Authored by one of IBM's top Lotus experts, it draws on the firsthand experiences of IBM professionals working in hundreds of client environments. Mark Elliott has created a true "encyclopedia" of proven resolutions to common problems and has streamlined processes for infrastructure support. Elliott systematically addresses support solutions for all recent Lotus Notes and Domino environments. **Survival Guide for Lotus Notes and Domino Administrators** is organized for rapid access to specific solutions in three key areas: client setup, technical support, and client software management. It brings together best practices for planning deployments, managing upgrades, addressing issues with mail and calendars, configuring settings based on corporate policies, and optimizing the entire support delivery process. Along the way, Elliott illuminates the administrative and support implications of the latest enhancements to Lotus Notes and Lotus Domino, in areas ranging from messaging to plug-in support. Whatever your role in managing, administering, or supporting IBM Lotus technologies, this book will help you respond more quickly, efficiently, and effectively—reducing support costs as you increase customer satisfaction. Coverage includes An overview to key software changes introduced in Release 8.0 Resolutions to dozens of error messages and other obscure issues Using the "Smart Upgrade" toolkit to automate upgrades Implementing policies to manage client settings and reduce administrative overhead Optimizing Lotus Notes performance and avoid user frustration Making the most of technical support tools and plug-ins Finding technical support and patches on the IBM developerWorks website Configuring Lotus Notes and supporting common activities **IBM Lotus Notes 8.5 User Guide Packt Publishing Ltd** A practical hands-on user guide and eBook with time saving tips and comprehensive instructions for using Lotus Notes effectively and efficiently. **Lotus Notes 4.5 Administrator's Guide Sybex** This book covers the upcoming Domino server upgrade, which includes expanded Internet connectivity features. Along with a midmarket customer focus, this IBM Redpaper™ publication is designed to help IBM teams and Business Partners be more effective in serving small and midsized businesses. We illustrate how IBM software for the midmarket can help businesses use the Web to reduce expenses, improve customer service, and expand into new markets. We cover the IBM software offering for the midmarket, which includes what the software does, the platforms it runs on, where to find more information, and how it can help your business become more profitable: - IBM Business Partners often keep a printed copy of this guide in their briefcases for software references - Customers can view this guide online and look up software-value messages and IBM product family offering comparisons - IBM Sales Representatives can print parts of this guide as "leave-behinds" for customers, to give them extra collateral on midmarket software of interest To make sure that you have the latest version of this guide, download it from this web address: <http://www.redbooks.ibm.com/abstracts/redp3975.html?Open> **Mastering XPages A Step-by-Step Guide to XPages Application Development and the XSP Language Pearson Education** The first complete, practical guide to XPages development - direct from members of the XPages development team at IBM Lotus Martin Donnelly, Mark Wallace, and Tony McGuckin have written the definitive programmer's guide to utilizing this breakthrough technology. Packed with tips, tricks, and best practices from IBM's own XPages developers, Mastering XPages brings together all the information developers need to become experts - whether you're experienced with Notes/Domino development or not. The authors start from the very beginning, helping developers steadily build your expertise through practical code examples and clear, complete explanations. Readers will work through scores of real-world XPages examples, learning cutting-edge XPages and XSP language skills and gaining deep insight into the entire development process. Drawing on their own experience working directly with XPages users and customers, the authors illuminate both the technology and how it can be applied to solving real business problems. Martin Donnelly previously led a software startup that developed and distributed small business accounting software. Donnelly holds a Commerce degree from University College Cork and an M.S. in Computer Science from Boston University. Mark Wallace has worked at IBM for 15 years on many projects as a technical architect and application developer. Tony McGuckin participates in the Lotus OneUI Web Application and iWidget Adoption Workgroup. He holds a bachelor's degree in Software Engineering from the University of Ulster. **IBM Lotus Notes and Domino 8.5.1: The Upgrader'S Guide Lotus Notes Developer's Guide For Users of Release 4.0 Through 4.5 Wordware** eloper's Guide" provides a comprehensive supplement to the Lotus documentation.
