The introductory chapters (1-3) in this volume take as their starting point the elements of the Essential Packages presented in the overview chapters of each volume. First, the chapter on intersectoral policy priorities for health includes fiscal and intersectoral policies and assembles a subset of the population policies and applies strict criteria for a low-income setting in order to propose a "highest-priority" essential package. Second, the chapter on packages of care and delivery platforms for universal health coverage (UHC) includes health sector interventions, primarily clinical and public health services, and uses the same approach to propose a highest priority package of interventions and policies that meet similar criteria, provides cost estimates, and describes a pathway to UHC. **El-Hi Textbooks in Print Christian Home Educators' Curriculum Manual Junior/Senior High / Cumulative Book Index** A world list of books in the English language. **Web-Based Education: Concepts, Methodologies, Tools and Applications Concepts, Methodologies, Tools and Applications IGI Global** "This comprehensive collection offers a compendium of research on the design, implementation, and evaluation of online learning technologies, addressing the challenges and opportunities associated with the creation and management of Web-based applications and communities, instructional design, personalized learning environments, and effective educational delivery"--Provided by publisher. **Pacemaker World History** This revised textbook program helps students of all abilities see the relevance of world history in their lives with stories of the world's people, from the earliest times to the present. Pacemaker® World History provides engaging features like History in Your Life, You Decide, and History Fact presented in accessible language to help all students learn about world history. Sections like Learn More About It, Great Names in History, Words from the Past, and Reading Strategies give students the support they need to build a solid foundation in world history. Lexile Level 760 Reading Level 3-4 Interest Level 6-12 **King Lear Courier Corporation** Contains the unabridged text King Lear as published in Volume XVII of Tkhe Caxton Edition of the Complete Works of William Shakespeare. **Exploring America American History, English, and Bible for High School Disease Control Priorities, Third Edition (Volume 5) Cardiovascular, Respiratory, and Related Disorders World Bank Publications** Cardiovascular, respiratory, and related conditions cause more than 40 percent of all deaths globally, and their substantial burden is rising, particularly in low- and middle-income countries (LMICs). Their burden extends well beyond health effects to include significant economic and societal consequences. Most of these conditions are related, share risk factors, and have common control measures at the clinical, population, and policy levels. Lives can be extended and improved when these diseases are prevented, detected, and managed. This volume summarizes current knowledge and presents evidence-based interventions that are effective, cost-effective, and scalable in LMICs. **Children's Books in Print, 2007 An Author, Title, and Illustrator Index to Books for Children and Young Adults The Bottom Billion Why the Poorest Countries are Failing and What Can Be Done About It Oxford University Press** In the universally acclaimed and award-winning The Bottom Billion, Paul Collier reveals that fifty failed states--home to the poorest one billion people on Earth--pose the central challenge of the developing world in the twenty-first century. The book shines much-needed light on this group of small nations, largely unnoticed by the industrialized West, that are dropping further and further behind the majority of the world's people, often falling into an absolute decline in living standards. A struggle rages within each of these nations between reformers and corrupt leaders--and the corrupt are winning. Collier analyzes the causes of failure, pointing to a set of traps that ensnare these countries, including civil war, a dependence on the extraction and export of natural resources, and bad governance. Standard solutions do not work, he writes; aid is often ineffective, and globalization can actually make matters worse, driving development to more stable nations. What the bottom billion need, Collier argues, is a bold new plan supported by the Group of Eight industrialized nations. If failed states are ever to be helped, the G8 will have to adopt preferential trade policies, new laws against corruption, new international charters, and even conduct carefully calibrated military interventions. Collier has spent a lifetime working to end global poverty. In The Bottom Billion, he offers real hope for solving one of the great humanitarian crises facing the world today. "Set to become a classic. Crammed with statistical nuggets and common sense, his book should be compulsory reading." --The Economist "If Sachs seems too saintly and Easterly too cynical, then Collier is the authentic old Africa hand: he knows the terrain and has a keen ear.... If you've ever found yourself on one side or the other of those arguments--and who hasn't?--then you simply must read this book." --Niall Ferguson, The New York Times Book Review "Rich in both analysis and recommendations.... Read this book. You will learn much you do not know. It will also change the way you look at the tragedy of persistent poverty in a world of plenty." --Financial Times **Voices of America The Immigrant Experience Globe Fearon Company** Introduce students to key social studies events that changed the course of history With these six softcover texts, your students will explore key historical events that shaped the course of history-The Vietnam War, The Holocaust, Voices of America (The Immigrant Experience), The Great Migration (African American Journey North), The Civil Rights Movement, and Somos Mexicanos (Mexican Americans in the U.S.). Reading Level: 5-6 Interest Level: 6-12 **Attachment Theory and Research New Directions and Emerging Themes Guilford Publications** This volume showcases the latest theoretical and empirical work from some of the top scholars in attachment. Extending classic themes and describing important new applications, the book examines several ways in which attachment processes help explain how people