The Power of Faith

Whitaker House Dare to Believe! Laughing at the impossible was a way of life for Smith Wigglesworth. He trusted wholeheartedly in the words of Jesus, "Only believe" (Mark 5:36). God used his simple faith to restore sight to the blind, health to the sick, and even life to the dead. This same kind of miracle-working faith can be yours. Lacking vision and purpose? Discover your God-given destiny. Crippled by insecurity? Experience emotional wholeness. Feeling powerless? God wants to use you in amazing ways. The sustaining effect of the smallest drop of faith will create continues ripples of power. As you believe God, your faith will explode. Your miracle is waiting for you.

The Faith and the Power : the Inspiring Story of the First Christians & how They Survived the Madness of Rome

A First Century History

New insights unearthed -- How the early Jewish-Christians coped after the crucifixion of Jesus; why Nero tried to purge them; why the emperor's insatiable greed for money forced Jerusalem into a ruinous civil war and how the first Christians emerged with a new vitality that would one day sweep away Rome's profusion of pagan gods and temples. The Bible offers sketchy answers to these and many more questions. But when integrated with the perspective of early Jewish, Roman and Christian writers, the result is a chronological, three-dimensional documentary that both explains and enriches the Book of Acts and other New Testament writings. The most complete account to date of the turbulent, traumatic first century that laid the groundwork for Western Civilization for the next two millennia.

The Work of Faith with Power

Cold Anger

A Story of Faith and Power Politics

Cold Anger is an important book about the empowerment of working-class communities through church-based social activism. Such activism is certainly not new, but the conscious merger of community organizing tactics with religious beliefs may be. The organizing approach comes from Aul Alinsky and his Industrial Areas Foundations (IAF). . . . The book is structured around the political life of Ernesto Cortes Jr., the lead IAF organizer who has earned recognition as one of the most powerful individuals in Texas (and who has been

featured on Bill Moyers' "World of Ideas"). . . . Cortes fashioned a hard-ball Alinsky approach onto the natural organizing ground of church-based communities. The experiment began in San Antonio . . . and was successful in the transformation of San Antonio politics. Such dramatic success . . . led to similar efforts in Houston, Fort Worth, El Paso, the Rio Grande Valley, Phoenix, Los Angeles, and New York, to mention only a few sites. Expansion beyond San Antonio meant organizing among Protestant churches, among African American and white, and among middle-class communities. In short, these organizing efforts have transcended the particularistic limits of religion, ethnicity, and class while maintaining a church base and sense of spiritual mission. . . . Rogers's clearly written book will be of great value to the scholar, student, and layperson interested in urban politics, ethnic relations, social movements, or church activism.

Faith and the Supernatural Power of God

How to Have the Faith that Will Release the Explosive Power of God Into Every Area of Your Life

Trilogy Christian Publishing This book will clearly show you the Heart of Love your Heavenly Father has concerning you and will guide you, step by step, into knowing and applying God's very best for your life. It will plainly show you how to receive Heaven's best in each and every aspect of your day to day life and living. During my childhood and adolescence, I unfortunately observed far too many Christians who, although saved for many years, seemed powerless against the onslaught of the enemy. I would hear that Jesus was God and All Powerful but rarely would I witness His Power in the actions and in the lives of those within the church community. Subsequently, I spent many years living away from God but from the moment Jesus came and found a then twenty-eight year old me, I was determined to encounter the Jesus of the Bible, to learn from Him exactly Who He is and to experience for myself His Miraculous Power... Power that I had glimpses of as a child.

Faith: The Link with God's Power

Whitaker House God's Gift to All Believers Some believe that simply having faith is an entitlement to blessing and prosperity. Others believe that faith in oneself is all that is needed in life. Still others contend that faith is a cosmic force that breeds superhuman, super-spiritual, invincible power. It is none of these. Faith is not something requiring you to believe in what you know is not true, nor is it believing something for which there is no evidence. The Bible—a book all about faith—provides the evidence that makes faith so vital, so important, and so astounding. In Faith: The Link with God's Power, international evangelist Reinhard Bonnke draws from his years of personal study and vibrant ministry to reveal that... Faith is like a wiring system that carries power into our lives. Faith itself is not the power, but it links us to the power source. There is no link to God's power without faith. Our belief in what happens tomorrow stems from what we already experienced yesterday. It is not the size of your faith but the size of the God you believe in that determines the results. Reinhard Bonnke is more qualified than most to shed light on what it means to minister in the power of the Holy Spirit. He and his CfaN team regularly conduct gospel crusades in Africa, where signs and wonders follow the preaching of the gospel. In one six-day crusade, more than 1,600,000 people attended a single service, with 3,450,000 making positive decisions for Christ over the course of the event. Indeed, these are days in which God's people can abound in faith!

