students, policy-makers and others who are seeking a critical and informed analysis of the latest developments in international abduction law and practice. From the Foreword by Brenda Hale, Justice of the Supreme Court of the United Kingdom 'This book is, as far as I am aware, the first scholarly monograph to study the interpretation and application of the Convention across the whole legal space which it occupies and to critically assess these in light of the object and purposes of the Convention and other relevant legal norms. Cases are drawn from many jurisdictions to discuss how different countries interpret the Convention and links are made with relevant statistical, social and psychological research in a thoughtful discussion of the significance of such material both to judicial decision-making and to policy development...a study which deserves to be read by anyone with an interest in the modern phenomenon of international child abduction, whether judge, practitioner, policy-maker, parent, researcher or scholar. There is plenty for us all to think about.' Towards Sustainable Consumption A European Perspective An understanding of the patterns and driving forces of consumption will lead to strategies to improve resource efficiency. This work looks at how Europe is moving to sustainable consumption. The contributions come from the InterAcademy Panel conference on science's role in formulating policy. The PC Engineer's Reference Book [Sigma Press](#) Readers' Guide to Periodical Literature Burns V. Sullivan Transition to Global Sustainability The Contribution of Brazilian Science Dentists [Pebble](#) Open wide! Dentists care for people's teeth. Affective Health and Masculinities in South Africa An Ethnography of (In)vulnerability [Routledge](#) Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health. The Law of Liability Insurance The Law of Liability Insurance addresses a specialist niche of law with comprehensive coverage of common law and statute. Liability insurance provides indemnity against loss to the insured flowing from their liability to another. Types of liability insurance discussed in this two volume work include: motor vehicle, product liability, directors' and officers', employers' liability, professional indemnity, householders' liability, home contents, occupiers' liability, aviation. The Law of Liability Insurance is the decisive title covering the fundamental areas of insurance liability. This new edition has been substantially revised and updated. The area of insurance has changed significantly since the publication of the second edition in 2005. The authors' renowned expertise have woven these developments throughout the new edition and offer insightful analysis and vital references. The purpose of The Law of Liability Insurance is to provide for practitioners and insurers a practical discussion of matters where controversy arises, and to provide the authorities upon which the discussion is based. This review was first published in the Law Institute Journal Victoria 88.01, April 2014 This review was published in LawNews - February 28, 2014 Features; Comprehensive two volume; High level