think, feel, and behave in different situations and at different stages in the life cycle. Topics include the effects of early experiences on adult relationships; new developments in neuroscience and genetics; attachment orientations and parenting; connections between attachment and psychopathology, as well as health outcomes; and the relationship of attachment theory and processes to clinical interventions. **Forcibly Displaced Toward a Development Approach Supporting Refugees, the Internally Displaced, and Their Hosts World Bank Publications** The Syrian refugee crisis has galvanized attention to one of the world's foremost challenges: forced displacement. The total number of refugees and internally displaced persons, now at over 65 million, continues to grow as violent conflict spikes. This report, Forcibly Displaced: Toward a Development Approach Supporting Refugees, the Internally Displaced, and Their Hosts, produced in close partnership with the United Nations High Commissioner for Refugees (UNHCR), attempts to sort fact from fiction to better understand the scope of the challenge and encourage new thinking from a socioeconomic perspective. The report depicts the reality of forced displacement as a developing world crisis with implications for sustainable growth: 95 percent of the displaced live in developing countries and over half are in displacement for more than four years. To help the displaced, the report suggests ways to rebuild their lives with dignity through development support, focusing on their vulnerabilities such as loss of assets and lack of legal rights and opportunities. It also examines how to help host communities that need to manage the sudden arrival of large numbers of displaced people and that are under pressure to expand services, create jobs, and address long-standing development issues. Critical to this response is collective action. As work on a new Global Compact on Responsibility Sharing for Refugees progresses, the report underscores the importance of humanitarian and development communities working together in complementary ways to support countries throughout the crisis•from strengthening resilience and preparedness at the onset to creating lasting solutions. **Inside Countries Subnational Research in Comparative Politics Cambridge University Press** Offers a groundbreaking analysis of the distinctive substantive, theoretical and methodological contributions of subnational research in the field of comparative politics. **Violence and Social Orders A Conceptual Framework for Interpreting Recorded Human History Cambridge University Press** This book integrates the problem of violence into a larger framework, showing how economic and political behavior are closely linked. **Discovery to the Civil War Globe Fearon Company** This program provides clear, simple language and lively graphics to support and illustrate important ideas. Reading Level: 3-4 Interest Level: 6-12 **Electoral Systems and Conflict in Divided Societies National Academies Press** This paper is one of a series being prepared for the National Research Council's Committee on International Conflict

Resolution. The committee was organized in late 1995 to respond to a growing need for prevention, management, and resolution of violent conflict in the international arena, a concern about the changing nature and context of such conflict in the post-Cold War era, and a recent expansion of knowledge in the field. The committee's main goal is to advance the practice of conflict resolution by using the methods and critical attitude of science to examine the effectiveness of various techniques and concepts that have been advanced for preventing, managing, and resolving international conflicts. The committee's research agenda has been designed to supplement the work of other groups, particularly the Carnegie Corporation of New York's Commission on Preventing Deadly Conflict, which issued its final report in December 1997. The committee has identified a number of specific techniques and concepts of current interest to policy practitioners and has asked leading specialists on each one to carefully review and analyze available knowledge and to summarize what is known about the conditions under which each is or is not effective. These papers present the results of their work. **Global Studies Globe Fearon Company Effective Governance Under Anarchy Institutions, Legitimacy, and Social Trust in Areas of Limited Statehood Cambridge University Press** "Areas of limited statehood are ubiquitous. Most states in the contemporary international system contain areas in which states are too weak to set and enforce rules and/or lack the monopoly of the use of force. The modern ("Western") nation-state with full control over its territory and sufficient capacity to enforce the law is the exception rather than the rule. At the same time, areas of limited statehood are neither ungoverned nor ungovernable. Some actors always engage in governance. Rebels, "traditional" authorities, companies, (I)NGOs and foreign governments seek to make rules and provide collective goods and services, such as security, human rights and the rule of law, democracy, health, education, food security, and others. Three drivers, alone or in combination, explain effective "governance under anarchy": First, the governing actors and institutions must enjoy legitimacy and social acceptance. Second, governance institutions have to be "fit for purpose," adequately resourced, as well as inclusive, fair, and transparent. Third, social trust relations among citizens and within local communities are crucial in enabling collective action capacity "under anarchy."""-- **Julius Caesar Fearon** With its high-interest adaptations of classic literature and plays, this series inspires reading success and further exploration for all students. These classics are skillfully adapted into concise, softcover books of 80-136 pages. Each retains the integrity and tone of the original book. Interest Level: 5-12 Reading Level: 3-4 **American Government** "Published by OpenStax College, American Government is designed to meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them. Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project."--BC Campus website. **American Government** American Government is designed to meet the scope and sequence requirements of the single-semester American Government course.