Faith and Power in Japanese Buddhist Art, 1600–2005

University of Hawaii Press *Faith and Power in Japanese Buddhist Art* explores the transformation of Buddhism from the premodern to the contemporary era in Japan and the central role its visual culture has played in this transformation. Although Buddhism is generally regarded as peripheral to modern Japanese society, this book demonstrates otherwise. Its chapters elucidate the thread of change over time in the practice of Buddhism as revealed in temple worship halls and other sites of devotion and in imagery representing the religion’s most popular deities and religious practices. It also introduces the work of modern and contemporary artists who are not generally associated with institutional Buddhism and its canonical visual requirements but whose faith inspires their art. The author makes a persuasive argument that the neglect of these materials by scholars results from erroneous presumptions about the aesthetic superiority of early Japanese Buddhist artifacts and an asserted decline in the institutional power of the religion after the sixteenth century. She demonstrates that recent works constitute a significant contribution to the history of Japanese art and architecture, providing evidence of Buddhism’s compelling presence at all levels of Japanese society and its evolution in response to the needs of new generations of supporters.

The Transforming Power of Faith

Ignatius Press "Having faith in the Lord is not something that involves solely our intelligence, the area of intellectual knowledge; rather, it is a change that involves our life, our whole self: feelings, heart, intelligence, will, corporeity, emotions, and human relationships. With faith everything truly changes." So Pope Benedict XVI introduced his catecheses for the Year of Faith, a series of sixteen talks given at his weekly audience from October 2012 to the end of his papacy in February 2013. These talks explore how and why faith is relevant in the contemporary world. How can we come to certainty about things that cannot be calculated or scientifically confirmed? What does God's revelation mean for our daily lives? How can the hunger of the human heart be fulfilled? Offering the guidance of biblical exegesis, pastoral exhortation, and brotherly encouragement, Pope Benedict seeks to

answer these questions and many others.

Russian Orthodoxy Resurgent

Faith and Power in the New Russia

Princeton University Press Russian Orthodoxy Resurgent is the first book to fully explore the expansive and ill-understood role that Russia's ancient Christian faith has played in the fall of Soviet Communism and in the rise of Russian nationalism today. John and Carol Garrard tell the story of how the Orthodox Church's moral weight helped defeat the 1991 coup against Gorbachev launched by Communist Party hardliners. The Soviet Union disintegrated, leaving Russians searching for a usable past. The Garrards reveal how Patriarch Aleksy II--a former KGB officer and the man behind the church's successful defeat of the coup--is reconstituting a new national idea in the church's own image. In the new Russia, the former KGB who run the country--Vladimir Putin among them--proclaim the cross, not the hammer and sickle. Meanwhile, a majority of Russians now embrace the Orthodox faith with unprecedented fervor. The Garrards trace how Aleksy orchestrated this transformation, positioning his church to inherit power once held by the Communist Party and to become the dominant ethos of the military and government. They show how the revived church under Aleksy prevented mass violence during the post-Soviet turmoil, and how Aleksy astutely linked the church with the army and melded Russian patriotism and faith. Russian Orthodoxy Resurgent argues that the West must come to grips with this complex and contradictory resurgence of the Orthodox faith, because it is the hidden force behind Russia's domestic and foreign policies today.

