### THE GUIDE TO DRAWING

---

---

### A STEP-BY-STEP DRAWING AND ACTIVITY BOOK FOR KIDS TO LEARN TO DRAW COMMON STUFF IN LIFE

---

Drawing makes children happier all their lives! What are the factors that determine happiness in life? Money? Status? To a large extent, it is a person's aesthetic view. A person who understands aesthetics can find and feel beauty in life, whether poor or rich. Reading and drawing can make children mild in temper and improve their intelligence. The most important thing for children to draw is to gain self-confidence. Which is the best way to express themselves. Sometimes children's ideas can not be expressed, but can be expressed on the canvas. In evaluating children's paintings, we should not use "likeness" to say that the most important thing is to encourage children to keep their enthusiasm for painting, and they can persevere and gain self-confidence in this respect. Never underestimate the impact of painting on children! Children's learning painting is conducive to the development of memory, imagination, especially imagination. Children's imagination is very rich and strange. Rich imagination is the most basic quality of scientists and writers, as well as the maintenance and sublimation of childlike innocence. Children's imagination is expanded and deepened in painting, which is the basis of talent growth. Children can vent through drawing Allowing children to draw freely is also an important means for their psychological self-protection. Children's inner depression and psychological burden will not release their emotions by talking with several intimate friends as adults do. They do not have the ability to do so. Painting, especially free painting, is a child's psychological self-accusation. Children's internal contradictions which can not be disclosed at ordinary times can be vented from them, which can lighten the psychological burden and help to maintain mental health. Children appreciate the beauty of life The purpose of preschool art education is not to train children to be small painters, but to germinate their aesthetic feeling and cultivate their creative expression ability, which will become their valuable wealth in life and benefit them for life. Painting is like a game. When you play it, you will feel deeply and express your wishes more easily and boldly. "Innovation" is the main theme of children's painting. Exercise children's observation ability In the process of children's painting, they will constantly observe the world from their own perspective and integrate into their own paintings. People who learn to draw see the world differently from people who don't. Painters pay more attention to the details and texture of an object. More appreciate the beauty of the world.

### HELPING YOUR ANXIOUS CHILD

---

### A STEP-BY-STEP GUIDE FOR PARENTS

---

New Harbinger Publications Most children are afraid of the dark. Some fear monsters under the bed. But at least ten percent of children have excessive fears and worries—phobias, separation anxiety, panic attacks, social anxiety, or obsessive-compulsive disorder—that can hold them back and keep them from fully enjoying childhood. If your child suffers from any of these forms of anxiety, the program in this book offers practical, scientifically proven tools that can help. Now in its second edition, Helping Your Anxious Child has been expanded and updated to include the latest research and techniques for managing child anxiety. The book offers proven effective skills based in cognitive behavioral therapy (CBT) to aid you in helping your child overcome intense fears and worries. You'll also find out how to relieve your child's anxious feelings while parenting with compassion. Inside, you will learn to: Help your child practice “detective thinking” to recognize irrational worries What to do when your child becomes frightened How to gently and gradually expose your child to challenging situations Help your child learn important social skills This book has been awarded The Association for Behavioral and Cognitive Therapies Self-Help Seal of Merit—an award bestowed on outstanding self-help books that are consistent with cognitive behavioral therapy (CBT) principles and that incorporate scientifically tested strategies for overcoming mental health difficulties. Used alone or in conjunction with therapy, our books offer powerful tools readers can use to jump-start changes in their lives.

### OVERCOMING YOUR CHILD'S FEAR OF DOGS: A STEP-BY-STEP GUIDE FOR PARENTS

---

Gatekeeper Press Based on decades of experience as a therapist, parenting coach and mother of a child who was afraid of dogs, I developed the Overcoming Fear of Dogs (OFOD) protocol. This is a step-by-step guide for parents (therapists will find it helpful as well)

based on exposure therapy using a live dog. This book provides an easy to understand tool for parents to help their child overcome the fear of dogs. By using exposure therapy and my specifically designed exercises, parents will gradually increase their child's exposure to a real dog and thereby decrease their child's fear and resistance. This book helps parents understand how and why their child is afraid of dogs and most importantly how to help their child face the fear and overcome it. When a child has a strong fear of dogs it is important to address this fear as soon as possible. There is much to gain when children are able to overcome their fears. They develop self-confidence and self-esteem and feel empowered. Children who face their fears learn coping skills and self-control, two of the biggest predictors of success later in life. In addition, they learn to speak up and ask for help. By using the method in this book children will become more aware of their feelings and learn to express them clearly. Mindfulness and relaxation exercises are included in the book to help this develop. Anxiety and fear create the feeling of being out of control. My method helps kids feel in control and ""take back the leash"" when interacting with dogs. Most children do not outgrow this fear and they need to have supervised brief and positive experiences with dogs in order to feel safe and in control when interacting with them. Dogs are everywhere these days and it is impossible to avoid them. Kids who are afraid of dogs suffer socially and emotionally. They avoid sleepovers and play dates where a dog is in residence. They often refuse to go to a park in case they might encounter a dog . Some children will even endanger themselves by running into the street to avoid a dog. Children are afraid of things they don't understand and this book provides education for parents and children about dogs. The book includes information on how dogs communicate as well as how to ""read"" dogs and know when it is safe to interact with them and when it is best to stay away. My ultimate goal is to enable children to feel comfortable around dogs so their lives aren't disrupted by the fear of them. While the book is designed for parents of children aged 5-12 my method can be used with older children and adults.