The Postsocialist Religious Question

Faith and Power in Central Asia and East-Central Europe

LIT Verlag Münster Assumptions of increasing secularization have been called into question across the globe but under the socialist variants of modernity traditional forms of religious belief and practice were subject to quite specific forms of repression in favour of 'scientific atheism'. What is the legacy of this socialist experience for the postsocialist era? How is religion mobilized in the public sphere to support assertions of ethnic identity and the building of nations and states? In the private sphere, how does religion help persons to cope with uncertainty and dislocation? What has been the impact of external influences, including pressures to implement religious human rights as well as the missionising efforts of modernist, 'universalizing' faiths, both Christian and Muslim? This book explores new configurations of local, national and global religious communities through ethnographic studies from two regions, Central Asia and East-Central Europe. The main focus is on the consequences of changes in the sphere of religion for generalized civility, which is understood minimally as the acceptance of diverse beliefs and practices in everyday social life.

The Way Forward

Embracing Unity, Faith and Power

iUniverse Confused? Frustrated? Perplexed? You're not alone. Today these are common reactions to the often baffling world we live in. But this plague isn't restricted just to the secular world; it has seeped into the church as well. The Bible speaks out about the many pressures that would fall upon the church prior to the coming of Christ. It is amazing, though, that so many Christians have disregarded this warning from the Word of God. As a result, many have lost their sense of purpose and direction. "The Way Forward" explores the various challenges faced by the believer and the church today. It is intended to help you better understand God's glorious purpose for the church and your personal part in it. It

will give you God's perspective, rather than man's. The content emphasizes the soulful plea of the "called-out" believer for the return to holiness, as delineated by God. The church is positioned for the most crucial stage of its human and spiritual experience—the Lord's arrival. This book seeks to be a gauge as to where one may be in God's economy and to spiritually awaken and inspire the thirsty soul to a higher level of consciousness. The message of this book is simple: move forward and refuse to become stagnant or motionless! In today's confusing, challenging, and directionless world, it's just too easy for a person of faith to feel lost and alone. "The Way Forward" provides inspiration to help maintain and redirect your walk with God.

Catholics and Politics

The Dynamic Tension Between Faith and Power

Georgetown University Press Catholic political identity and engagement defy categorization. The complexities of political realities and the human nature of such institutions as church and government often produce a more fractured reality than the pure unity depicted in doctrine. Yet, in 2003 under the leadership of then-pope Joseph Cardinal Ratzinger (now Pope Benedict XVI), the Congregation for the Doctrine of the Faith issued a "Doctrinal Note on Some Questions Regarding the Participation of Catholics in Political Life." The note explicitly asserts, "The Christian faith is an integral unity, and thus it is incoherent to isolate some particular element to the detriment of the whole of Catholic doctrine. A political commitment to a single isolated aspect of the Church's social doctrine does not exhaust one's responsibility toward the common good." Catholics and Politics takes up the political and theological significance of this "integral unity," the universal scope of Catholic concern that can make for strange political bedfellows, confound predictable voting patterns, and leave the church poised to critique narrowly partisan agendas across the spectrum. Catholics and Politics depicts the ambivalent character of Catholics' mainstream "arrival" in the U.S. over the past forty years, integrating social scientific, historical and moral accounts of persistent tensions between faith and power. Divided into four parts—Catholic Leaders in U.S. Politics; The Catholic Public; Catholics and the Federal Government; and International Policy and the Vatican—it describes the implications of Catholic universalism for voting patterns, international policymaking, and partisan alliances. The book reveals complex intersections of Catholicism and politics and the new opportunities for influence and risks of cooptation of political power produced by these shifts. Contributors include political scientists, ethicists, and theologians. The book will be of interest to scholars in political science, religious studies, and Christian ethics and all lay Catholics interested in gaining a deeper understanding of the tensions that can exist between church doctrine and partisan politics.

Religion, Language, and Power

Routledge Religion, Language and Power shows that the language of 'religion' is far from neutral, and that the packaging and naming of what English speakers call 'religious' groups or identities is imbued with the play of power. Religious Studies has all too often served to amplify voices from other centers of power, whether scripturalist or otherwise normative and dominant. This book's de-centering of English classifications goes beyond the remit of most postcolonial studies in that it explores the classifications used in a range of languages — including Arabic, Sanskrit, Chinese, Greek and English — to achieve a comparative survey of the roles of language and power in the making of 'religion'. In contextualizing these uses of language, the ten contributors explore how labels are either imposed or emerge interactively through discursive struggles between dominant and

marginal groups. In dealing with the interplay of religion, language and power, there is no other book with the breadth of this volume.
